NOTIFICATION.

The 28th July 1884.—Whereas a notification was published at page 541, Part I of the *Calcutta Gazette* of the 23rd April last, declaring the intention of the Lieutenant-Governor to sanction the levy by the Commissioners of the Nuddea Municipality, under section 134 of the Bengal Municipal Act, 1876, of a fee on the registration, under section 133 of the Act, of all carts kept or habitually used within the municipality, and whereas no objection has been raised to the proposal within one month from the publication of the above notification within the municipality, it is hereby notified for general information that, in the exercise of the powers conferred upon him by section 78 of the Act, the Lieutenant-Governor sanctions the levy of the fees with effect from the 1st October 1884.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 28th July 1884.—Whereas a notification was published at page 586, Part I of the *Calcutta Gazette* of the 7th May 1884, declaring the intention of the Lieutenant-Governor to confirm the following bye-laws framed by the District Road Committee of Mymensingh under section 180 of the Cess Act IX (B. C.) of 1880, and whereas no objections have been raised to the said bye-laws, it is now notified for general information that they are confirmed.

Bye-laws.

I. Any one making or causing any obstruction, by means of buildings, huts, fences or otherwise, on any roadway or side-drain, or by tethering cattle upon, or so that they can stray upon any roadway or side-drain, or by leaving carts or cattle standing without a driver, so as to cause inconvenience or danger to the public or to any person, or by stacking straw or jute, or by exposing goods for sale, or by depositing rubbish or the like, shall be liable to a fine not exceeding Rs. 10, and to a further fine not exceeding Rs. 2 for every day on which the offence is continued.

II. Any one making or causing any obstruction in or to any waterway or drain or channel running alongside of any roadway, or in the immediate vicinity of any bridge or culvert, constructed or being constructed on any road cess road, so as to injure, or tend to injure, such structure or roadway, shall be liable to a fine not exceeding Rs. 10, and to a further fine not exceeding Rs. 2 for every day on which the offence is continued.

III. Any one cutting or damaging trees planted by, or under charge of, the Road Committee, or damaging fences on any roadway or its slope, shall be liable to a fine not exceeding Rs. 10.

IV. Any one committing a nuisance on any roadway, or in its immediate vicinity, or in any side excavations or under any bridge, shall be liable to a fine not exceeding Rs. 2.

V. Any one excavating a hole, pit, tank, or well without the permission of the District Engineer, within 15 feet from the bottom of any road slope, shall be liable to a fine not exceeding Rs. 10, and to a further fine not exceeding Rs. 2 for every day on which such hole, pit, &c., shall not be filled up after due notice given.

VI. Any one driving any vehicle, cattle, or elephant along any road during its construction, or until such time as it is declared open by the District Engineer by a public notice given in such manner as the Committee may prescribe, and any one taking an elephant over any wooden bridge, shall be liable to a fine not exceeding Rs. 10.

VII.—During the course of repairing any district road or bridge it shall be lawful for the person in charge of such repairs to stop traffic from passing over such roadway as is undergoing repair, provided he leaves some portion of the roadway over which traffic can pass. Whoever wilfully disobeys any such order shall be liable to a fine not exceeding Rs. 10.

VIII. Any one steeping jute in any roadside drain, the property of the Road Committee, shall be liable to a fine not exceeding Rs. 10, and to a further fine not exceeding Rs. 2 for every day on which the offence is continued.

IX. Whoever being in possession of, or having control over, any trees, bamboos or hedges overhanging or obstructing any road or side-drain or slopes, and being required to cut down or trim such trees, &c., or otherwise remove the obstruction, shall comply with such requisition within seventy-two hours. In default, it shall be lawful for the Road Committee to have the obstruction removed at the cost of the owner up to a maximum of Rs. 10 leviable as a fine.

X. Every driver of a carriage or cart, or every person in charge of cattle or elephants, must keep to his left while passing another vehicle or cattle or elephant moving in the opposite direction along any district road. The penalty for infringement shall be a fine not exceeding Rs. 2.

XI. Every carriage plying between dusk and dawn shall carry two conspicuous lights, and every cart, palki or other vehicle and every elephant shall carry one conspicuous light. The penalty for infringement shall be a fine not exceeding Rs. 2.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 29th July 1884.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the powers vested in him by section 180 of Act IX (B.C.) of 1880, to confirm the following bye-laws which have been framed by the District Road Committee of Hooghly, at a meeting, unless good reasons be shown to the contrary within one month from the date of the publication of this notification.

Bye-laws.

I. Whoever being the owner or occupier of any land on which is growing any plant, tree or hedge, obstructing or overhanging any road in such manner as to be unsafe or inconvenient for passengers using the road, and being required by a notice in writing, signed by the Vice-Chairman or Chairman of the District Road Committee or of any Branch Committee to prune or trim such plant, tree or hedge, shall neglect or omit to comply with such requisition within the period therein prescribed, shall be liable to a fine not exceeding Rs. 10, and to a further fine not exceeding Re. 2 for each day after the imposition of a fine under this bye-law, until the requisition is complied with.

II. Whoever wilfully causes the destruction of, or damage to, any tree planted on a district road, or to any gabion erected for the protection of the same, or whoever removes any post erected on a district road shall, when the act does not amount to an offence under the Indian Penal Code, be liable to a fine under clause 2 of section 180 of Act IX (B.C.) of 1880.

III. Whoever without the special permission of the Chairman or Vice-Chairman of the Road Committee causes an obstruction by cutting any part of a road, or by erecting any embankment for the purposes of irrigation or drainage, shall be liable to a fine not exceeding Rs. 10, and to a further fine not exceeding Re. 1 for each day under the imposition of a fine under this bye-law until the requisition is complied with.

IV. Whoever shall tether any beast on any district road, or within reach of any district road, shall be liable to a fine not exceeding Rs. 10, and the owner of any beast found tethered on any district road, or within reach of any district road, shall be held to have tethered his beast there.

V. Any person who shall scrape or uproot grass on a road, or on the side of a road shall be liable to a fine not exceeding Rs. 10.

VI. Any person who shall erect any stalls or huts for the sale of goods, or for any other purpose, on a road or on the berme of a road, shall be liable to a fine not exceeding Rs. 10, and to a further fine of Re. 1 for each day after the imposition of a fine under this bye-law, until such stall or hut is removed.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 30th July 1884.—Under section 31, Act IV (B.C.) of 1876, the Lieutenant-Governor approves the appointment made by the Commissioners of the Calcutta Corporation of Mr. R. Turnbull, the Secretary to the Corporation, to act as their Vice-Chairman in addition to his own duties, until such time as a new Vice-Chairman is appointed in the place of Rai Shama Churn Dey Bahadur, deceased.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 1st August 1884.—In the exercise of the powers conferred upon him by section 351 of Act III (B.C.) of 1884, and on the recommendation of the Commissioners of the Howrah Municipality, made at a meeting, the Lieutenant-Governor intends to confirm the revised bye-laws, set forth below, which have been framed by the Municipal Commissioners in substitution for the existing bye-laws Nos. 1 and 2, unless valid objections be shown to the contrary within one month from the date of the publication of the notification within the above municipality.

1. An ordinary general meeting of the Commissioners shall be held in every first and third week of the month on such day of the week as they shall fix, from time to time, at a meeting.

2. All such meetings shall be convened by the Chairman or Vice-Chairman by notice to be served on each Commissioner, not later than three days before the day fixed for the meeting.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 42.)

SOUTH PACIFIC OCEAN.

CORAL SEA.

Sand Bank off the N.E. Coast of Australia.

INFORMATION has been received from the President, Marine Board, Port Adelaide, that the master of the British ship *Cambrian Princess*, whilst on a voyage from Cooktown to Port Adelaide, observed a sand bank when off the N.E. coast of Australia. It was about three miles in length and apparently six feet above water.

This sand bank was not indicated by any outlying reefs or discoloured water.

Position.—Latitude 15° 44′ S., longitude 149° 52′ E.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 28th July* 1884.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 43.)

AUSTRALIA—SOUTH COAST.

WATERLOO BAY.

Permanent Moorings in Waterloo Bay.

THE President, Marine Board, Port Adelaide, has given notice that moorings for *four* vessels have been laid down in Waterloo Bay in latitude 33° 39′ 20″ S., longitude 134° 52′ 30″ E.

The *outer* ones (two moorings) are in 27 feet, and the *inner* ones (two moorings) in 11 feet at low water spring tides.

NOTE.—The soundings are very uneven after passing the reefs at the entrance to the Bay, and shoal patches, with 12 to 13 feet at low water, with rocky bottom, exist all over the Bay.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 28th July* 1884.

NOTIFICATION.

The 22nd July 1884.—The following revised Notification is published in supersession of that which appeared at page 515 of Part I of the *Calcutta Gazette* of the 9th April 1884 :—

In continuation of Notification dated 3rd December 1883, which appeared in the *Calcutta Gazette* of 12th December 1883, Part I, page 1256, transferring thanas Kaliangunj and Gokuru from the sudder sub-division of Moorshedabad to the sub-divisions of Lalbagh and Kandi respectively, in the district of Moorshedabad, the Lieutenant-Governor is pleased in the exercise of the power vested in him by section 18, Act VI of 1871, to make similar alterations in the local jurisdictions of the sudder munsifi and of the munsifis of Lalbagh and Kandi.

The munsifis in question will accordingly be constituted as follows :—

Munsifis.	*Thanas.*
Sudder munsifi of Moorshedabad (head-quarters at Berhampore).	Sujaganj. Gorabazar. Burwa. Nowada. Hariharpara. Daulatbazar.
Lalbagh (head-quarters at Lalbagh)	Kalianganj. Shahanagar. Manullabazar. Assanpur. Bhagwangola. Sagardighi (independent outpost).
Kandi (head-quarters at Kandi)	Gokuru. Khargaon. Bharatpur. Kandi.

The thanas of Goas and Jellinghi will continue to constitute the munsifi of Azimganj.

The Lieutenant-Govern ois further pleased to declare, under the same law, that the transfer caused by the said Notification of certain villages (lists A and B) from thana Barwa to thana Bharatpur, and of certain other villages (list C) from thana Barwa to thana Gokuru, will have effect in respect also of civil jurisdiction; that is to say, the villages in question will belong to the jurisdiction of the Kandi munsifi, within which the thanas of Gokuru and Bharatpur are situated.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 22nd July 1884.—In continuation of Notification dated the 27th May 1884 published at page 639, Part I of the *Calcutta Gazette* dated the 28th idem, transferring certain villages therein named from the jurisdiction of thana Baduria, in the Basirhat sub-division, to that of thana Habra, in the Baraset sub-division, of the district of the 24-Pergunnahs, the Lieutenant-Governor, in the exercise of the powers vested in him by section 18, Act VI of 1871 (the Bengal Civil Courts Act), is pleased to vary, and hereby does vary to the same extent, the local limits of the jurisdictions of the munsifis of Basirhat and Baraset, in the said district, with retrospective effect from the 1st May 1884.

F. B. PEACOCK,
Secretary to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT.—BENGAL.

IRRIGATION.

NOTIFICATION.

No. 293, *dated 5th August* 1884.—In the exercise of the powers conferred on him by sections 78 and 99 of Act III (B.C.) of 1876, the Lieutenant-Governor is pleased to pass the following rules for the Midnapore Canal in supersession of the rules now in force:—

A draft of the rules was published in the *Calcutta Gazette* of the dates noted in the margin, as Notification No. 58, dated 29th January 1884.

The 20th January; the 6th, 13th, 20th, and 27th February; and the 5th, 12th, 19th, and 26th March 1884.

1. The officers of the Public Works Department, who have charge of the canal, are solely responsible for maintaining it in an efficient state of repair, for providing drainage channels where necessary, and generally for all engineering work involved in its management, as well as for the distribution of water to lessees. The word "canal" is here used as defined in section 3 of the Act.

2. The Deputy Revenue Superintendent, under the supervision of the Collector of the district as Revenue Superintendent, is responsible for the collection of water-rates and miscellaneous revenue accruing to Government from the canal.

3. Water shall not be distributed otherwise than on the application of a lessee, or of a ryot in whose favour a provisional requisition has been issued, as provided for in Rule 16 below. Such application may be made verbally, or in writing, to any Public Works Department officer in charge of that part of the canal from which water is required.

4. If any lessee apply for water to the Deputy Revenue Superintendent, or one of his subordinates verbally, he should be told to address himself to the officers of the Public Works Department. If he makes such an application in writing, his petition shall be forwarded direct by the canal revenue officer, to whom it is addressed, to the Public Works Department officer in charge of that part of the canal from which the petitioner's village is supplied.

5. Water will be supplied, as a general rule, only from June to November, and it should be understood that, though the officers in charge of the canal are required to supply water as speedily as possible on the application of lessees, it may not be practicable to supply it without some delay.

6. The following rates will be charged for the supply of water on application, when available, from June to November:—

I.—Under five year leases. { Lift, Re. 1 per acre per annum. Flow, Re. 1-8 ditto.

II.—Under one year leases. { Lift, Re. 1-10 per acre per annum. Flow, Rs. 2-8 ditto.

III.—For the supply of water in exceptional cases, when available for winter crops, Re. 1-8 per acre per annum will be charged.

6*a*. For the unauthorised use of canal water Rs. 5 per acre per annum, or such less sum as may be fixed by the Collector, will be charged.

7. Applications for water leases under section 74 of the Act should be presented to the tehsildar of the division in which the applicant's land lies, and, subject to rules 8, 9, 10, and 11 below, tehsildars are authorised to grant such leases.

8. No village shall be brought under lease for the first time, and no lease shall be renewed for a period exceeding one year, without the consent in writing of the Executive Engineer. Such consent in writing may be taken specially for a single village, or generally for specified tracts, including several villages.

9. Every application for a water-lease shall contain the following particulars :—

1.—Name and residence of applicant.

2.—Name of pergunnah, mehal, and village in which the land to be irrigated is situated.

3.—Total area for the irrigation of which the application is made and its boundaries; and if the lands to be irrigated lie in separate *chaks*, the name of each *chak*.

4.—Names of the ryots whose lands are to be irrigated, and the quantity of land held by each.

5.—Name of the canal and number of distributary from which water is required.

6.—Signature of the applicants.

10. Without the permission of the Collector, no application shall include lands belonging to more than one village, but *tehsilalaida* or other lands lying within the village boundary at the time of survey may be included.

11. Without special orders in writing from the Deputy Revenue Superintendent, no application for a water-lease shall be received unless it includes all the irrigable lands in a village.

12. When a water-lease is granted, a *kabuliyat* shall be taken in a form approved by Government, and a "permit" shall be given to the lessee or lessees in a form similar to that prescribed in schedule C of the Act.

13. On the issue of a "permit" as above, of which the tehsildar shall keep a duplicate, he shall forward a copy of the *kabuliyat* to the Deputy Revenue Superintendent for record, and at the same time he shall forward to the Executive Engineer or Sub-Divisional Officer direct, a requisition requesting him to supply water to the lessee on application. This requisition shall be kept by the officers of the Public Works Department till January 1st next following, and shall then be returned to the Deputy Revenue Superintendent. On the back should be noted the several dates on which the village was supplied with water. A fresh requisition should be issued on or before June 1st, and returned on or before January 1st, each year till the lease expires.

14. When application for a lease is received from a village not previously leased, the tehsildar, before granting a lease, shall satisfy himself by comparison with the survey records, as well as by local enquiry, that the particulars given in the application are correct. For the purpose of comparison with the survey record, the application should be sent through the Deputy Superintendent to the Collector. The tehsildar should also satisfy himself that the Executive Engineer's consent, as required by rule 8, has been obtained.

15. When application is made for the renewal of an expired lease, the tehsildar, before granting a new lease, shall satisfy himself by comparison with his register of *kabuliyats* that the particulars given in the application are correct.

16. Pending the result of the enquiries provided for in the last rule, the tehsildar may, at his discretion, issue a provisional requisition for the supply of water to the area covered by the application.

17. Every *kabuliyat* of a water-lease shall, if possible, be signed by or on behalf of all the cultivators concerned; and if this has not been done, an explanation of the omission should be given in submitting the *kabuliyat* to the Deputy Superintendent for record; but every cultivator accepting water under a lease may be regarded as having tacitly agreed to it, even if he has not himself signed the *kabuliyat*.

18. When it comes to the knowledge of the Public Works Department officers in charge of the canal, that canal water has been taken without authority, notice shall be sent to the Deputy Revenue Superintendent, accompanied by the following particulars :—

1.—Name of village and pergunnah.

2.—Number of distributary from which water has been illicitly obtained.

3.—Manner in which water has been taken.

4.—Abstract of evidence that water has been taken.

A separate notice should be sent for each village irrigated without authority.

19. On receipt of such a notice, the Deputy Revenue Superintendent, after such enquiry as may be necessary, and after hearing any objection which may be raised, shall proceed to assess, at the rate provided in rule 6*a*, the land irrigated without authority. If in any case he thinks that this rate should not be imposed, he shall report the matter to the Collector for orders.

20. Ordinary water-rates for each financial year fall due on the 1st February.

21. Water-rates imposed under rule 6*a*, on account of lands irrigated without authority, fall due as soon as the assessment is made, and shall be realized at once.

22. Remission of water-rates may be granted by the Collector on the ground of—

1.—Failure to supply water.

2.—Damage caused by excess of water due to deficient drainage.

Remissions on any other grounds require the sanction of Government.

23 Yearly leases of canal lands may be granted by the Deputy Superintendent, but no lease for a longer period shall be granted without the special orders of the Collector.

24. Before awarding compensation under section 16 of the Act, or making a reference under section 17 of the Act, the Collector shall obtain the written opinion of the Executive Engineer in charge of the canal, and his written opinion shall form part of the record of the proceedings.

25. The Collector may distribute amongst village *mookhyas*, who agree in writing to assist the Deputy Superintendent in collecting water-rates, and generally in his operations under Act III (B.C.) of 1876, a commission calculated in such manner as he may think fit, provided the total amount paid shall not exceed 6 pies in the rupee on the total water-rates collected during the year. If the payments thus made to *mookhyas* do not amount to 6 pies in the rupee on the total water-rates of any year, the Collector may expend the balance in paying extra collecting establishment.

26. Registers will be kept in the Deputy Superintendent's and tehsildar's offices in forms sanctioned by Government.

27. A copy of the Collector's decision in all cases of remission, and of the Magistrate's decision in all cases of proceedings under section 93 or 94 of the Act, shall be forwarded to the Executive Engineer for information and record in his office.

HIGH COURT NOTICES.

HIGH COURT,—Original Side.

NOTIFICATION.

THE following rules, passed by the High Court of Judicature at Fort William in Bengal, under Chapter 4 of the Transfer of Property Act, 1882, are applicable to the Original Side.

By order,
R. BELCHAMBERS, *Registrar.*

HIGH COURT, ORIGINAL SIDE, *the 31st July* 1884.

Application under section 83.

1. Every application under section 83 shall be made by a verified petition, stating the facts.

Payment into Court of costs and expenses under section 83 or any subsequent section.

2. Unless otherwise ordered, there shall be paid into Court, in addition to the sum deposited under section 83 or any subsequent section, a sum sufficient to provide for the fees and charges of the Accountant-General and the Bank of Bengal, and for the mortgagee's costs of obtaining payment out of Court; and also when such payment is made under section 83, a further sum to provide for the mortgagee's costs of transferring the property, and causing such transfer to be registered, such costs to be estimated and certified by the taxing officer.

Costs to be estimated and certified.

Order for payment of money into Court under section 83.

3. Every order for payment of money into Court, under section 83, shall specify the sums to be paid, and the purpose for which each sum is intended.

Service of notice under section 83.

4. Unless otherwise ordered, the applicant, or his attorney, shall serve, or cause to be served, the notice to be given under section 83.

Of notice of payment under any subsequent section.

5. When money is paid into Court under section 86, or under any subsequent section, the person making such payment shall forthwith give written notice thereof to the person or persons on whose account such payment is made.

Application or payment of money out of Court.

6 Every application by a mortgagee to obtain payment of money out of Court shall be by a verified petition.

Under section 57(c).

And, when made under section 83, it shall be shown whether the property has been transferred, and [where the applicant was in possession] possession delivered up, free from encumbrances, and whether the transfer has been registered. The documents of title, which were held by the applicant, shall also be accounted for.

Or under section 86 or section 92.

Or, when made under section 86, or section 92, it shall be shown that the provisions of such section have been complied with.

Or under sections 88 and 89, or section 93.

Or, when made under sections 88 and 89, or section 93, the documents of title, which were held by the applicant, shall be accounted for.

To be on notice.

7. Every application under the last preceding rule shall be on notice to the person by whom, or on whose behalf, the money was paid, or to his attorney, unless the Court shall think fit to dispense with such notice.

Affidavit of service of notice or order

8. Unless otherwise ordered, whenever any notice or order is served under the Act, or under these rules, an affidavit or affirmation in proof of such service shall be filed as soon as possible thereafter.

Costs of mortgagee.

9. Where it shall appear that, previous to any payment into Court under section 83, or any subsequent section, a sufficient tender was made to, and refused by, the mortgagee, he shall not be allowed to obtain payment of the amount deposited in Court to meet his claim, without deduction of the fees and charges of the Accountant-General and the Bank, nor shall he be allowed his costs of obtaining such payment. Except as aforesaid, or when otherwise ordered, the mortgagee shall be allowed all costs properly incurred by him.

Disallowances where tender refused.

When interest disallowed

10. If through default on the part of the plaintiff it becomes necessary to obtain an enlargement of time under section 87, no interest shall be allowed for the enlarged time.

11. On an application for payment of money out of Court, under section 83, or any subsequent section, by a mortgagee, who has complied with the orders of the Court and the provisions of the Act, and of these rules, so far as they relate to him or apply to his case, and has, when required so to do, transferred the property and possession, free from incumbrance, and caused such transfer to be registered, and accounted for the documents of title which were held by him, the Court shall make such order or orders as to it shall seem fit for the disposal of the capital sum and interest thereon, and of the fund for costs and expenses.

Order for payment of money out of Court, under section 83, or any subsequent section.

12. Every decree for sale under the Act shall direct that, if the proceeds of sale shall not be sufficient to satisfy the decree, the defendant [if the original mortgagor] shall personally [or if the representative in estate of the original mortgagor, shall out of his estate] pay the amount of the deficiency.

Decree for sale to provide for payment of amount of deficiency.

13. Every final order for foreclosure, under section 87, or section 93, shall direct that possession of the property be given to the mortgagee, except where he is already in possession. It shall also, at the option of the mortgagee, be drawn up with a recital of the decree and the proceedings had thereunder, and with a full description of the property, or without any such recital or description.

Final foreclosure order, section 87 or section 93.

14. Where immoveable property is sold under section 88, or any subsequent section, the purchaser may, on application to a Judge in Chambers, obtain a certificate of sale, as evidence of the title to the property sold to him, and may also, at his own costs, obtain a conveyance from the mortgagor.

Conveyance of property sold under section 88 or any subsequent section.

15. Every enforceable order made under section 83 may be enforced under the provisions of the Code of Civil Procedure, and shall for that purpose be deemed to have been made in a suit instituted under that Code.

Order under section 83 how enforced.

16. Rules 45 and 46 of the rules of the 1st of August 1877 [Rules 431 and 432, Belchambers' R. and O., pp. 200-201] relating to sales by the Registrar are hereby repealed.

Rules repealed.

From Rule 50 of the same rules shall be omitted the words "unless otherwise ordered, the costs of such application in the case of a person under disability shall be part of the costs of the sale, and in other cases shall be borne and paid by the defaulting party."

Rules amended.

At the end of Rule 58 of the same rules shall be added the words "or the grant to him of a certificate of sale."

17. Rules 337 to 449 [Belchambers' R. and O., pp. 189 to 205] relating to sales by the Registrar, as modified by the last preceding rule, and so far as they are applicable, shall apply to all sales by the Court under sections 88 and 89, or 92 and 93.

Rules relating to sales by Registrar to apply to sales under the Act.

18. The money Rules 597A to 641 [Belchambers' R. and O., pp 240 to 253] shall also, so far as they are applicable, apply to the payment of money into Court, and out of Court, under these rules.

Money rules to apply to payments under these rules.

19. The form set forth in the annexed schedule shall be followed, with such variations as the circumstances of each case may require.

Form.

NOTICE UNDER SECTION 83.

IN THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

ORDINARY ORIGINAL CIVIL JURISDICTION.

To B.

WHEREAS A has, under section 83 of Act 4 of 1882, deposited in Court Rs. 10,000 as the amount remaining due on the mortgage to you dated the day of 188 , and Rs. 100 for the commission and charges of the Accountant-General and the Bank of Bengal, and Rs. 500 to provide for such necessary costs and expenses as you may incur [and whereas it is alleged that a sufficient tender was previously made to you] :— You are hereby informed that the Court, upon being satisfied that you have retransferred the property comprised in the said mortgage and [where B is in possession] delivered up possession thereof to the said A, and have also delivered up to the said A, or deposited in Court, or accounted for, all documents in your possession or power, or for which you are responsible, relating to the said property, the Court will make such order as to it shall seem fit for the payment to you of the said sum of Rs. 10,000 [less where a tender was made of the commission and charges of the Accountant-General and the Bank of Bengal] with all costs and expenses to which you may be entitled.

PUBLIC WORKS DEPARTMENT,—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 292.

The 1st August 1884.

THE following annual accounts and abstracts of the reports of the Road Cess Committees of the districts of Dinagepore, Rajshahye, Rungpore, Bogra, Pubna, Darjeeling, and Julpigoree for the cess year 1882-83, together with the remarks thereon of the Commissioner of the Rajshahye Division, are published for general information.

G. F. E. S. NEILL, *Major*, M.S.C.,
Under-Secy. to the Govt. of Bengal, P. W. Dept.

Abstract of a report by the Chairman of the District Road Cess Committee, Dinagepore, on the Committee's operations for the cess year 1882-83.

No difficulty appears to have arisen in connection with the working of the Cess Act, which is no longer looked upon with any marked feeling of unpopularity. The collections of the road cess have been very satisfactory, being 95·8 per cent.

The Committee held 15 meetings during the year. Six non-official members did not attend six consecutive meetings, and have thus rendered themselves liable to removal from the Committee under section 115 of the Cess Act. The business transacted at all the meetings received a very careful discussion from those members who attended.

The only original work undertaken during the year was the reconstruction of the last seven miles of the Moorshedabad road, which, for want of funds, fell into a very sad state of disrepair. The old road passed along the very lowest part of the country, and was very winding in its course. The newly made portion has been realigned over high ground and constructed properly. The earthwork has all been finished, but owing to scarcity of rain the turfing could not be wholly executed.

All the existing roads have been kept in a fair state of repair, as far as the funds at the disposal of the Committee would permit; in addition to ordinary surface repairs, earthwork was done on many roads to raise them to a proper section, and several temporary bridges were renewed during the year. The roads in this district have received very careful attention, and their condition may be said to be fairly satisfactory.

Applications for village roads were received from all parts of the district, and where respectable persons were found, funds were given to them for the execution of works; but in places where such parties were not forthcoming, the works had to be done under the agency of the District Engineer. Some of the non-official gentlemen took a keen interest on village roads.

All the main roads leading out from the sudder station have been planted with avenues of trees, which are steadily improving every year. New plantation was carried on on the Rungpore road for two miles, Moorshedabad road one mile, and also within the interior of the district near all the police stations.

Several obstructions to drainage have been removed by opening out pipe culverts on the Kishengunj and Darjeeling roads.

The several establishments under the Committees have, on the whole, worked satisfactorily.

UMA CHURN BANERJEE,

Vice-Chairman.

Explanatory Memorandum to accompany the annual account for the cess year 1882-83.

RECEIPTS.

1. THIS transfer is made under instruction contained in Accountant-General's No. 485L.—F., dated 31st October 1882.

EXPENDITURE.

2. The amount expended under this heading has exceeded that of the allotment for the following reasons:—

(1) Rupees 585 were allotted for serving processes, including the pay of a peon entertained in the office at a cost of Rs. 72 a year, leaving a balance of Rs. 513 only to meet the charges for processes; whereas Rs. 1,056-4-9 were advanced to the Collector for the purpose under the Board's new rules. Rupees 1,075-7 were recovered during the year, inclusive of the balance of the previous year.

(2) Rupees 80 were paid to a Mohurir temporarily appointed for revaluation work, which was sanctioned by the Board of Revenue, as per their No. 116A., dated 13th March 1882.

(3) For raising the pay of second Mohurir from Rs. 15 to Rs. 20, which was sanctioned by the Board of Revenue, as per their No. 520A., dated 21st November 1882.

3. The excess in expenditure under this heading is owing to the payment of a part of the demand for the previous year (1881-82) having been made during the year under report.

4. These alterations have been made under the sanction of the Commissioner, as per his No. 236P.W, dated 22nd February 1883.

5. Nothing was done to this road under this heading (original works). During the current year Rs. 345-5-9 were expended in satisfaction of previous years' demands.

6. These alterations have been made under the sanction of the Commissioner, as per his No. 182P.W., dated 24th January 1883.

7. This alteration was made under Commissioners' sanction, as per his No. 117P.W.Ct., dated 2nd July 1883.

8. As the allotments for road Nos. 42 and 55 were not sufficient for their maintenance, nothing was spent on them.

9. Rupees 400 were sanctioned for constructing a bridge on the drainage canal near Mr. Grant's house, of which Kumar Girija Nath Roy promised to contribute Rs. 200, but as he did not pay the amount during the year under report, the full amount was paid out of the Road Fund, hence the expenditure for village roads has exceeded the allotment.

10. This transfer has been made *vide* Government notification of the 11th June 1883 (Financial Department, Road Cess).

UMACHURN BANERJEE,

Vice-Chairman.

Abstract of a report by the Chairman of the District Road Cess Committee, Rajshahye on the Committee's operations for the cess year 1882-83.

THE road cess was levied during the year at the full rate of one-half anna in the rupee. The Cess Act worked smoothly, and the collections during the year were very satisfactory.

The year opened with a balance of Rs. 15,135. The total receipts from cess and other miscellaneous sources were Rs. 80,629. The amount in the suspense accounts came to Rs. 13,728; making in all a total income of Rs. 1,09,492 for expenditure during the year.

There were five meetings held by the District Road Committee during the year. The attendance of the native non-official members was very irregular, the business laid before those present at the meetings was discussed, however, with interest and attention.

No important original work was carried out during the year, except raising the Sultanpore and Mohadebpore Railway feeder road above flood level, and the construction of a substantial timber bridge over the worst gap in this road.

All the roads in the district were properly maintained, and the allotments for them fully worked up to.

The village roads were properly attended to, and considerable zeal was shown by the members of the Branch Committee in the matter of village communications.

Attention was paid to the matter of tree-planting. The trees that were planted in previous years on several roads have been taken care of.

The different establishments under the Road Committee have worked well and given satisfaction in the discharge of their duties.

POORNA CHUNDER GHOSE,
Vice-Chairman.

Abstract of a report by the Vice-Chairman of the Road Cess Committee, Rungpore, on the Committee's operations, for the cess year 1882-83.

THE demand of cess for the year was larger than was estimated owing to the valuation of 1,064 rent-free tenures. The arrear cesses on such tenures also became part of the demand under section 70 of the Act; and taking these into account, the collection was 96·6 per cent., being ·9 per cent. more than in the previous year. The provisions of section 99 were applied in case of a few habitual defaulters. The cess has now been levied for several years, and is generally accepted by the community. Any complaints now made would be directed against the manner of levying it, rather than against the cess itself. No such complaints have been made during the year.

The number of meetings held by the Road Cess Committee was 11, and the attendance of the non-official members was not satisfactory, three of them having ceased to be members under section 115 of the Act. The members present at meetings took active interest in the proceedings.

There are three Branch Committees in the district, *i.e.*, at Gyebanda, Kurigram, and Nilphamari.

The number of meetings held by the Gyebanda Branch Committee was five, and an active interest was taken by the non-official members in the discussions and proceedings of the several meetings. One meeting only was held by each of the Branch Committees at Kurigram and Nilphamari during the year, and the attendance of members of the latter was ·75 per cent.

Several works of improvement on roads and bridges were carried on by the District Engineer, who also introduced several changes into the system of working in the district, and thus succeeded in getting substantial and permanent works done; rates of work, which were very high in the district were revised; charges in the establishment were reduced; and most of the old materials which were lying useless in the godown were used upon work. He broke down all the previous contracts which were given during his predecessor's time to some pet contractors of the subordinates, and began anew all works in the so-called duffadary system. Previously many of the lower subordinates were getting no travelling allowances, and the effect was that they tried to avoid going out on roads unless compelled. The duffadary system of work introduced requiring close inspection and constant knocking about, an allowance for every day the subordinates will be out on works was granted, both as an incentive for good work and also as a pecuniary assistance in travelling.

For improvement of village roads Rs. 5,000 were allotted in the year under report. Part of this sum was placed at the disposal of the Vice-Chairman at head-quarters, and the balance distributed to the Sub-Divisional Officers for proper management. The work was done through official and non-official agency.

Tree-planting was stopped up to the end of the year, but subsequently the old plants were reared and some dead ones replanted. The register of the Committee shows about 7,000 plants, but scarcely 3,000 now exist, as much damage has been done to both trees and fences by stray cattle, especially during the period they were totally neglected.

The collection office is reported to have worked satisfactorily. The offices of the Committee and District Engineer have been combined, and the work has, as a rule, been well and punctually carried on. The total charges for establishment, including payment of contribution towards Superintending Engineer and accounts and control offices, are 25·26 per cent. of the income of the district.

Mr. Larpent, the Examiner of Local Fund Accounts, and Mr. Heyman, the Divisional Superintendent of District Works, were satisfied as to the manner in which the books and accounts of the Committee were kept when they inspected the office.

Note by the Chairman as to the condition of roads, &c., as found by himself.

THE roads are in good condition for cart traffic, and with this I suppose we must rest content. Driving over them in a light spring conveyance is very jolting.

The bamboo bridges are all more or less in bad condition, but from what I see of the new iron rail bridges, I am content to put up with the inconvenience of bad bamboo bridges for a few years longer till they can all be supplanted—the large ones by iron rail bridges and the small ones by Raneegunge drain pipes. The early cessation of the rains this year has been bad for the earthwork. New earth dries into dust almost immediately, and blows away in the wind.

C. R. MARRIOTT,
Vice-Chairman.

Abstract of a report by the Chairman of the District Road Cess Committee, Bogra, on the Committee's operations, for the cess year 1882-83.

THE Cess Act has worked smoothly in the district. The total cess collection during the year was 106·07 per cent. on the current demand.

The principal roads in the district are already above high flood level and bridged. None of the roads are metalled, but the Bogra-Sultanpore, and most of the other principal roads were drivable throughout during the rains. On the Bogra-Sheriakandy road a number of good bridges have been constructed of tál timber, among which one is of 100 feet waterway. This road has been much improved during the year under review. It is now a really good and useful line of communication, which passes through a very difficult piece of low country intersected by rivers. The fair-weather road from Chattiangram to Panchbibi has opened up a long line of communication on the west of the railway line and nearly parallel to it. The road has been widened and the ramps for ascents and descents properly sloped. Attention was also paid to all the minor roads during the year. In fact, all the district roads have been well looked after, maintained, and improved during the past year.

Rupees 3,050 were spent on village roads during the year. Trees were planted and protected on the sides of several roads in the district.

The different establishments under the Committee worked fairly well.

MAHENDRA NATH BHATTACHARJEE,
Vice-Chairman.

Abstract of a report by the Chairman of the District Road Cess Committee, Pubna, on the Committee's operations for the cess year 1882-83.

THE Cess Act has worked without friction, but the realization of arrears by the Certificate Act is dilatory and unsatisfactory. It has been recommended that an alternative summary process against moveable property should be allowed. The collections were nevertheless good, the percentage of current collections on the current demand was 94·3, and the total collections on the current demand 109·8.

There were eight meetings held by the District Road Committee during the year under report. The average attendance of members was seven, out of a total of 25. Many of the absentees are residents in the mofussil, who can rarely come without great inconvenience. The regular attendants showed a real interest in the proceedings.

The working of the Branch Committee at Serajgunge has been very successful. They are a very influential Committee, consisting of European residents and resident zemindars, and complain loudly of the small amount at their diposal for the purposes of the sub-division; but the Committee at Pubna has been under the necessity of carrying on the large work of opening communication with Sara on the Northern Bengal State Railway, and till that is completed suitable assistance cannot be given to the crying wants of the rest of the district. The Chairman of the Branch Committee remarks that the time has certainly come when an independent Committee should be formed at Serajgunge, and the whole of the collections of the sub-division should be placed at its disposal. The District Committee cannot, under present circumstances, approve of the idea of giving the Branch Committee full control over the expenditure of the entire collections of the sub-division, but it is clear that the Serajgunge Committee is quite prepared to accept the position of an independent Local Board under the scheme now under consideration.

Of the original works, the Sara road requires special mention. The total amount expended this year for original works is Rs. 36,856, of which the Sara road took Rs. 31,403. Most part of this sum was used for bridges. Thirteen new bridges were constructed during the year. The road is now almost finished, only one large bridge remaining to be built. Among other original works, an addition to the Road Cess Office has been made for the use of the Collection Department. The additional building cost the fund Rs. 1,799.

The existing roads have been repaired, the total cost amounting to Rs. 9,725. The roads remain in the same state as before. The Sara road is in very good order, and the greater part of the other roads have been put into passable repair, except the Chandaikona road in the Serajgunge sub-division, which appears to have deteriorated from several year's neglect.

During the year under report only Rs. 886 were spent on account of village roads. In some cases the work on these roads was undertaken by the villagers and in the rest by the Committee.

Rupees 404 for planting and Rs. 53 for tending of trees were spent during the year. Some 200 trees were planted, and they are growing very well.

Vigorous efforts were made by the collection establishment to clear off the large number of outstanding certificates and met with a fair amount of success. The Committee's establishment, which consisted of an accountant and a peon, has done its work well. The Committee have expressed their satisfaction with the work of the Overseer in charge of the office of the District engineer. The Overseer in charge of the Serajgunge sub-division has also given satisfaction during the year.

Explanatory notes on the Road Fund Annual Accounts for 1882-83.

THE increase of Rs. 1,403 in the allotment for repairs, as shown in the column "Amount as per budget estimate" of the Road Fund annual accounts for 1882-83, over the amount shown under that head in Government, Public Works Department, Resolution No. 273R.C. of 17th January 1883, reviewing the Road Fund Budget Estimates of the Rajshahye and Cooch Behar Division for the year, is due to the appropriation of Rs. 1,300 to the construction and repairs of village roads out of the surplus opening balance of the year, and to the transfer of Rs. 103 from the allotment for construction of bridges on the Chandiekona road to the repairs of the Dewangunge road.

2. The similar decrease of Rs. 103 in the allotment for "original works" is accounted for from the above.

3. The other transfers of allotments shown in the annual account are from one work to another under the same sub-heads, and therefore do not call for explanation.

PUBNA D. R. FUND OFFICE,
The 27th November 1883.

MANIKLAL PAL,
Vice-Chairman, District Road Cess Committee.

Abstract of a report by the Chairman of the District Road Cess Committee, Darjeeling, on the Committee's operations for the cess year 1882-83.

No difficulty has been experienced in the working of the Road Cess Act in this district. The opening balance of the year was Rs. 20,353. The demand of the year was Rs. 19,730, as compared with Rs. 19,399 for the previous year. Besides this, there was an arrear demand of Rs. 1,511, making a total of Rs. 21,241 to be collected. The sum actually collected was Rs. 20,487, and the amount remitted Rs. 195, leaving a balance of Rs. 559 unrealized at the end of the year.

During the year there were five meetings held by the District Road Committee at Darjeeling, which consisted of 20 members, 7 officials, and 13 non-officials. The average attendance of officials was four and of non-officials five. The members took considerable interest in the proceedings of the meetings, and several of them helped largely in supervising the expenditure of the grants made for repairs.

The Terai Branch Committee exercised independent power up to the end of 1880-81. It is now working under the District Road Committee.

The amount spent on roads in the hills was Rs. 10,390, and in the Terai sub-division Rs. 12,970, making a total of Rs. 23,360. Besides this, the sum of Rs. 2,360 was spent on village roads in the Terai. Nothing was spent on arboriculture during the year. The repairs of roads were carried out by tea planters in the hills, and by planters and Sub-Divisional Officer in the Terai.

The different establishments under the Committee are reported to have worked well, but the work of the District Engineer has not progressed as rapidly as it should have been wished.

F. TAYLOR,
For Chairman.

Abstract of a report by the Chairman of the District Road Cess Committee, Julpigoree, on the Committee's operations for the cess year 1882-83.

THE feeling of the people in this district towards road cess is one of resignation, and, where roads are being made, of some satisfaction.

The number of meetings held by the District Road Committee was 11, and the average attendance of the members 6·90. There are no Branch Committees in the district.

All the important communications in the district, except station roads, were maintained in good order, so far as the funds admitted. Constant petty repairs on the principal roads, with the above exception, were, when required, promptly executed during the rains, and in a few places temporary bridges were constructed to facilitate the passage of traffic. The principal works undertaken by the Committee during the year under review were the improvement of the roads from Boda towards Domerhat *viâ* Debigunge, Julpigoree to Alipur, Silligoree to Phoolbaree Ghat, Kyranti to Baltaigool, and Mynaguri to Ramshaihat. A great deal of attention was paid during the year to keeping the road from Julpigoree to Damdim open for traffic, specially during the rains. The condition of this road, though it is by far the most important feeder to Northern Bengal State Railway, is the worst of all roads in the district for want of funds. The road, however, was kept open for traffic in the rains by repairing the temporary bamboo bridges erected last year. There was a gap during the year, owing to the overflow of the river Dhurla, in the tenth mile, but it was bridged within 48 hours; and accordingly the running traffic did not so far suffer materially.

A sum of Rs. 1,449 was allotted for repairs of village roads. Of this allotment Rs. 1,079 were expended during the year. The repairs were undertaken by the work establishment of the Committee, as well as by persons of local influence, viz. the tea-planters and the Sub-Divisional Officer of Alipur.

Rupees 150 were allotted for tree-planting, and Rs. 83 were expended during the year. Nearly 150 mango and jack trees have been planted on the side of the Alipur road, near Moynaguri: these are thriving well. The Indian rubber trees, planted on the side of the Damdim road, a little out of Julpigoree, are also thriving well.

The books and accounts of the Committee are reported to have been correctly and duly kept up.

The different establishments under the Road Committee are said to have worked satisfactorily.

PREO NATH BANERJEE,

Vice-Chairman, District Road Committee.

No. 49P.W.Ct., dated Darjeeling, the 17th May 1884.

From—LORD H. ULICK BROWNE, Commissioner of the Rajshahye Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit in original the district road fund annual reports and accounts of the seven districts* of this division for the cess year 1882-83.

* Dinagepore, Rajshahye, Pubna, Bogra, Rungpore, Julpigoree, Darjeeling.

2. The reports and accounts of five districts were received in my office within the prescribed date, but those of Rungpore and Darjeeling were not received complete until 18th February and 1st May 1884, respectively. Hence the delay in submission of this report.

3. The district reports are properly prepared, with the exception of the Rungpore one, in which the Chairman has inserted bodily a voluminous report of the District Engineer, instead of making an abstract of the main facts in regard to the work of the year.

4. *Working of the Road Cess Act.*—The working of the Act may be said to have been satisfactory during the past year. In Pubna the Chairman remarks that the realization of arrears by the Certificate Act is dilatory and unsatisfactory, though the collections for the year were very fair, being 94·3 per cent. of the demand. In Julpigoree the feeling of the people towards the Road Cess Act is said to be one of "resignation, and where roads are being made of some satisfaction." Mistakes in the re-valuation in individual cases in the Dooars have come to light, the cause being inaccurate and misleading returns submitted by the jotedars, on which the re-valuation was based. Measures are being taken to have this set right. In all the other districts the cess seems to have been accepted by the community, and no complaints appear to have been made during the year, either against the cess itself or manner of levying it.

5. *Collection and assessments.*—The collections in the Dinagepore district were 95·8 per cent. of the current demand. In Rajshahye the collections were very satisfactory. In Pubna the collections were 94·3 per cent. In Bogra the realizations were quite up to the average of previous years. In Rungpore they were 96·9 per cent., being nearly 1 per cent. improvement on the collections of the previous year. In Julpigoree they were up to the average of previous years, and in Darjeeling they were 97·36 per cent. of the current demand, including arrears, and contrast favourably with the previous year.

6. *Working of the District Committees.*—The Chairmen generally continue to report favourably of the attendance of the members of the District Committees at meeting, and the business laid before them appears to have been discussed with interest and attention. In Dinagepore 15 meetings were held. Six non-official members rendered themselves liable to removal during the year by non-attendance at six consecutive meetings, but one member had been laid up by illness. The others never gave any reasons for their inability to attend.

In Rajshahye the Chairman remarks that the attendance of the native non-official members was very irregular.

In Darjeeling the planters continued to show considerable interest in the proceedings, and assisted largely in the supervision of works.

In Julpigoree the planters have come forward liberally with cash to supplement the allotments available from the Committee's funds, and have also assisted with labour and supervision in carrying out road works in their neighbourhood.

7. *Working of the Branch Committees.*—These exist in Rajshahye, Pubna, Rungpore, and Darjeeling. The Nattore Branch Committee in Rajshahye held four meetings with a good average attendance of members, and considerable zeal was shown by them in the matter of village communications.

The Chairman of Pubna reports that the working of the Serajgunge Branch Committee has been most successful, and considers that this Committee justly complain of the small allotment placed at their disposal for the purposes of the sub-division. This, however, is unavoidable at present until the expenditure on the great main district work, viz. the feeder road from Pubna, the sudder station of the district, to the Sara railway station is completed, which may be expected during the current cess year, when it will be possible for the Sudder Committee to afford larger grants to the Serajgunge Branch Committee.

In Rungpore, in addition to the Gyebanda Branch Committee formerly existing, two additional Branch Committees were established during the year at the other sub-divisions; that is, one at Kurigram and one at Nelphamaree. Five meetings were held by the first and one meeting by each of the last two Committees. The principal work of the Branch Committees was the apportionment of funds for village roads. The attendance at the meetings was good, and an active interest was taken by the non-official members in the discussions and business of the meetings. The working of the Terai Branch Committee under the new arrangement—subordinate to the Sudder District Committee of Darjeeling, continued satisfactory during the year.

8. *Establishments.*—The establishments in all the districts are reported to have worked well during the year. The Chairman of Julpigoree remarks that the establishment "would be of more use if the district had more money. As it is, it has occasionally to sit almost idle." Reference to this remark will be made further on, under the head of expenditure, when referring to the working balances of each district.

9. *Village roads.*—In Dinagepore, where respectable persons were found willing, funds were given to them for execution of work on village roads, and also where such works were carried out under the agency of the District Engineer. Rupees 3,169 were expended during the year. Of the non-official gentlemen who have taken a keen interest in village roads, the Chairman mentions the names of Mr. French, Manager of the Chooraman estate, and Baboo Budhinath Chowdree. In Rungpore Rs. 4,649-5-1 was expended out of an allotment of Rs. 5,000. The unexpended amount out of the allotment remained with the Sudder Sub-Committee, each of the Branch Committees having fully expended the allotments granted to them. In Bogra Rs. 3,055 were expended on village roads, being nearly double the amount of that expended in the previous year. In Rajshahye Rs. 6,144 were expended during the year, against Rs. 4,888 last year and Rs. 3,768 in 1880-81, thus showing a steady increase in the grants under this heading. It further appears that the Branch Committees showed considerable interest in the matter of village communications during the year.

In Pubna out of Rs. 3,300 allotted for village roads, Rs. 886 were expended, but a further sum of Rs. 951 spent under this head on the Kole road was afterwards transferred to the head "original works." In some cases the work was carried out by villagers, and in the rest by the Committee. A better result is hoped for during the current cess year, as more applications for help have come in. A very important and useful work has been carried out in the Serajgunge sub-division during the year, consisting in the marking and laying out of about 62 miles of tracks connecting police stations, outposts, and important places of trade, giving facilities for cart traffic during about eight months of the year between places where formerly none such existed.

In Julpigoree out of a sum of Rs. 1,449 allotted, Rs. 1,079 were spent on village roads, the work having been carried out partly by the Committee's establishment, partly by tea-planters, and partly by the sub-divisional officer at Alipore.

In Darjeeling Terai Rs. 2,360 were spent out of an allotment of Rs. 2,664, being more than double the expenditure of the previous year.

10. *Arboriculture.*—In the districts of Dinagepore, Bogra, and Pubna, tree-planting along the roadsides proceeded steadily during the year.

In Julpigoree Rs. 85 were spent, and the work done seems to have been successful. In the districts in which progress has been made under this head the necessity of providing for the care of the young trees already planted has been recognized, and indeed more has been done in that direction than in new planting. This is right, as extensive plantations in any one year could not be properly looked after by the small establishment which the districts can afford to keep up. In Rajshahye and Rungpore little has been done during the last year under this head.

11. *Original works.*—In Dinagepore the only original works undertaken during the year were the reconstruction of the last seven miles of the Moorshedabad road, and the completion of the Patiram-Hillee road. Owing to the want of rain the former work could not be entirely completed during the year, but the latter was completed. In Rajshahye the main expenditure under this head was devoted to the Sultanpore-Mohadebpore railway feeder road between Hapania and Nowgong, the work consisting of raising the road above flood level and constructing a timber bridge at the worst gap. Compensation was also paid during the year for the land taken up for the Godagari diversion road. In Pubna, out of the total expenditure of Rs. 36,856 on original works, Rs. 31,403 were expended on the Sara road, chiefly in the construction of 13 new bridges, which have all been carefully and substantially built. It is expected that the remainder of the bridging required on this road will be practically completed during the current cess year before the rains. An addition to the Road Cess Office was made

during the year for the accommodation of records at a cost of Rs. 1,798. The calculations on which the detailed estimate for bridging the Chandaikona road having, on examination, been discovered to have been founded on incorrect levels, the estimate had to be returned for the levelling to be done afresh, and so the work could not be sanctioned during the year. In Bogra the original works carried out were a large bridge on the Sultanpore road, and five small masonry culverts on the Dinagepore road. All the work carried out was substantial and good. In Rungpore a sum of Rs. 33,833 was spent on original works during the year in building four timber bridges, three timber bridges with iron beams, three masonry bridges and culverts, a large number of glazed earthenware pipe ditto, and the metalling of a portion of one of the roads passing through the station. Genuine progress has been made in this district during the year, and all the original work carried out is substantial and good. Permanent masonry bridges and glazed earthenware pipes have taken the place of temporary bamboo bridges, and the cost of masonry culverts was found not to greatly exceed that of first class timber bridge work in small spans. In the larger bridges, in which timber has been used, all the material has been carefully selected of good seasoned timber, and old iron rails from the Eastern Bengal Railway have been economically substituted for timber beams in bridges of spans up to 20 feet. In the Julpigoree district the total expenditure on original works amounted to Rs. 19,842, and consisted chiefly in improvements on the Julpigoree-Alipore road, Damdim road, Kyrantee to Bataigole road, Chuckla Boda to Domer road, Mynaguree to Nagrakatta road, and Damdim to Phoolbaree Ghat road, none of which can be said to be completed yet; also on the Silligoree to Phoolbaree road, and the building of the Kurla foot bridge in the station. In Darjeeling Rs. 15,840 were expended on original works during the year, the chief expenditure being incurred on the Goke bridge, in strengthening the Balasun bridge, on the Nuksulbaree to Matigara road, the Nuksulbaree to Debigunge road, and on a bridge on the Adulpore Sukna road.

12. *Repairs.*—All the existing roads in the Dinagepore district have been kept in a fair state of repair as far as the funds at the disposal of the Committee would permit. The Divisional Superintendent, during his inspection of the roads in the current cess year, represented that the interests of the district would, in his opinion, be better met by more liberal allotments, and more attention paid to the roads in the south of the district running east and west, which give outlets to the trade of the district through the Northern Bengal Railway, and it is expected that these roads will receive more attention in future.

In Rajshahye the roads were maintained in fair order.

In Pubna Rs. 9,725 were spent on repairs, and all existing roads were maintained in fair order.

In Bogra the roads were maintained throughout the year, and most of the principal roads, although not metalled, were driveable during the rains, owing to the care taken in sanding them (at my suggestion), and using the best soil on the surface. The repairs carried out on Bogra-Sereakandy road and the Chatiangram-Panchbibi road during the year have made them really good and usefnl lines of communication. Some very substantial temporary bridges, built entirely of tal tree wood, at a very small cost, have been constructed on the former road, including among them one of 100 running feet of waterway, while the latter road has been widened and improved throughout, and has opened up a long line of communication with the railway through a rich and important tract of country in the west of the district Other minor roads in this district have been well maintained, and altogether the roads in the Bogra district compare favourably with the best roads in any of the other districts in the division.

In the Rungpore district the large sum of Rs. 52,556 was expended on repairs, chiefly in earthwork, surface repairs, renewing bamboo and timber temporary bridges. A great effort was made by the District Engineer during the year to improve the class of work carried out, both as regards original works and repairs. A great deal of the expenditure in previous years on earthwork was carried out in the dry season between December and April without any attempt at either dressing or ramming, and most of this expenditure was money wasted owing to the earth being blown away when the hot winds set in. A good deal of this work was successfully carried out during the rains during the past year, and in future every effort will be made to do such work either in the rains or while the soil is still damp, and the work done is likely to be lasting. In other respects, also, the district work generally during the past year has been carried out better, with more advantage to the district, and at a lower cost than was the case in previous years. The wants of the southern parts of this district in respect to the opening up of communication with the roads leading to stations on the Northern Bengal Railway have been brought to notice, and work during the current cess year is being carried out on one of the most important of these lines leading to the Hillee railway station.

In Julpigoree all the important roads were maintained in good order as far as the funds admitted. The Damdim road received special attention during the rains in order to keep it open, it being an important feeder and outlet to the Northern Bengal Railway from the different tea gardens of the district. The repairs to roads in the Darjeeling hill district were chiefly carried out by the planters, and in the Terai partly by the planters and partly by the Sub-Divisional Officer of the Terai. The expenditure on repairs of the principal roads was Rs. 7,481.

13. *Expenditure.*—The expenditure has been good in all the districts, but the Divisional Superintendent thinks the necessity of keeping a proper working balance has not been sufficiently borne in mind in some districts, to which he attributes, in the case of the Julpigoree district, the complaint made by the Chairman, mentioned under the head of "establishment,"

that there was at times no work for it to do. This, Mr. Beatty says, was owing to the District Engineer having to wait for money, and insufficient balance having been budgeted for. This was also the case in the Rajshahye district, where the Committee, in the course of the year, defined the different works which the District Engineer was to carry out from quarter to quarter as the funds came in, without sufficiently considering whether it was judicious to carry out such work at such different seasons. In Julpigoree the opening balance for the year was only Rs. 2 551, and the closing balance Rs. 2,196. In the case of Rajshahye the apparent opening balance was Rs. 15,341, and the closing balance Rs. 22,333, but from these must be deducted the advance account in each case, which really left an opening cash balance of Rs. 1,671, and a closing balance of Rs. 5,667 to carry on the work of the district at a season when the heaviest and most important expenditure of the year ought to be incurred. Of the other districts, the opening and closing balances in the Dinagepore district were below the requirements of the district, if work is to be properly carried out at the best season of the year, the amounts being Rs. 3,803 and Rs. 6,823 respectively. The balances in remaining districts—Bogra, Rungpore, Pubna, and Darjeeling—were fair in proportion to their total income and necessities. To carry out district works with advantage and economy the Divisional Superintendent thinks the opening and closing balances should, when practicable, never be allowed to fall below 25 per cent. of the net average income of the district. Doubtless this is advisable, but the Committees are placed in a difficult position with such constant need for expenditure.

14. During the year Mr. Heyman retired from the office of Divisional Superintendent, and Mr. Beatty was appointed in his place, and took over charge on 1st October. Both gentlemen took much interest in their duties, and showed the benefit to the cesspayers of the special supervision of an officer in the position of a Superintending Engineer, with time to make it close and effective.

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1*st*.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd*. Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3*rd*.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 24th July, 1884, and is hereby promulgated for general information:—

ACT No. XII OF 1884.

An Act to amend and provide for the extension of the Northern India Takkávi Act, 1879.

WHEREAS it is expedient to amend the Northern India Takkávi Act, 1879, and provide for its extension to any part of British India; It is hereby enacted as follows:— IX of 1879.

1. (*1*) This Act may be called the Agriculturists' Loans Act, 1884; and

Short title.

Commencement.

(*2*) It shall come into force on the first day of August, 1884.

2. (*1*) This section and section 3 extend to the whole of British India.

Local extent.

(*2*) The rest of this Act extends in the first instance only to the territories respectively administered by the Governor of Bombay in Council, the Lieutenant-Governors of the North-Western Provinces and the Panjáb, and the Chief Commissioners of Oudh, the Central Provinces, Assam and Ajmer.

(*3*) But any other Local Government may, from time to time, by notification in the official Gazette, extend the rest of this Act to the whole or any part of the territories under its administration.

3. (*1*) On and from the day on which this Act comes into force, the Northern India Takkávi Act, 1879, and sections 4 and 5 of the Bombay Revenue Jurisdiction Act, 1880, shall, except as regards the recovery of advances made before this Act comes into force and of the interest thereon, be repealed.

Repeal of Act X of 1879, and sections 4 and 5 of Act XV of 1880.

X of 1879.

XV of 1880.

(*2*) All rules made under those Acts shall be deemed to be made under this Act.

4. (*1*) The Local Government may, from time to time, with the previous sanction of the Governor General in Council, make rules as to loans to be made to owners and occupiers of arable land, for the relief of distress, the purchase of seed or cattle, or any other purpose not specified in the Land Improvement Loans Act, 1883, but connected with agricultural objects. XIX of 1883.

Power for Local Government to make rules.

(*2*) All such rules shall be published in the local official Gazette.

5. Every loan made in accordance with such rules, all interest (if any) chargeable thereon, and costs (if any) incurred in making or recovering the same, shall, when they become due, be recoverable from the person to whom the loan was made, or from any person who has become surety for the repayment thereof, as if they were arrears of land-revenue or costs incurred in recovering the same due by the person to whom the loan was made or by his surety.

Recovery of loans.

6. When a loan is made under this Act to the members of a village-community or to any other persons on such terms that all of them are jointly and severally bound to the Government for the payment of the whole amount payable in respect thereof, and a statement showing the portion of that amount which as among themselves each is bound to contribute is entered upon the order granting the loan and is signed, marked or sealed by each of them or his agent duly authorized in this behalf and by the officer making the order, that statement shall be conclusive evidence of the portion of that amount which as among themselves each of those persons is bound to contribute.

Liability of joint borrowers as among themselves.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Report of the Select Committee on the Bill to amend and provide for the extension of the Northern India Takkáví Act, 1879, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 9th July, 1884 :—

WE, the undersigned Members of the Select Committee to which the Bill to amend and provide for the extension of the Northern India Takkáví Act, 1879, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Officiating Secretary to Government, Bengal, No. 282T.R., dated 6th May, 1884, and enclosures [Printed Papers No. 15].

2. We have at the instance of the Government of Bombay made the Bill applicable by its own force to that Presidency, and repealed sections 4 and 5 of Act XV of 1880, the similar law at present in force there.

3. We have considered the objections taken by the British Indian Association to sections 5 and 6, but they appear to us to be based on a misapprehension as to the effect of those sections. The Association fear that a landlord's interest may be in some way affected by a sale for arrears of advances due by his tenant, but there is nothing in the Bill to warrant anything of the kind.

Section 6 relates merely to contribution between those taking the loan, and section 5, which provides for the recovery of arrears, does not enact that they shall be recoverable as if they were arrears of land-revenue due in respect of any particular land, but merely as if they were arrears of land-revenue due by the defaulter, and accordingly no charge is created over land even when the loan has been taken by its owner.

4. We have also considered the suggestion of the Government of the Panjáb that the lambardárs of a village should be empowered to engage for a loan on behalf of the whole proprietory body, but we do not think that it would be safe to confer any such power. As regards the inconvenience which it is suggested may arise "when it might be desirable to make a loan to a village-community as such" from requiring "the signature of each member of the community," we would observe that loans of the description contemplated by the Bill would, as a rule, be made not to village-communities as such but to individuals, and that when, with a view to having better security for the recovery of the money, it is proposed that a large number of persons should join and make themselves jointly and severally responsible for the aggregate of the loans to all, it would be comparatively immaterial whether a few more or a few less so joined.

We have, however, in order to facilitate the working of section 6, inserted words to make it clear that the signature required by that section may be affixed by an agent duly authorized.

APPOINTMENT OF A COMMITTEE TO CONSIDER THE QUESTION OF LEVYING AN OCTROI IN CALCUTTA.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Calcutta, the 4th August 1884.

RESOLUTION.

READ AGAIN—

Letter from the Chairman of the Corporation of the Town of Calcutta, No. 4044, dated the 31st March 1884, in which attention was invited to the various Resolutions of the Government of India and the Local Government accepting the principle that municipalities should, as far as possible, be relieved of police charges over which they could exercise no control. It was at the same time pointed out that it was scarcely practicable in Calcutta to substitute for these charges the expenditure on, and control over, the hospitals, colleges and schools which were supported by Government, and which in the moffussil had, in many cases, been made over to the municipalities. It was accordingly proposed that the municipality of Calcutta might be relieved of the police charges, and that the amount spent on this account might be devoted to the execution of a comprehensive scheme for the sanitary and structural improvement of the town, such as that referred to in the Government Resolution on the Administration Report of the Calcutta Municipality for the year 1882-83.

Letter to the Chairman of the Corporation of the Town of Calcutta, No. 421T.—M., dated the 1st May 1884, in which, after a careful review of the financial condition of the Province, and of the previous decision of the Commissioners to set aside Rs. 1,50,000 a year for five years for bustee improvement, the Lieutenant-Governor proposed to increase the Government contribution on account of the Calcutta

police from one-fourth to one-half of the total expenditure, thus relieving the rate-payers of taxation amounting to about Rs. 1,00,000 a year, on condition that the Commissioners undertook to set apart annually from their general fund a sum of not less than Rs. 2,50,000 for expenditure on sanitary works and on town improvements of a large and comprehensive character. It was at the same time pointed out that this sum could be provided without difficulty by raising the house-rate by one per cent. simultaneously with the decrease in the police rate.

Letter from the Chairman of the Corporation of the Town of Calcutta, No. 651, dated the 21st June 1884, in which exception was taken to the condition with which the offer of Government to increase its contribution on account of the police was coupled. The Commissioners demurred to the suggestion that the reduction of the police rate consequent on the transfer to Government of a part of the police charges should be made good by an equivalent increase of the house-rate. It was stated that the Commissioners were prepared to submit proposals for augmenting the revenues of the Corporation by having recourse to indirect taxation in the form of an octroi, like that levied in Bombay.

Letter to the Chairman of the Corporation of the Town of Calcutta, No. 952T.—M., dated the 28th June 1884, communicating the observations of the Lieutenant-Governor on the proposal of the Committee to introduce an octroi in Calcutta, and proposing to refer the question to a Committee containing representatives of all the classes principally interested.

Letter to the Commissioners for the Improvement of the Port of Calcutta, to the Chamber of Commerce, and the Trades' Association, Nos. 781-83 dated the 18th July 1884, inviting them each to nominate one of their members to represent their respective views on the Committee.

Letter from the Chairman of the Corporation of the Town of Calcutta, dated the 16th July 1884.

Letter from the Secretary to the Calcutta Trades' Association, dated the 23rd July 1884.

Letter from the Vice-Chairman of the Port Commissioners, No. 1695, dated the 30th July 1884.

Letter from the Secretary to the Chamber of Commerce, dated the 30th July 1884.

In the letter to the Chairman of the Corporation of the Town of Calcutta, No. 952T.—M., dated the 28th June 1884, recited in the preamble, it was observed that the question of levying town duties in Calcutta was attended with difficulties, and that the Lieutenant-Governor would be unwilling to take any steps for the establishment of an octroi, unless it were clearly shown that this could be done without causing undue harassment to the trade and commerce of the town. He was of opinion that the most satisfactory method of dealing with the proposals of the Commissioners was to refer the question to a Committee containing representatives of all the classes principally interested. He therefore asked the Port Commissioners, the Chamber of Commerce, and the Trades' Association each to nominate a member, while the Chairman of the Corporation (who would be the President of the Committee) and two other members of the Corporation would be taken as the exponents of the views of the general public. It was also proposed to nominate one gentleman as Member and Secretary to the Committee to represent the interests of Government. The replies from the Corporation, the Port Commissioners, the Chamber of Commerce, and the Trades Association have all been received, and in accordance with their recommendations the Lieutenant-Governor is pleased to appoint a Committee composed of the following gentlemen :—

Mr. William Craik.	Baboo Kally Nath Mitter.
Baboo Jadu Lall Mullick.	Mr. G. H. Morrison.

Mr. A. H. Wallis.

Mr. H. L. Harrison, Chairman of the Corporation of the Town of Calcutta, will be the President; and Mr. C. E. Buckland will be a Member and Secretary to the Committee.

Order.—Ordered that a copy of the Resolution be forwarded to the Chairman of the Corporation; to the Vice-Chairman of the Port Commissioners; to the Secretary to the Chamber of Commerce; to the Secretary to the Trades' Association, and to Mr. C. E. Buckland for information.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT ON THE CALCUTTA MEDICAL INSTITUTIONS FOR 1883.

Judged by the death-returns, the public health of the town underwent some improvement compared with 1882. Mortality from cholera was again far above the average, although the number of deaths was not quite so great as in 1882. The following statement shows the mortality from the most important diseases in each year since 1873 :—

Year.	Cholera.	Diarrhœa and dysentery.	Fever.	Small-pox.	Other causes.	Total.	Ratio per mille of population.
1873	1,105	1,851	4,632	33	3,235	10,356	23·6
1874	1,345	1,458	4,461	123	4,343	11,527	26·0
1875	1,674	1,579	5,128	720	4,785	14,086	32·5
1876	1,851	1,864	4,361	71	4,817	12,964	29·9
1877	1,418	1,693	5,151	67	5,385	13 704	31·6
1878	1,338	2,010	6,086	1,495	5,467	16,396	37·8
1879	1,186	1,516	4,796	772	4,774	13,044	30 1
1880	803	1,267	3,797	114	5,698	11,681	26 9
1881	1,693	1,491	3,765	133	5,948	13 030	30
1882	2,240	1,454	3,618	17	5,848	13,177	30·4
Mean number	1,455·5	1,557·3	4,599·5	354·2	5,030	12,996 5	29·96
1883	2,037	1,307	3,442	73	5,466	12,325	28 4

The general death-rate of the town was 28·4 per mille against 30·4 in the preceding year. The number of deaths from cholera was 2,037 against 2,240 in 1882, and 1,368 the average of the nine years ending with 1881. On the other hand, there was a considerable increase in the number of deaths from small-pox, the deaths having risen from 17 in 1882 to 73 in 1883. There was a falling off in the number of deaths from dysentery and diarrhœa. The mortality from fever was lower than in any year of the series; but, for reasons stated in previous Reports, any inference drawn from the statistics furnished of this disease would be misleading. The following table shows the number of patients treated during the year for the principal diseases in the different hospitals in Calcutta, together with the number of deaths from each :—

Medical Institutions.	Cholera.		Diarrhœa and Dysentery.		Fever.		Small-pox.		Other causes.		Total.	
	Cases.	Died.	Cases.	Died.	Cases.	Died.	Cases.	Died.	Cases.	Died.	Cases.	Died.

Total ...	932	510	2,428	734	4,141	323	111	35	12,260	1,117	19,372	2,719

The total number of cholera cases treated was 932 against 859 in the preceding year, thus showing an increase of 73 cases. Of these, 510 cases proved fatal. The death-rate per mille was 547 against 544 in 1882. The number of persons treated for fever was 4,141 against 4,156, of whom 323 died against 366 in 1882. There was thus a slight falling off both in the number of cases treated and in the number of deaths.

2. The following table shows the number of patients treated in each of the hospitals during the year :—

Medical Institutions.	1883.				1882.			
	Total Treated.			Died per mille of treated.	Total Treated.			Died per mille of treated.
	In-door.	Out-door.	Total.		In-door.	Out-door.	Total.

Grand Total ...	20,381	239,337	259,718	136·83	20,579	232,504	253,083	143·73

There was an increase in the number of in-patients treated in the Medical College, the Mayo, and the Howrah Hospitals, while the other three hospitals show a decrease. The decrease is especially noticeable at the Campbell Hospital, where 5,499 in-patients were treated against 5,669 in 1882 and 6,074 in 1881. No explanation has been given of this falling off, which, though small in itself, is remarkable as having now continued for three years in succession without apparent cause. The total number of in-patients treated in all the hospitals shows a decrease of 198 patients.

3. There was some increase in the number of out-door patients, the total number being 239,337 against 232,504 in the previous year. This is attributed to the fact that cases of lighter illness were more common during the year. The increase is confined to the Medical College and the Howrah Hospitals. There was, on the other hand, a large falling off at the Mayo Hospital and dispensaries, where 176,619 out-patients were treated during the year against 182,163 in the preceding year. This decrease is attributed to the working of the Marwari dispensary at Burabazar. There was also a decrease of 5,266 patients at the Chandni Dispensary, of which no explanation has been offered. Of the 51,022 out-patients treated at the Medical College Hospital. 17,233 were treated in the Medical dispensary, 11,319 in the Surgical Department, 6,910 in the Ophthalmic Ward, 1,776 in the Dental Department, and 13,784 persons, who came after dispensary hours, were treated in the duty room.

4. The following table shows the daily average number of patients under treatment in 1883 :—

	1883.		1882.	
	In-door.	Out-door.	In-door.	Out-door.
Medical College	282·8	295·4	289·35	292·55
General Hospital	151·0	.....	148·6	.....
Mayo Hospital	82·7	1,214·7	92·	1,222·39
Campbell Hospital	350·6	.....	339·1	.....
Police Hospital	83·3	.....	87·02	.....
Howrah General Hospital ...	67·7	96·2	60·14	102·8

There was very little fluctuation in the average daily attendance of out-door patients in the three hospitals—the Medical College, the Mayo, and the Howrah hospitals—where such patients are treated. The change as regards in-patients was also comparatively trifling.

5. The following statement shows the mortality in each of the Calcutta hospitals during the last eight years :—

Years.	All Diseases, except Cases treated in Eye Infirmary.			Cholera.			Death-rate excluding cholera.	Number of deaths registered by the Municipality.	Rate per mille of population.
	Treated.	Died.	Died per mille.	Treated.	Died.	Died per mille.			
1876	21,097	3,064	145	696	369	530	132	12,964	30·1
1877	23,977	3,172	132	545	284	521	123	13,704	31·9
1878	27,908	4,518	161	579	323	557	153	16,396	38·1
1879	22,197	3,602	162	634	351	553	150	13,044	30·3
1880	21,033	2,906	138	356	183	514	131	11,681	27·1
1881	20,156	2,876	142	589	304	516	131	13,030	30·0
1882	20,078	2,886	143	859	468	544	125	13,177	30·4
1883	19,872	2,719	136	932	510	547	116	12,325	28·4

The death-rate from cholera was virtually the same as in the previous year, the numbers, both of cases and of deaths, rising in equal proportions. The general death-rate, excluding cholera, was the lowest of all the years in the series. The proportion of deaths per mille of total population was 28·4 against 30·4 in the previous year.

The following table exhibits the true death-rate among natives, excluding the mortality from cholera and moribund cases :—

	Campbell Hospital.	Medical College Hospital.	Howrah General Hospital.	Mayo Hospital.	Police Hospital.	Total.
True native deaths, excluding cholera	1,159	346	224	216	19	1,964
Moribund persons	192	91	33	43	1	360

True death-rate per mille, excluding cholera and moribund cases	191·03	111·7	252·6	92·27	7·6	130·06

6. With regard to the features of particular diseases, the Surgeon-General makes the following remarks :—

"The quantity of fever in 1883 varied little from that of the previous year, but it was less fatal in the proportion of 77 to 90 per thousand. There was some increase of cholera with an ordinary degree of fatality.

"In the small-pox hospital 103 persons were treated in 1883. Of these, 22 had been vaccinated, of whom 3 died; 18 had been inoculated and 5 died; 4 had had small-pox previously and 1 died; 59 were unprotected and 26 died. Assuming the death-rate elsewhere to have been the same as in the hospitals, the number recorded in the first table will represent about 214 cases of disease, showing that nearly one-half were received into hospital. This proportion is an improvement on previous numbers, and is explained by the activity of the police mentioned by the Health Officer in his reports. But the return of small-pox in 1883 is less satisfactory in the quantity it shows. Heretofore the town has enjoyed three or four years of comparative exemption between severe outbreaks, not between culminating points, but between the cessation of high numbers after one epidemic and the return of them on the approach of another. One doubtful exception occurred in 1876-77. There was before 1883 but one year of exemption, viz. 1882, and as the figures of 1883 have already been exceeded by those of 1884, there is reason to fear that the power conferred by the law which made vaccination compulsory in 1880 has not been employed to advantage. The records of the Health Office do not show any improvement in the quantity of work, and the protective value of it is open to serious suspicion on the data supplied by the Campbell Hospital."

The facts reported by the Surgeon-General are unsatisfactory, and point to defects in the working of the Vaccination Act. The question has been considered separately in connection with a representation made to Government since the close of the year, by some influential residents of Calcutta, complaining of the inconvenience and risk to which the public are exposed for want of proper accommodation in any of the hospitals at Calcutta for European patients suffering from small-pox. Articles on the subject also appeared in some of the leading newspapers. As it appeared on enquiry that there were some grounds for complaint, the Surgeon-General was requested to take early steps to convert the Shumbunath barrack, in the compound of the General Hospital, into a ward for paying patients suffering from small-pox, and to make such improvements and alterations in the small-pox ward of the Sealdah Hospital as to make it suitable for the reception of patients of the poorer classes. This has been done, and the arrangements should suffice for any ordinary outbreak of small-pox. The Surgeon-General, however, was also requested to submit a report on the advisability of establishing a hospital at Calcutta, on the basis of the Eden Sanitarium at Darjeeling, for the reception of patients suffering from infectious diseases, including cholera and fever. Dr. Payne has expressed the opinion that the ordinary prevalence of these diseases is not such as to justify the construction of a separate special hospital, which would be very costly, and which could not be even approximately self-supporting. The Lieutenant-Governor has accordingly decided to take no further action in this direction for the present.

6. The results of the surgical operations in the Medical College Hospital were not so satisfactory as those obtained in 1882. The number of operations made in the two wards of the hospital was 348, of which 60 cases proved fatal,

against 279 operations with 29 deaths in 1882. The Lieutenant-Governor entirely concurs in the remarks of the Surgeon-General regarding the practice of antiseptic treatment in this Hospital. In the Campbell Hospital, where a moderate use of antiseptics was made, the mortality after operations was very low.

7. The following statement shows the number of cases of enteric and remittent fever treated in each of the hospitals during the year:—

There was only one case of enteric fever, which occurred in the Presidency General Hospital. There is a want of precision in the nomenclature of this class of disease employed by different officers. The same term of typhoid fever is given by some practitioners to diseases in which officers of Indian experience recognize only the more severe and continued forms of miasmatic disease which are not traceable to the causes assigned to enteric fever. There was a large increase of remittent fever in all the hospitals, excepting the Medical College and Howrah hospitals. The increase was large at the Mayo Hospital, where 212 cases were treated during the year against 143 in 1882.

8. In the Eden Hospital, where the admissions were more closely restricted this year to obstetric cases, the number of patients treated was 1,300 against 1,323 in the previous year. Of these, 875 were Europeans and 425 natives. There were 34 deaths against 75 in the preceding year. The system of obtaining permanent nurses from the Hospital Nurses' Institution, and placing them under the immediate supervision and control of the resident Sister of the hospital, has proved successful. Native dhaies have had to be employed in the native wards, owing to the uncertainty which existed whether the Hospital Nurses' Institution would be able to meet further demands. It is disappointing to find that the scheme for training women as civil and military nurses has not proved a success. Some of the pupils of the latter class have, it is stated, been found unfit for the work.

10. In the ophthalmic wards 509 cases were treated, of which 470 were fresh cases and 39 remained from last year. Of the 509 cases treated, 243 were cured and 142 relieved, 93 otherwise discharged, and 31 remained under treatment at the close of the year: 359 operations were performed during the year against 275 in 1882.

10. The number of in-door patients treated in the Medical College Hospital, exclusive of ophthalmic cases, was 5,032 against 4,947 in the previous year. There were 464 deaths, giving a death-rate of 112 per 1,000 against 123 in the preceding year. This mortality was the lowest on record since 1876. Of the 5,032 patients, 2,494 were Christians and 2,538 natives. The death-rate among the Christians was 54 per 1,000 against 59 in 1882. The ratio of deaths from fever was 34·3, from diarrhœa and dysentery 1·10, from cholera 757·1, and from chest affections 96. Among the natives the aggregate death-rate was 169 per 1,000, and the death-rate from fever was 235·8, from dysentery and diarrhœa 313·8, from cholera 500, and from chest affections 250. The construction of a new ward for contagious diseases has been sanctioned, but has not yet been taken in hand. A separate ward has been set apart for cholera and poison cases among women, and many other minor improvements have been effected.

11. There was a decrease in the number of patients treated in the Presidency General Hospital, the total number being 3,121 against 3,295 in 1882. Of these, 1,622 were sailors and 571 paying and 928 non-paying patients. There was an increase in the number of paying and a considerable decrease in that of non-paying patients. There were 149 deaths against 142

in 1882. Of these, 41 were from cholera, 11 from diarrhœa and dysentery, 17 from fever, and 80 from other diseases. The death-rate per 1,000 was 47 against 44 in the previous year.

12. Quadrennial repairs were executed to the central buildings, and portions of the eastern buildings were converted into private rooms. The Lieutenant-Governor learns with satisfaction that the scheme for the supply of filtered water to the hospital has been completed. There was no complaint regarding the dieting of patients; but the expenditure under this head has been greatly increased by keeping a number of cows in the compound of the hospital for the supply of milk and butter. This step was adopted as a precaution against cholera in the hospital.

13. The number of admissions into the Campbell Hospital was 5,132 against 5,290 in the preceding year. There were 188 cases of cholera, 103 of small-pox, 940 of dysentery and diarrhœa, and 1,226 of fever. The total number of deaths was 1,287 as compared with 1,405 in 1882. The percentage of deaths on the number of patients treated was 23·4. The true death-rate of the hospital per mille. excluding cholera and moribund cases, was 191 against 204 in the previous year: 143 major operations and 300 cases of minor operations were performed. The death-rate, after major operations, was 5·9 per cent, and after minor operations ·32 per cent. A masonry cook-house is stated to be urgently necessary for the small-pox ward. Special wards for the accommodation of surgical and obstetric cases, and some separate rooms to segregate exceptional cases, are also necessary. A separate report, with plans and estimates of the works, should be submitted for the consideration of Government.

14. The number of admissions into the Police Hospital was 2,231 against 2,394 in 1882, thus showing a decrease of 163 cases. This indicates that the general health of the force was good. The proportion of admissions per 1,000 of the total strength was 796 against 853 in 1882, and the daily average number of sick was 85. The total number of deaths was 28 against 33 in the preceding year, the percentage of deaths to admissions being 1·2. The ratio of deaths to total strength was ·99 per cent as compared with 1·1 in the preceding year. The decrease is attributed to the absence of deaths from respiratory affections, and to the diminution in the number of fatal cases of dysentery.

15. In the Mayo Hospital 1,841 in-patients were treated against 1,885 in the previous year, showing a decrease of 44 cases, the daily average number of admissions being 83. The total number of deaths was 348 against 349 in the previous year, and the total death-rate was 18·9 per cent. The number of persons treated for cholera was 286, of whom 148 died. The death-rate per mille, excluding cholera and moribund cases, was 82·6, showing a decrease of 31·2 deaths as compared with the death-rate of the previous year.

16. In the Chandni Hospital 371 in-patients were treated against 240 in 1882, the daily average number being 9. The ratio of mortality on the total number of patients treated was 43 per 1,000. The number of out-patients treated was 65,259 against 70,525 in 1882, showing a decrease of 5,266 cases. No reason has been assigned for this falling off. Adverting to the remarks made in the Resolution recorded on the Report for 1882 in regard to the accuracy of the statistics recorded in this hospital, Dr. Payne writes:—"Comparison of records for the last five years shows that the out-patients were returned in steadily growing numbers at the Chandni Dispensary from 1879 to 1882. The growth was suddenly checked and a great fall took place in 1883. Nothing resembling this has occurred at either of the other dispensaries, or at the Medical College."

17. The total number of patients treated at the Howrah General Hospital was 13,327 against 12,616 in 1882. The number of in-door patients was 1,631 and that of out-door patients 11,696. Of the out-door patients, 4,371 were Europeans and 7,325 natives as compared with 3,301 and 7,711 in the previous year. Of the in-door patients, 696 were Europeans and 935 natives, against 669 and 935 respectively in 1882. There was no fluctuation in the number of in-patients admitted into the native side of the hospital, but the number of out-door patients fell. On the European side, however, there was an increase in the number of both in-door and out-door patients, which is

explained by Dr. Pilcher as follows :—"The figures representing out-patients on the European side are somewhat increased because a considerable number of out-patients come for advice and are not only able to purchase their medicines, but prefer to do so, and these patients escape entry in the out-patients' register. On the native side there will be little difference from year to year in the number of in-patients, for there is little accommodation. In the native out-patient department there will be fluctuation, due to the varying healthiness of each year." The Lieutenant-Governor trusts that proper steps have been taken to keep an accurate record of the out-door patients on the European side.

18. The invested capital of the Calcutta hospitals rose from Rs. 5,43,700 to Rs. 5,47,700. The whole of this increase (Rs. 4,000) appertains to the Howrah General Hospital. The total expenditure, excluding the amount invested, was Rs. 4,04,684 as compared with Rs. 3,69,304. The net cost to Government amounted to Rs. 2,62,318 against Rs. 2,32,224 in 1882, showing an increase of Rs. 30,094, which is attributed mainly to the large expenditure on establishment and repairs to buildings. The expenditure was large at the Medical College and the Presidency General Hospitals, while at the Police Hospital it was trifling.

19. The total income of the Medical College Hospital amounted to Rs. 15,178 against Rs. 11,997 in 1882. Of this amount, Rs. 11,939 represents receipts from paying patients, Port dues, &c., and Rs. 3,239 interest on investments. There was an increase of Rs. 3,765 in the receipts from paying patients. The net cost to Government, deducting the amount remitted to the treasury, was Rs. 93,856 against Rs. 80,170 in 1882. The total expenditure amounted to Rs. 1,07,232 as compared with Rs. 89,632 in the preceding year. There was an increase in the expenditure on establishment.

20. The total receipts of the Presidency General Hospital were Rs. 44,533 against Rs. 41,661 in 1882. The amount received from paying patients was Rs. 13,696 against Rs. 13,089 in the past year. There was an increase of Rs. 2,326 in the receipts from the Port Fund. The total expenditure of the hospital was Rs. 1,23,126 against Rs. 1,00,900 in 1882, and the net cost to Government, including the salaries of the covenanted medical officers, was Rs. 78,744. The expenditure on buildings amounted to Rs. 30,243. Deducting this last item, the total expenditure on the sick amounts to Rs. 92,882, showing an increase of Rs. 2,104 over that of the past year. There was a decrease of Rs. 864 in the cost of bazar medicines, and an increase of Rs. 830 in that of imported medicines and instruments.

21. At the Campbell Hospital the total receipts from all sources aggregated Rs. 31,430 against Rs. 31,443 in 1882. Rupees 30,000 was paid by the Municipality, Rs. 44,437 by Government, and Rs. 1,430 was obtained from the Port Fund, by the sale of medicines, &c. The total expenditure was Rs. 75,868 against Rs. 78,498 in the preceding year. Of this, Rs. 25,574 was expended on buildings, and Rs. 50,293 on the ordinary requirements of the hospital. There was an increase of Rs. 255 in the cost of establishment, and a decrease of Rs. 1,166 in the cost of diet, stimulants, &c.

22. The gross expenditure of the Police Hospital amounted to Rs. 16,685 against Rs. 16,124 in 1882. Five-sixths of this amount were paid by the Calcutta and the Suburban Municipality and one-sixth by Government. The daily cost per head was two annas and two pie against two annas and one pie in 1882. There was an increase of Rs. 424, due to the large amount expended on clothing. Excluding extraordinary charges, the net expenditure of the hospital shows an increase of Rs. 245.

23. The total income of the Mayo Hospital from local sources amounted to Rs. 22,832, of which Rs. 16,758 was interest on investments. Rupees 5,957 was subscriptions, and Rs. 117 receipts from other sources. The total expenditure of the hospital and its associated dispensaries was Rs. 55,124 against Rs. 58,281 in 1882: 68 per cent. of this was paid by Government and the balance from private funds of the institution. The cost of establishment increased by Rs. 367, and that of diet by Rs. 379. The average cost of each diet was two annas nine pie against three annas two pie in 1882. There was thus a small reduction in the cost of dieting.

24. The invested funds of the Howrah General Hospital rose by Rs. 4,000, and the total amount invested in Government securities was Rs. 42,000. The

receipts from private sources amounted to Rs. 22,674, of which Rs. 6,679 was paid by the Port Trust for the diet of sick seamen, Rs. 2,200 by the Municipality, Rs. 1,598 was interest on investments, Rs. 12,186 was contributed by the East Indian Railway Company, British India Steam Navigation Company, and merchants, and Rs. 5,163 contributed by Government for European medicines, &c. Native subscriptions amounted to Rs. 10 only The total expenditure amounted to Rs. 24,639 against Rs. 23,634 in 1882, showing an increase of Rs. 1,005. Rupees 706 were expended on buildings. The actual amount expended on the sick was Rs. 23,933 as compared with Rs. 22,723 in 1882. The cost of establishment exceeded that of 1882 by Rs. 339. There was also an increase of Rs. 212 in the cost of bazar medicines and a decrease of Rs. 124 in the cost of diet. The average cost of each diet was 9 annas among Europeans and 2 annas 1 pie among natives, as compared with 9 annas and 1 anna 10 pie in the preceding year:

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE BHAGULPORE DIVISION FOR THE YEAR 1883-84.

GENERAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 5th August 1884.

RESOLUTION.

READ—

The General Report of the Commissioner of the Bhagulpore Division and Sonthal Pergunnahs for the year 1883-84.

THIS report has been punctually submitted by Mr. Barlow, who was in charge of the Division during the year. There were changes among the district officers in all districts of the Division, except Maldah, which remained throughout in charge of Mr. Porch.

2. *Tours.*—The Commissioner spent 127 days on tour, visiting the head-quarters of each district and every sub-division, except two in Purneah. He made the usual inspections of the various offices, and devoted much attention to the condition of the crops and the prospects of the season. All the district and sub-divisional officers spent a sufficient time in the interior of their districts, but more might have been done by the Joint-Magistrates. Inspection work is stated to have been thoroughly done, and local enquiries attended to; and in this respect Mr. Jones of the Sonthal Pergunnahs is specially commended for the useful work done by him while on tour in improving the water-supply on wards' estates, laying out village roads and plantations, and improving markets.

3. *Weather and Crops.*—In every district of the Division the recorded rainfall was below the average, and the evil effects of the deficiency were aggravated by the uneven distribution of the rainfall. No rain fell from the middle of September to the end of March. In consequence the winter rice crop suffered severely, and there was also considerable loss on the rubbee crop, except in places subject to inundation. Heavy dews in December, January, and February are said, however, to have improved the outturn of the latter crop. Throughout the Division the autumn or Bhadoi crops were fair, except in Monghyr, where the outturn is said to have been about half the average. The winter rice crop seems to have been worst in Maldah, while Bhagulpore gave the poorest rubbee. On the whole, the pressure upon the people seems to have been greatest in parts of Monghyr, Bhagulpore, and Maldah, and least in Purneah and the Sonthal Pergunnahs. The system of irrigation from highlying reservoirs, which prevails in the latter district, is said to have helped the people greatly by storing the rain that fell up to the middle of September, and rendering it available for use at the end of the year. The measure of Government assistance which the circumstances of the different localities called for fall within the history of the current year.

4. *Public Health.*—The Commissioner states that the mortality of the past year was less than that of the previous year everywhere, except in the Sonthal Pergunnahs, and this is no doubt true of mortality from cholera. There was, however, a good deal of fever, although in Maldah and the lowlands of Rajmehal and Pakour the scanty rainfall and the absence of Ganges floods seem to have resulted in an unusual immunity from that disease, thus, according to the Commissioner, refuting the local saying, that an inundation year is a healthy one. Taking the Division as a whole, its sanitary conditions may perhaps be summed up by saying that Purneah, north Bhagulpore, and the lower portions of Monghyr were unhealthy; that the fever mortality of Maldah and the eastern tracts of the Sonthal Pergunnahs depends upon the movements of the Ganges; and that the western part of the Sonthal Pergunnahs is beginning to suffer from a wave of the malarious fever which has proved so destructive in Burdwan and Beerbhoom. But experience has shown that all theories which attempt to explain or localize this fever are delusive. The ravages are

no longer confined to alluvial districts, but have extended to the laterite formations of Midnapore and Bankoora, and are even beginning to threaten the peculiarly dry and healthy district of Manbhoom.

5. *Material condition of the people.*—This section of the report consists chiefly of general remarks, and is wanting in those instances of actual fact which usually come to notice in a year when a partial failure of crop has specially directed the attention of local officers to the condition of the people. On the whole, the tendency of the general body of cultivators appears to have been to exaggerate the danger, and to appeal to the precedent of 1874, with the object of inducing Government to give assistance as in that year. It must, however, be admitted that, all exaggerations being allowed for, the partial failure in the harvests did cause very general pressure and did bring into very clear relief the unsatisfactory condition of large classes of the agricultural population in this division. It has shown that in districts where the pressure of population on the soil is not excessive, there is under existing conditions of land tenure and agriculture such a small margin of subsistence left to the cultivators of the soil, that a slight vicissitude of season suffices to reduce them to the verge of distress. This lamentable state of things was indeed known before, for it has been a commonplace of Behar administration for years, and was prominently noticed by the Famine Commission. The opponents of the Tenancy Bill deny the existence of this state of things, but the recent condition of the Division has shown only too vividly the uncertain condition of the people. The landless labouring classes, whose remuneration ordinarily consists of a share of the harvest which they reap, were of course worse off than usual, but employment was open to them on the railway works in Durbhunga, on the west of the Ganges, and in Purneah on the east, and consequently nothing approaching actual starvation was to be apprehended.

6. *Emigration and Immigration.*—The early stoppage of the rains, coinciding as it did with the commencement of the recruiting season, gave a remarkable stimulus to emigration in the districts of Monghyr and the Sonthal Pergunnahs. In the former district the number of registered emigrants rose from 953 to 2,083, and in the latter from 2,289 to 3,907. In Bhagulpore the number was virtually stationary, while from Maldah and Purneah there was no emigration at all. Besides these registered emigrants, it is stated that a large number of persons left the Division under the system of free emigration, and a passage is quoted from the report of the Magistrate of Monghyr, in which Mr. Kean condemns the system as a retrograde step, leading to abuses. The whole question of free emigration has been recently considered by the Lieutenant-Governor, who has expressed his views on the subject at length in the Resolution on the Report on Inland Emigration for 1883, and in a letter to the Government of India, a copy of which will be sent to the Commissioner of Bhagulpore for communication to the officers of his Division.

7. *Prices of food and labour.*—Under this head the information furnished in the report is neither complete nor precise. A comparison between the prices ruling during the past year with those of previous years would have been valuable, and an attempt should have been made to define the effect upon different parts of the Division of the high price of rice,—the chief article of food. In Maldah the price of wheat is said to have been low owing to the abundance of the crop and slackness of export. Wages are said to have remained unchanged.

8. *Manufactures and Mines.*—The statistics of the outturn of indigo given by the Commissioner show a considerable decline in this manufacture in Purneah and Maldah, and a slight increase in Bhagulpore and the Sonthal Pergunnahs. In Monghyr the condition of the industry remained stationary.

The silk manufacture is decaying both in Bhagulpore and Maldah, and the tusser of the former district is said now to be inferior to that produced in Midnapore and Bankoora. Sugar, on the other hand, seems to be flourishing. Messrs. Thomson and Mylne's cane-presses are in great demand, and the export of molasses is believed to be increasing. Of the special products of the Division, only the brass and metal ware of Nawabgunge and English Bazar in Maldah appears permanently to hold their ground, though it is stated that a fresh demand has arisen for the muzzle-loading guns made at Monghyr. A lac factory has been opened at Jessidih (Baidya-

nath) in the Sonthal Pergunnahs, with fair prospects of success. Stone-quarrying is carried on profitably in Rajmehal, and a new company—the Deoghur Mining Association—is said to have commenced work, but with no results at present.

9. *Trade and Commerce.*—Special measures were taken during the year to ascertain the trade of the districts of Monghyr, Bhagulpore, Purneah, and Maldah, and detailed statistics of these districts, with the exception of Maldah, are given in the report. The precise mode in which these figures were obtained is not stated, and little would be gained by examining them in detail. Everywhere the exports of food-grains fell off, and the comparative poverty of the people during the year led also to a reduction in the demand for European piece-goods. The Purneah returns show a remarkable decline in the exports of jute and gunny cloth, which denotes a larger trade in these articles than is generally believed to exist in Purneah. The statistics of the trade with Nepal will be dealt with by the Financial Department in the Annual Report on the Internal Trade of Bengal. The question of the duties levied on this trade was enquired into by the Collector of Bhagulpore, who claims to have ascertained that no export duty, properly so called, is levied on rice or other food-grains by the Nepal authorities. According to Mr. D'Oyly, what has been hitherto supposed to be an export duty is nothing more than the *koyali* or weighment fee paid by all purchasers to the persons who bring grain for sale. It is true that the Nepal Government levy a tax under the name of *koyali* from the cultivators, but this is done irrespectively of the destination of the grain. Purchasers for local consumption therefore pay *koyali* just as much as purchasers for export, and the tax has no differential effect upon export trade. According to Mr. D'Oyly, all that the Nepal Government does in the matter is to exact a share in a customary impost upon purchasers, which would be levied whether the State claimed any share in it or not.

10. *State of public feeling.*—The interest taken last year in the amendment of the Criminal Procedure Code is said to have subsided with the passing of the modified Act, leaving behind some traces of ill-feeling between the educated natives and Europeans and Eurasians. The Local Self-Government scheme has dropped wholly out of sight. The Rent Bill, which deals with a subject on which the general body of the people is in a position to know something, has excited much discussion among zemindars; while among the ryots it has given rise to the hope that rents may fall to the level of 20 years ago. There is, however, in the Division no combination among ryots against high rents, though complaints against individual zemindars have been made. The public press is in this Division not a powerful medium of disseminating news. *The Bhagulpore News* is still in existence, and a second fortnightly vernacular, called the *Hindi Samachar*, has been started. Neither has a large circulation or much influence. In connection with agricultural improvements, the Commissioner makes the following remarks:—

"An attempt was made in the district of Purneah, by holding an agricultural exhibition at Kissengunge for the second time, to introduce some improvement in the mode of tillage, to encourage the breeding of a good class of cattle, and to improve the native method of pressing sugarcane. For this purpose prizes were awarded for the best cattle exhibited of several different kinds, for the best kind of ploughs, the best ploughing, and the best produce of several kinds; and two kinds of patent sugarcane-pressers were brought and exhibited, as also some implements from the Cawnpore Government Farm and that at Sydapet in Madras, and a Cawnpore bucket pump, and Swedish and American ploughs. A sugar boiling and refining apparatus also was bought and brought from Cawnpore. The Collector of Shahabad was asked to procure some good specimens of sugarcane for introduction into this district, but was unable to do so. A large number of articles, field and garden implements, and carpenters' tools, &c., were procured from Messrs. T. E. Thompson and Co., and were eagerly purchased. Sickles of English make, far superior to those of native manufacture, which are of soft iron, were in favour. The Kishengunge sub-division is celebrated for its cattle, and supplies eastern districts as far as Dacca: and a very large number were brought for sale. There were trials of different ploughs made, and it is reported that the Richmond (U. S. A.) D. E. plough held the first place. The Government farm at Cawnpore had adopted it. Mr. Walker of Bhomra Factory uses a large number of these ploughs, and finds them very useful."

11. *Police and Crime.*—The number of cognizable cases enquired into during 1883 was 11,579 as against 11,574 in the preceding year. Deducting 80 cases not enquired into, convictions were obtained in 4,556 cases, or 41·5 per cent.,

as compared with 39·5 per cent. in 1882. Offences against the person are shown to have fallen from 987 to 560, but this is due to 467 cases of hurt, under section 323 of the Penal Code, being shown for the first time under the head of non-cognizable crime. Offences against the public tranquillity rose from 164 to 195; but the causes of the increase have not been explained, and no comment on the figures is offered by the Commissioner. The conduct of the police is reported to have been fairly good on the whole, but their working and detective ability are said to be below the average. In particular the Purneah Police are reported inferior as a body to other district police. The reasons for this, however, are not given, though the statement, if correct, is one calling for serious consideration. It may be gathered from other portions of the Report that the unhealthiness of the climate of Purneah puts a severe strain upon the executive staff of the district.

12. *Civil Justice.*—The number of civil suits instituted during the year was 40,992 against 41,971 in 1882. The increase in rent-suits in Maldah from 1,149 to 2,166, which was noticed in last year's Resolution, has been followed by a corresponding decrease, the figures for 1883 being 1,344, which may be taken as representing the normal rent litigation of that district. With regard to civil cases generally, the Commissioner observes that unredeemed credit was the chief cause of action, and remarks:—

"The relation between creditors and debtors cannot be said to be satisfactory. Bonds are executed at usurious rates of interest. The ordinary prevailing rate for small debts is 4½ or 6 pies per rupee per month, which means about 25 per cent. per annum. Compound interest is also levied. As a necessary consequence of the above state of affairs, the landholders are impoverished to the extreme degree, and the mahajans flourishing. I can hardly name a couple of men from among the landed aristocracy who are entirely free from debts."

As a statement of fact, it is probably correct to say that the landholders are impoverished and the mahajans flourishing; but to represent this as a necessary consequence of the high rate of interest ruling in the Bhagulpore Division, as in most rural districts of Bengal, is to ignore the causes which determine the rate of interest itself. Capital invested in loans to landholders and small agriculturists no doubt earns a much higher rate of interest than capital invested in ordinary mercantile business. At the same time, the security offered is often bad, the borrowers are mostly improvident, and the prospects of the crop on which in the last resort the recovery of the loan depends are always uncertain. The combined operation of these causes has established a high customary rate of interest, which can only be reduced in the case of the larger landholders by their adopting a more reasonable standard of living, and in the case of ordinary cultivators by securing to them the right to hold their lands undisturbed so long as they pay a fair rent for it, and possibly also by the establishment of agricultural banks. The Commissioner's remarks on the inconveniences said to arise from the present arrangement of civil jurisdictions in Maldah will be considered in the Judicial Department.

13. *Land and Land Revenue.*—The land revenue demand, current and arrear, for the Division was Rs. 34,31,448, of which Rs. 32,79,869 were collected and Rs. 1,641 remitted, leaving a total balance of Rs. 1,49,938, consisting of Rs. 1,44,481 current and Rs. 5,457 arrear. The percentage of collections on the total demand was 92·9. In the Sonthal Pergunnahs the percentage fell as low as 76·3 per cent. owing to the heavy arrear of Rs. 70,022 in the Government estate of the Damin-i-koh. In the matter of collections the results of the past year were worse than those of 1882-83; but considering the defective rainfall, this is no more than might be expected. The Lieutenant-Governor is glad to observe that the pressure of the season upon the ryots was mitigated by suspending the demand in some of the Government estates. The arrears of partition cases have increased from 150 to 202, but the increase is said to be due to a change in the mode of returning these cases, and thus to be more nominal than real.

14. *Roads and Public Works Cesses.*—As the cess year commences on the 1st October, the report deals with the figures of 1882-83, the last complete year for cess purposes. The current demand amounted to Rs. 7,62,368, showing an increase of Rs. 1,15,349, or nearly 18 per cent. more than the demand for 1881-82. Of this, Rs. 10,294 had been paid in advance in previous years, and Rs. 6,63,427 were recovered during the year. The balance was Rs. 88,647

against Rs. 62,595 at the close of 1881-82. As, however, the demand had been enhanced in Monghyr, Bhagulpore and Purneah by revaluations, the effect of which was imperfectly understood by the zemindars, the results are generally unsatisfactory.

15. *Excise.*—The gross excise revenue rose from Rs. 11,21,749 in 1882-83 to Rs 11,78,662 in the past year, the charges remaining much the same as before. The following statement illustrates the progress of the excise revenue in years selected to show the operations of different systems:—

	Rs.
1871-72	7,58,177
1879-80	9,63,844
1880-81	11,96,300
1883-84	11,78,662

The first year of the series shows the highest revenue collected under the central distillery system, the second gives the results of a mixed system of outstills and central distilleries; while in the third year, 1880-81, the outstill system was in force in all districts of the Division, except the Sonthal Pergunnahs, and the excise revenue rose to its highest point. Compared even with this year, the figures for 1883-84 show a decline of only Rs. 18,138. The revenue from country spirits rose from Rs. 5,30,326 to Rs. 5,84,357. In Monghyr the increase amounted to Rs. 37,045. It is attributed to increased competition. There have, however, been numerous complaints of the needless multiplication of outstills in this district, and the Lieutenant-Governor will await the conclusions of the Excise Commission upon this point.

The revenue from ganja fell off slightly, and the Commissioner states that the consumption of the drug is steadily decreasing. It is satisfactory to observe that the revenue collected is considerably above, and the consumption considerably below, the average for the five years ending in 1883. Opium shows a trifling increase both of revenue and consumption. The Commissioner expresses a hope that illicit manufacture and sale of the drug by cultivators will be effectually put down, but does not indicate the nature of the measures proposed to meet what has hitherto proved an insoluble difficulty.

16. *Stamps.*—The following statement shows the revenue derived from stamps other than postage and telegraph:—

	1882-83. Rs.	1883-84. Rs.
Judicial or court-fee stamps, including stamps for copies ...	6,59,653	6,61,373
Non-judicial stamps, including (1) one-anna revenue stamps, (2) bills-of-exchange or hundi stamps, (3) impressed stamps, and (4) other non-judicial stamps	2,16,131	2,11,744

The decline under the head of non-judicial stamps is not explained by the Commissioner, but may be assumed to be due to the diminished prosperity of all classes during the year. It is observed that the sales of one-anna revenue stamps fell off from Rs. 7,943 to Rs. 7,562 owing to Government having exempted the cheques of certain local funds and withdrawals of savings banks deposits from liability to this duty.

17. *License-tax.*—The assessment again fell from Rs. 1,83,700 in 1882-83 to Rs. 1,78,085 in the past year. Out of this amount, Rs. 1,63,068 were collected, Rs. 12,830 remitted, and Rs. 6,855 refunded, leaving a balance of Rs. 2,187 outstanding at the close of the year. There seems to have been a large decrease in this tax in Monghyr. The only explanation offered is the remark that "the impression is that the district was originally over-assessed." This may be the case, but the Lieutenant-Governor must observe that there seems to be a tendency among local officers to look upon the license-tax as a sort of fixed assessment liable to modification by deaths and changes of residence, but not necessarily of a progessive character. This view is doubtless so far correct that no rapid increase in the proceeds of the tax can fairly be looked for; but it is reasonable to expect that the gradual growth of wealth among the mercantile classes should not be without effect upon the yield of the license-tax.

18. *Monetary arrangements.*—The receipts of currency notes show a remarkable decline. Deducting transactions with Government treasuries

outside the Division, the figures for the past year show a fall in receipts from Rs. 44,46,610 to Rs. 35,49,325, but in issues an increase from Rs. 13,43,895 to Rs. 13,62,380. This is ascribed to general depression of trade. The fall was least in the Sonthal Pergunnahs, where the transactions of the lac merchants are believed to have kept up the receipts of notes almost to the level of the previous year. Government savings banks are rapidly losing popularity as compared with the Post Office savings' banks, which receive smaller sums, allow withdrawal more readily, and require fewer formalities than the Government institutions. Stock-notes to the value of Rs. 100 were sold in the Sonthal Pergunnahs and Monghyr. In the other districts of the Division there were no sales at all.

19. *Communications and other public works.*—The line from Baidyanath to Deoghur continues to be popular. It was proposed during the year to change the name of the junction from Baidyanath to Jessidih in order to prevent fraud being practised upon passengers by collecting at Baidyanath through-tickets to Deoghur and then re-issuing them for fresh payment. No necessity, however, was held to have been made out for changing the name of so important a station. It appears that the approaches to the Dharna bridge are too steep to admit of a cart roadway being added, and the proprietors of the tramway fear the loss of income which they think would be caused by opening the bridge to foot-passengers.

The portion of the Tirhoot State Railway between Dalsing Serai and Simuria Ghat was opened for traffic on the 1st May 1883. No progress has been made in the scheme for a railway from Bowsee to Bhagulpore. The remarks of the Collector of Purneah on the railway under construction in that district will be considered in the Railway Branch of the Public Works Department.

The Maharajah of Durbhunga's irrigation works in Monghyr are stated to be kept in perfect order and to have done much good during the year. The same is said of the smaller works in the Sonthal Pergunnahs. In Bhagulpore special facilities for irrigation are said to exist along the course of the Churdun, a hill stream passing through part of the district south of the Ganges; but the zemindars are too poor and have too little idea of concerted action to attempt any comprehensive scheme. The Lieutenant-Governor will await the detailed report which is promised on this subject. Mr Weekes, the Collector of Purneah, draws attention to the possibility of utilizing for irrigation the numerous hill streams which fall into that district, and suggests the construction of an anicut on the river Koosi. His remarks will be communicated to the Irrigation Branch of the Public Works Department.

The road funds of the Division amounted to Rs. 6,06,232, of which Rs. 5,02,005 were expended, leaving more than a lakh in hand. No work of special importance was executed during the year. Existing roads were kept in repair, some new roads were commenced, and much useful bridging was done. Rupees 44,857 were spent on village roads. The important work of planting trees along roads made most progress in Bhagulpore and the Sonthal Pergunnahs, where proper nurseries are kept up to supply strong young trees. This system should be extended to all other districts, and every effort made to interest local zemindars and leading villagers and the chief men of the rural police in planting new trees, or at any rate in maintaining those already planted.

20. *Education.*—There was a further fall in the total number of schools from 7,620 to 7,503, while at the same time the number of pupils rose from 89,628 to 95,812, or 6·9 per cent. The decrease in the number of schools is no matter for regret. Superfluous and unsuccessful institutions have been abolished, and schools of a lower grade have been amalgamated with those of higher grades. There were 64 female schools in the division against 24 in 1882-83. Including other schools which admit females, the total number of girls under instruction during the past year was 2,553. This, though only a small proportion of the population of a school-going age, represents a considerable advance upon the state of things in former years. It is interesting and satisfactory to find that female education promises to make special progress among the aborigines, who are said to be freer from prejudice in this matter than either Hindus or Mahomedans. The number of Sonthals at schools rose from 6,839 to 9,306, and of Paharias from 203 to 211. Sixty-four Dhangurs also

appear in the returns. Three Sonthals passed the upper primary examination, and 77 Sonthals and 2 Dhangurs the lower primary. Two Sonthals took upper primary and three lower primary scholarships. These results indicate satisfactory progress in the education of a class of the community whose advancement it is very desirable to promote. It is observed that the School Committee of the Sonthal Pergunnahs are arranging to open 30 cheap schools for aborigines, of which 24, with 531 pupils, have already been started. The Lieutenant-Governor would be glad to have fuller information about the progress of these schools in next year's report, stating, if possible, what becomes of the more successful pupils after they leave school.

21. *Committees.*—The Commissioners of the various municipalities seem to have attended more regularly and taken greater interest in their work than the members of the Road and Education Committees. Thus the Road Committees of Monghyr and Maldah only held six meetings, while the Education Committees of Purneah and Maldah met once during the year. The Education Committee of the Sonthal Pergunnahs is again favourably reported on. The municipalities of Monghyr, Purneah, Jamalpore, and Sahebgunge seem to have done good work. The Purneah Municipality have under consideration a scheme for draining a large marsh, which promises to improve the health of the station. In Bhagulpore the state of some of the station roads is reported to be unsatisfactory, and the water-works have made no progress during the past year.

22. *Wards.*—Fifteen estates were under the management of the Court of Wards at the commencement, and the large estate of Surjapore in Purneah was made over to its proprietor in November 1883. During the 10 years this estate was under the Court, the whole of its debts were paid off, and the management seems to have been in other respects satisfactory. The tenants are reported to regret the return to a system of collection through farmers, recently introduced by the proprietor. Progress seems to have been made in adjusting the affairs of the Srinagar Estate in Purneah, of which charge was taken in 1882-83. Works of improvement, such as digging tanks and laying out roads and plantations, were undertaken in most of the estates in the division. In the case of tanks the tenants of the villages benefited were called upon to pay one-fourth of the cost, but this has not been readily realized.

23. *Conduct of zemindars.*—The agrarian disputes on the Patsunda and Khyra estates have not recurred during the past year. An attempt at coercion was indeed made by the landlords, but abandoned when the Sub-Divisional Officer of Jamui pointed out the hardship from which the ryots suffered in a year of comparative scarcity. In other portions of the district "there has," says the Collector, "been a marked tendency on the part of some landlords to raise their rents, and an endeavour to oust their ryots from their hereditary rights, and especially to get rid of the obnoxious occupancy right." In Bhagulpore several zemindars were forward in helping their ryots by remission of rent or by giving labour, but in Purneah and Maldah no zemindar distinguished himself throughout the year by any public spirit, except one gentleman, who subscribed towards the fund in support of a local agricultural exhibition.

24. *Conduct of Officers.*—Among Covenanted Officers, Mr. Oldham is specially praised by the Commissioner, and Baboos Wooma Churn Bose, Sarada Prosad Chatterjee, and Gossain Dass Dutt among the Deputy Collectors. Mr. Barlow's remarks under this head will be considered in the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Government of Bengal.

LIBERALITY OF CERTAIN GENTLEMEN IN RELIEVING THE DISTRESS CAUSED BY THE LATE FIRES IN THE CITY OF MOORSHEDABAD.

No. 1990J, dated Calcutta, the 28th July 1884.
From—F. B. Peacock, Esq., Secretary to the Government of Bengal,
To—The Commissioner of the Presidency Division.

I am directed to acknowledge the receipt of your memorandum No. 87JG, dated the 11th instant, and its enclosures, and in reply to request that you will be good enough to convey to the gentlemen named the thanks of Government for their liberality in relieving the distress caused by the late fires in the City of Moorshedabad.

To Mr. Beames, the Sub-Divisional Officer of Lalbagh, the acknowledgments of Government are due for the energy he displayed in affording aid to the sufferers.

2. I am to add that this correspondence will be published in the *Calcutta Gazette*.

No. 87JG, dated Calcutta, the 11th July 1884.
Memo by—The Officiating Commissioner of the Presidency Division.

Forwarded to the Secretary to the Government of Bengal in the Judicial Department for information.

The liberality displayed by the donors deserves, I think, the thanks of Government.

No. 1011, dated Berhampore, the 21st June 1884.
From—J. C. Veasey, Esq., Offg. Magistrate of Moorshedabad,
To—The Commissioner of the Presidency Division.

You are doubtless aware that in April last the City of Moorshedabad was the scene of a series of destructive fires, which resulted in the loss of at least three lives and of a large quantity of property. The Sub-Divisional Officer is of opinion that more than one-half, he says indeed three-fourths, of the city was burnt down, and he estimates the damage from the four principal fires, three of which occurred on the same day, at nearly three-quarters of a lakh.

2. To relieve the widespread distress thus caused, and to enable the poorer sufferers to find shelter before the rains, Mr. Beames, with his usual energy, set on foot a subscription by which he realized Rs. 10,920 contributed by 380 subscribers. Of this the Nawab Bahadur, who as a landlord was himself a considerable loser, gave Rs. 3,000; Raisunnissa Begum, the mother of the ex-Nawab Nazim, Rs. 1,000; Mahomdi Begum Rs. 1,500; and Maharani Sarnomoyee, M.C.I., of Cassimbazar Rs. 1,000. The money so raised was distributed by a Committee specially convened for the purpose and paid out by Mr. Beames in person, with the result that he is able to report that none but the more wealthy members of the community have suffered anything beyond temporary inconvenience.

3. I append a list of subscribers of Rs. 100 and upwards, and would ask you, if you think fit, to bring the matter to the notice of Government that the donors may receive some recognition of their liberality.

REPORT ON THE WORKING OF THE LICENSED WAREHOUSE AND FIRE-BRIGADE ACT IN THE TOWN OF CALCUTTA, DURING THE YEAR 1883-84.

THE following report is published for general information.

COLMAN MACAULAY,
Secy. to the Govt. of Bengal.

The 5th August 1884.

No. 15, dated Calcutta, the 30th June 1884.

From—H. L. HARRISON, Esq., C.S., Chairman of the Corporation,
To—The Secretary to the Government of Bengal.

I HAVE the honour to submit the following report under section 30 of Act IV (B.C) of 1883 of the jute screw and warehouses in the town of Calcutta for the year ended 31st March 1884.

2. At the close of last year there were 83 sanctioned warehouses on the register within the limits of the town. The jute godown in Hurro Chunder Mullick's Street, which was said in the last report to be under construction, was completed, and its license sanctioned at the Special General Meeting held on the 30th August 1883. Another new license for No. 43, Nimtollah Ghât Street, was also sanctioned at the Special Meeting held on the 22nd November 1883. These make up the total number of warehouses to be 85. Of these, nine were cancelled during the year—three for suspension of business and six for default of payment of license fees, thus reducing the number at the end of the year to 76, of which a complete list, arranged according to the Acts under which they were originally licensed, is appended to this report.

3 Seven applications were received during the year—four for licensing additional premises, two for licensing existing godowns for storage of jute, and one for permission to construct a jute warehouse. Three of the first and one of the second were rejected for want of sufficient cart space; the others have been sanctioned.

4. The license fees realized during the year under notice from these 76 warehouses amounted to Rs. 23,133-5-4, or Rs. 1,242 less than last year. This falling off may be ascribed to the dulness of the jute business, which led to the abandonment of their licenses by the owners of several godowns as mentioned above.

5. Only one prosecution against the owner of premises No. 82, Nimtollah Ghat Street, was instituted for allowing the same to be used for storage of jute without a license, which resulted in the owner being convicted and fined Rs 100.

6. It is, however, satisfactory to be able to note that during last year no fire broke out in any of the jute godowns in the town.

7. Under section 16 of Act IV (B.C.) of 1883, the Jute Warehouse Fund was closed, the Municipality being allowed to retain 20 per cent. only of the fees realized for payment of establishment, for the superintending of the warehouses and the licensing of them, the remaining 80 per cent. being made over to the Commissioner of Police for the maintenance of the Fire-brigade.

8. The subjoined statement will show the receipts and expenditure on this head during the year under review.

REPORT ON THE WORKING OF THE LICENSED WAREHOUSE AND FIRE-BRIGADE ACT IN THE SUBURBS OF CALCUTTA DURING THE YEAR 1883-84.

The following report is published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

The 5th August 1884.

No. 64M.M., dated Calcutta, the 25th July 1884.

From—A. SMITH, Esq., Officiating Commissioner of the Presidency Division,
To—The Secretary to the Government of Bengal, Municipal Department.

UNDER section 30 of Act IV (B.C.) of 1883 (the Licensed Warehouse and Fire-brigade Act) I have the honour to submit the annual report on the working of the Act during the year 1883-84 in the Suburbs of Calcutta, together with a statement shewing the jute warehouses in the Suburbs for which licenses were granted. A statement shewing in debtor and creditor form the income and expenditure, as called for by paragraph 4 of Government letter No. 723, dated the 20th August 1881, is also herewith submitted.

2. The number of warehouses licensed during the year was 102 against 98 in the previous year, shewing an increase of four warehouses. Of the 98 warehouses open at the close of 1882-83, six were closed and ten new warehouses were opened during the year under report. The amount of license-fee realized during the year was Rs. 16,793, including a sum of Rs. 2 levied under section 8 of the Act for a change in occupation of one of the warehouses, as against Rs. 16,220 in the year preceding, shewing an increase of Rs. 573. The changes of owners and licenses, and the fluctuations in the amount of license-fees, have been noted in the statement in the column of remarks; no separate explanations are therefore required under these headings.

3. Eighteen fires occurred in the Suburbs during the year under review. A tabular statement shewing the property destroyed by fire, and estimated value thereof, as furnished by the Deputy Commissioner of Police, is herewith submitted.

List of Jute and Cotton Warehouses licensed in the Suburbs of Calcutta during the year 1883-84.

Extract from the Register of fires and operations of the Calcutta Fire Brigade.

Date.	Locality of fire, with section letter.	Time of outbreak.	Time of alarm at fire station.	Time of arrival of brigade.	Particulars as to numbers and description of buildings or other property destroyed, with approximate value, and whether insured or not.	Cause of fire.	Remarks.
1883.							
5th April ...	E., Suburbs, Narcaldanga.	2 P.M.	2-30 P.M.	2-40 P.M.	Two thatched huts valued at Rs. 20. Not insured.	Sparks from chools ignited the mat wall.	All out at 3-30 P.M.
9th ,, ...	N., suburbs, Ekbalpore	2 ,,	2-5 ,,	2-25 ,,	About 150 thatched and tiled huts valued at Rs. 5,000.	A girl named Jussebun was cooking near the mat wall of the house, which caught fire, and owing to the high wind the fire spread rapidly. A small child was burnt to death before it could be rescued.	On receipt of notice of fire the brigade proceeded to Ekbalpore, and on arrival found a large native village on fire. The engine was placed alongside a tank surrounded by burning huts, and without delay water was thrown on the burning houses. After half an hour's work the fire was almost extinguished. The engine worked exceedingly well, reflecting great credit on constable Clare, who had her in thorough working order. The sergeants and constables of the fire brigade worked well.

Palmer's bridge telegraphed at 9 P.M.—"Fire at Dhapa." On asking for further information I found that Palmer's bridge had disconnected, and in communication with Superintendent Hill, Ekbalpore, proceeded to Dhappa with fire brigade, but could get no information of a fire. Returned to Palmer's bridge. Mr. avis informed Inspector Spaulding that the fire was at Dhappa, but from the direction he pointed out the fire appeared to be at Tangra. Proceeded to Tangra, found the tannery of Messrs. Fielman & Co. on fire. The steam engine "Ganges" was at once put to work throwing water into the burning building, and the fire was extinguished in about an hour. The hand engine No. 4 was at work at the fire an hour before the arrival of the fire brigade from Lall Bazar. All out at 11-30 P.M.

Vice-Chairman.

REPORT ON THE WORKING OF THE LICENSED WAREHOUSE AND FIRE-BRIGADE ACT IN THE HOWRAH MUNICIPALITY DURING THE YEAR 1883-84.

The following report is published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

Jute warehouses.

1. There were 23 jute warehouses licensed during the year for the storeage of jute cotton and other fibres.* This shows a decrease of nine from the preceding year which is owing to some petty cotton dealers and makers of jute-lashings having suspended their trades on account of high prices.

2. A classified list of the warehouses which were licensed during the year is given in appendix I.

3. There were no new warehouses established during the year.

4. The total receipts amounted to Rs. 5,312-5-9 as follows:—

	Rs.	A.	P.
License fees	5,250	0	0
Fines	55	0	0†
Proceeds from sale of old Fire-brigade harness ..	7	5	9
Total ..	5,312	5	9

5. The above figures show a falling off of Rs. 72-10-3, but practically there was an increase of income, the fees of two jute warehouses which were brought into use towards the close of the year having been paid in 1884-85.

6. The expenditure in the inspection of jute warehouses amounted to Rs. 602 as follows:—

	Rs.	A.	P.
Salary of Inspector	600	0	0
Contingencies	2	0	0
Total ..	602	0	0

7. There was only one prosecution for establishing a warehouse without a license; the particulars are given in appendix II.

Fire-brigade.

8. The Fire-brigade establishment remained the same as during the preceding year and was under the control of the local Police.

9. There were only 10 fires reported during the year entirely confined to thatched huts, and not productive of considerable damage. There were no fires among jute warehouses. A statement showing the particulars of the fires at which the Brigade attended is given in appendix III.

10. The following is an abstract of the expenditure in the Fire-brigade Department during the year:—

	Rs.	A.	P.
1 Superintendent	292	11	9
Personal allowance	420	0	0
2 Tindals at Rs. 9	216	0	0
2 Do. do. 8	192	0	0
18 Khalasees at Rs. 6	1,296	0	0
2 Sycos at Rs. 6	139	18	10
Feed and keep of horses	345	15	0
Rewards	0	0	0
Repairs to engines	35	12	0
Contingencies	42	3	0
Total ..	2,980	7	7

11. The new Act IV of 1883 came into force on the 30th of May in that year, and in accordance with the provisions of section 19 negotiations were opened in July for placing the Fire-brigade under the control of the Commissioner of Police for the Town of Calcutta. The arrangements had, however, not been concluded at the close of the year under report, pending a reply to a reference made to Government as to whether the Commissioners should receive compensation for plant which had been purchased from their general funds.

F. H. SKRINE,
Chairman.

The 20th June 1884.

* Hemp and flax.

† Rs. 5 appertain to fines of the preceding year.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 2nd August 1884.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
	BENGAL.		
	Western Districts.		
	Burdwan Divn.		
1	Burdwan, Aug. 2 '84	2·59	Weather—oppressively hot and cloudy, with drizzling rain in the early part of the week. Transplanting of paddy has been carried on in the Sudder subdivision, by means of irrigation: elsewhere it is going on on a small scale, but on the whole prospects of *amun* gloomy. *Aus* and jute good in the Culna subdivision. Sugarcane good everywhere. Price of common rice from 13 to 15 seers per rupee. Cholera in the Selimabad thana. Public health generally good.
	Culna ...	2·69	
	Cutwa ...	1·91	
	Raneegunge ...	2·77	
2	Bankoora, „ 2 „	1·78	Weather—hot and cloudy, with occasional rain, which was general, but insufficient. Price of rice continues rising slightly, in consequence. Public health good.
	Bishenpore ...	1·26	
	Mallara ...	2·82	
	Khattra ...	1·19	
3	Beerbhoom, „ 2 „	1·54	Weather—cloudy, with occasional light showers. The insufficient rain has retarded the transplanting of paddy seedlings. In Ramporehaut, prospects of crop reported to be bad. Price of rice somewhat higher and supplies less abundant. Some cases of cholera reported, otherwise general health good.
	Rampore Haut ...	3·02	
4	Midnapore, „ 2 „	6·04	Weather—cloudy and sultry. Transplanting of paddy going on everywhere. More rain wanted at Ghatal. Public health good, except at Ghatal, where fever is breaking out.
5	Hooghly, „ 2 „	5·34	Weather—showery. Transplanting of *amun* going on during the week, but much more rain needed for high lands. Public health good for the time of the year, but fever is beginning to show itself. Prices still steady.
	Jehanabad ...	·63	
	Serampore ...	5·58	
	Howrah, „ 4 „	2·54	Weather—fine and clear with occasional showers of rain. More rain urgently needed for late paddy crop in south of the district. Other crops doing well. Small-pox has made its appearance in the Bagnan thana. Prices rising slightly.
	Oolooberiah ...	1·76	
	Central Districts.		
	Presidency Divn.		
6	24-Pergunnahs Aug. 4 '84	3·67	Weather—seasonable. Prospects of *aus* paddy, jute, and sugarcane good. Transplanting of *amun* paddy going on everywhere. Public health generally good; stray cases of fever and cattle-disease reported.
7	Nuddea, „ 2 „	1·42	Weather—close, and cloudy with slight showers of rain. Rain greatly needed for both *aus* and *amun* in the sub-divisions north of the Sudder station. The rainfall at Meherpur has done some good. Rain wanted in some parts of Ranaghat for transplanting of *amun*. Fever continues.
	Kooshtea ..	·99	
	Chooadanga ...	1·01	
	Meherpore ...	2·04	
	Ranaghat ..	·40	
8	Khoolna, „ 2 „	3·17	Weather—changeable, with a fair amount of rain. Prospects of crops good. Public health fair.
9	Jessore, „ 2 „	0·39	Weather—hot, with slight occasional rain. Harvesting of *aus* crop has commenced. Prospects of crops fair. Want of rain has retarded the progress of transplanting of *amun* paddy. General health good.
	Jhenida ...	2·79	
	Magoorah ..	1·04	
	Narail ...	·98	
	Bongong ...	1·58	
10	Moorshedabad, „ 2 „	2·71	Weather—hot and sultry. The recent rain has saved seedlings for the present, and has allowed transplanting to be proceeded with, but more rain wanted. A good deal of *aus* has been cut, and the ear rubs out better than was expected. Public health good.
	Jungipore ...	3·21	
	Kandi ..	3·91	
	Rajshahye Divn.		
11	Dinagepore, Aug. 1 '84	71	Weather—fine with little rain. Rain still much wanted for transplanted paddy; other crops doing well.
12	Rajshahye, „ 2 „	1·53	Weather—cloudy and hot. Prospects of *aus* and *amun* generally good. More rain wanted for *amun*. *Aus* on high lands in some parts reported to have suffered to some extent for want of sufficient rain. Public health fair.
	Nattore ...	3·14	
	Nowgong ...	1·57	
13	Rungpore „ 2 „	3·57	Weather—very hot. Rain much wanted to facilitate tran-planting of *amun* paddy in some parts. *Aus* and jute are being harvested. Malarious fever prevailing at the head-quarters. Public health otherwise fair.
	Nilphamari .	1·62	
	Gaibanda ...	6·20	
	Kurigram ...	·63	
14	Bogra, „ 2 „	1·90	Weather—very sultry with a little rain. More rain is wanted for transplanting paddy seedlings. Public health fair.
15	Pubna, „ 2 „	0·68	Weather—slight showers during the week. State of standing crops good. Harvesting of *aus* going on; jute is coming into the market. Rivers commenced to rise again rapidly.
16	Darjeeling, „ 2 „	7·74	Weather—unusually warm and fine. Prospects of crops good, except for some complaints of blight on tea in the southern hills.
17	Julpigoree, „ 2 „	2·82	Weather—unusually hot. More rain urgently needed. Harvesting of *bhadoi* crops has commenced. Prices continue stationary. Cholera reported from Mynagoree: it has abated in Kyrantee. Public health good in other parts of the district.

	Attia ...	·46	
	Netrokona ...	2·90	
Chittagong Divn. 22	Chittagong, Aug. 3 '84	5·8	Weather—warm with occasional showers of rain. Prospects of crops fair. Harvesting of *aus* nearly completed with 12 annas outturn. Prices stationary. Cholera and cattle-disease continue
23	Noakholly, „ 1 „	6·56	Weather—generally close and sultry, with light showers at intervals *Aus* crop being reaped. Outturn expected to be 12 annas. Transplanting of *amun* continues. Prospects of crops good.
24	Tipperah, „ 1 „	3·10	Weather—showery, rainfall unusually scanty. In the Sudder sub-division, standing crops doing well, except in thanas Muradnagar and Laksham, where rain is much wanted. Want of rain is also felt in other sub-divisions.
	Brahmunberiah ...	1·36	
	Chandpore ...	·85	
25	Chittagong Hill Tracts. July 29 „	1 21	Weather—cloudy and hot. Cotton crop very good. More rain wanted for paddy Scarcity of food reported from the Government khas mehal.
	Hill Tipperah „ 30 „	1·66	Weather—seasonably rainy. *Aus* paddy commenced to be reaped. Fair outturn expected. *Joom* crops doing well. Public health good.
BEHAR.			
Patna Divn. 26	Patna, Aug. 2 '84	0·08	Weather—occasionally cloudy, with little or no rain. *Bhadoi* crop and paddy seedlings are suffering from want of rain. Cholera still reported.
	Behar ...	·48	
	Dinapore ...	·78	
27	Gya, „ 2 „	1·12	Owing to want of rain prospects of crops very bad. Unless there be a good fall, of rain within the next week, there will be cause to fear scarcity. Rain urgently needed. If it comes within the next week in sufficient quantity prospects will be moderately favourable. Cholera reported from several stations
28	Shahabad, „ 2 „	1·4	Weather—very hot and occasionally cloudy. The recent rain has, to a slight extent, accelerated transplanting of paddy seedlings and benefitted *bhadoi*, but more is urgently wanted to push on agricultural operations successfully. Seedlings already showing signs of injury for want of sufficient rain; heat intense.
	Buxar ...	1·55	
	Bhabua ...	·36	
	Sasseram ..	1·55	
29	Durbhunga, „ 2 „	1·04	Weather—hot and oppressive, sometimes cloudy. Owing to scanty rainfall, prospects of *bhadoi* crops becoming uncertain. Transplanting of paddy also at a standstill in many places. Prices stationary. Public health good.
	Madhubani ...	·79	
	Tajpur	1·71	
30	Mozufferpore, „ 2 '84	3·66	Weather—hot and cloudy, with signs of rain. Prospects of crops promising Transplanting of paddy in progress. More rain wanted everywhere. Price stationary. Public health generally good.
	Sitamarhi ...	1 49	
	Hajipore ..	0 64	
31	Sarun, „ 2 „	2·01	Weather—bright and sultry, occasionally cloudy. Very little rain fell during the week. *Makai* and other *bhadoi* crops doing well but transplanting of paddy has been retarded for want of rain. Manufacture of indigo in progress. Prices steady. Public health good.
	Sewan ..	·88	
	Gopalgunge ...	3·15	
32	Chumparun, „ 2 „	0 34	Weather—very hot. *Bhadoi* crops doing well, but rain badly wanted for paddy, which is being transplanted everywhere. Prices stationary. Public health fair. A few cases of fever reported from interior.
Bhagulpore Divn. 33	Monghyr, Aug. 2 '84	82	Weather—hot and generally cloudy. Prospects continue good, but want of rain beginning to be serious for *aghani* crops, transplanting of which is being retarded
	Begusarai ...	2·09	
	Jamui ..	·77	
34	Bhagulpore, „ 2 „	4·74	Recent heavy rain improved prospects of crops, but the fall was not general. Transplanting of paddy stopped for want of rain in the greater part of the district. Prospects generally not so good as they were three or four weeks ago.
	Banka ...	1 47	
	Soopole ...	·68	
	Modhubani ...	·57	
35	Purneah, „ 2 „	3·09	Weather—hot and sultry. Standing crops suffering from want of rain. Health fair.
36	Maldah, „ 2 „	0·81	Weather—hot, cloudy, and clear alternately. Prospects of *haimanti* paddy not favourable. More rain much wanted for its growth and for transplanting. *Bhadoi* paddy being reaped Prices of food-grains stationary. Public health generally good. Rivers have again risen, but are not yet so high as to inundate lands required for late paddy.
37	Sonthal Perghs. „ 2 „	1 61	Weather—clouds and sunshine alternately, but very scanty rain fell everywhere, except in Jamtara, where it is said to be sufficient. All *bhadoi* crops, except paddy, are everywhere as good as could be wished for, weather being most favourable for them; the outturn promises to be a full one. For *bhadoi* paddy and for *aghani* crop, the rainfall is generally insufficient. A great deal remains to be planted out, and the season for transplanting is fast passing away.

CALCUTTA,
The 4th August 1884.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE WEEK ENDING THE 1st AUGUST 1884.

It was stated in last week's report that a depression and cyclonic disturbance had ormed near the head of the Bay, and passed across the Balasore coast on the morning of the 25th of July It advanced across the North Orissa hills into the Central Provinces. It brought up moderately large supplies of aqueous vapour. On the 27th a slight land-formed depression began to be generated in East Bengal. It gave rise to a feeble but distinctly marked cyclonic circulation of the air in South Bengal. The centre was near Jessore on the 28th, and marched slowly westwards past Calcutta on the 29th. It continued to advance in the same general direction on the 30th across Chutia Nagpur, and apparently filled up during the day. This was due to the fact that another advance of south-westerly monsoon winds was in progress up the Bay. They gave rise to the usual eddying action and slight disturbance in front. The observations at Akyab indicated its advance to the latitude of that station on the 31st, and those at Chittagong on the 1st. The cyclonic disturbance produced by this burst of monsoon winds crossed the Balasore coast on the morning of the 3rd and advanced north-westwards across Chutia Nagpur into the North-West Provinces. The weather, it will thus be seen, has been of the same character as for some weeks. The characteristic feature of the present rains in Bengal is the large number of feeble rushes up the Bay into Bengal of south-west monsoon winds, each giving two or three days moderate rain followed by two or three days of warm sultry weather. The first four or five days of the past week were days of light to moderate rain over nearly the whole province, whilst the last two or three days formed an almost complete break in the rains.

Pressure—Increased on the 26th, more especially in Orissa and South-West Bengal. Pressure was at this date considerably above the normal in East Bengal. It began to give way on the 27th, the fall being most marked in East Bengal. The fall of the barometer continued on the 28th, and was again largest in East Bengal and the central districts of South-West Bengal, so that an area of deficient pressure covered the greater part of these districts. The changes of pressure during the 29th and 30th were mainly due to the westward motion of the area of deficient pressure across the central districts of South-West Bengal into Chutia Nagpur, where it filled up on the 30th. Pressure again commenced to decrease generally over the province on the 31st. The fall was greatest in East Bengal, and continued during the next 24 hours, when the various observations indicate the existence of a small depression near the head of the Bay which was passing westwards to the Balasore coast.

Winds.—The strength and direction of the winds have been directly related to the small disturbances of the week. Moderately strong monsoon winds set in on the 25th, when the sixth whirl of the present season crossed the coast. Winds were very abnormal during the existence of the land-formed depression from the 27th to the 30th. They were very light during the break in the rains on the 31st and 1st.

Temperature—Was generally slightly below the average during the first four days of the week, but increased rapidly during the last two days. Hence over a large part of the province including South-West Bengal, East Bengal, Chutia Nagpur and the eastern districts of North Behar, the mean temperature of the week was very approximately normal. It was above it over the greater part of Behar by amounts ranging between 1° and 1½°. It was 1½° in defect in Orissa. Moderately high maximum temperatures were registered in Behar. The highest was 98·7° at Motihari.

Rainfall.—Has been fairly general over the province, and occurred at frequent intervals during the first five days of the week. The showers however were seldom heavy, and hence the total rainfall of the week is below the average in nearly all districts.

Rain fell in Bengal on the 26th, a few local showers occurred in Behar. Rain in moderate amounts was received on the 27th in all divisions except South-West Bengal. Bhawanigunj in the Rungpore district obtained 5·17 inches on this day. Moderate to heavy rain occurred over the whole of South-West Bengal, North-Bengal, and over a large part of Behar on the 28th. The heaviest rainfalls were—

Siliguri	...	...	...	...	7·65 inches.
Darjeeling	...	...	...	...	4·26 „
Hooghly	...	...	...	...	3·91 „
Azimgunj	...	...	...	...	3·64 „
Bhagulpore	...	...	...	...	3·47 „

Rain was again received, in diminished quantities, on the 29th in South-West Bengal and North Bengal. Moderately heavy rain occurred in Orissa and Chutia Nagpur, and local showers in the remaining divisions. The heaviest falls were—

Chandbali	...	...	...	...	3·67 inches.
Balasore	...		...	...	3·12 „

The 30th was a day of light to moderate general rain in South-West Bengal, East Bengal, the southern districts of North Bengal, South Behar and Chutia Nagpur. The only large amount reported was 4·8 inches at Midnapore. Light and more or less local showers occurred on the 31st and 1st in Orissa, South-West Bengal, the Sonthal Pergunnahs, and Chutia Nagpur. These two days were practically rainless in the remaining districts of the province.

The rainfall of the week has been in defect in every district except Balasore. The variation from the normal was less than ten per cent. in the case of the Balasore, Cuttack, Murshedabad, and Rungpore districts, which may hence be considered as having received normal rainfall during the week. The Midnapore district received 86 per cent. of the average; Pooree, the 24-Pergunnahs, Howrah, and Hooghly between 70 and 80 per cent.; Manbhoom, Jessore, Noakholly, Chumparun, and Julpigoree between 60 and 70 per cent.; Furreedpore, Bogra, Pubna, Rajshahye, Purneah, Durbhunga, Mozufferpore, Hazaribagh, and Bhagulpore between 50 and 60 per cent.; Burdwan, Bankura, Beerbhoom, Sarun, and the Southal Pergunnahs between 40 and 50 per cent., Singhbhoom, Commillah, Nuddea, Patna and Shahabad between 30 and 40 per cent.; Chittagong 28 per cent.; Burisal 22 per cent.; Mymensingh 21 per cent.; and Gya only 15 per cent. of the normal rainfall of the period.

The preceding statement shows that the rainfall of the past week has been very irregularly distributed. The deficiency has on the whole been most marked in East Bengal and South Behar, which have received only thirty per cent. of the average rainfall of the week. The deficiency was less marked in North Bengal, South-West Bengal, North Behar, and Chutia Nagpur, where from 50 to 60 per cent. of the normal rain of the week fell. Orissa was the only division in which the deficiency was small and unimportant.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 1st August 1884:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·6° greater; and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

MEMORANDA.

The following summary is deduced from the annexed table exhibiting the vital statistics of the first class Municipalities in Bengal for the week ending 19th July 1884:—

(1) That the birth-rate in these Municipalities stood at 18·2 per 1,000 of population, against the same rate in the preceding week ending 12th July, and the death-rate at 28 3 per 1,000, as opposed to 26 6 per 1,000.

(2) That the following towns furnished the highest proportions of deaths:—

Deaths.

	Ratio per mille.		Ratio per mille.
Burdwan	39 7	Purneah	31 1
Patna	39·0	Chittagong	30 5
Gya	38 9	Monghyr	28 9
Ranaghat	36 0	Kishnaghur	28 4
Suburbs of Calcutta	35·8	Bhagulpore	28·1

(3) That the mortality from the several death-causes exhibited in the table above referred to was as follows, in comparison with that in the preceding week:—

	Ratio per mille during weeks ending—	
	19th July 1884.	12th July 1884.
Cholera	2 5	1 8
Small-pox	·7	·9
Fever	12 0	12·0
Bowel-complaints	4 1	4·2
Injury	1 1	·9
Other causes	7·9	6 8

The noticeable points disclosed by the above figures are that, while the mortality from fever indicates no variation, the death-rates from cholera and the diseases returned under the head of "other causes" were sensibly higher.

(4) That of the death-causes above indicated, cholera, fever, injury, and "other causes" proved conspicuously fatal in the undermentioned Municipalities:—

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community taken in February 1881 was not reliable, owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

GENERAL REMARKS AND EXPLANATIONS.

An examination of the above abstract will show that there has been no falling off in the traffic for June, as compared with the same period last year, though the increase which has taken place is insignificant. The total quantity of traffic lifted during these two months was respectively 14,390·69 tons, as against 14,339·01 tons, giving only a difference of 51·68 tons in favour of the month under review.

As regards jute and gunny there has been no change in the Calcutta market. It continues depressed. In addition there has been a falling off in the salt and tobacco traffic. The decrease in the former is only a trade fluctuation, as up to the end of June 1884 we carried 1,906·57 tons, more than during the same period last year. The falling off in the latter is due to a weak market and no demand.

An increase in Ginger, Seeds, and Tea has partially made up for the falling off under other staples.

Increases.

Ginger ... ... Tons 188·24

A demand still exists for this article, and fair prices are being offered. Up to five months ending May the exports have been 19,533 maunds as against 8,964 maunds for the same time last year.

Piece-goods ... ... Tons 83·36

The opening of the Dinagepore section has made so many more mofussil markets accessible by railway. Stocks are being replenished for the Poojas.

Railway material ... ... Tons 1,878·82

Locomotive coal principally contributes to this increase.

Sugar ... ... Tons 38·69

This is the first increase recorded since February, and it is apparently due to a decline in prices in the Calcutta market.

Seeds ... ... Tons 137·69

This is a new head. In previous reports this staple was included under food-grain. A good demand with fair prices existed during the month.

Tea ... ... Tons 77·00

The Calcutta market is favourable for good lots, and fair prices are being obtained by sellers.

Decreases.

Ale ... ... Tons 11·76

This is a small decrease and will be made up later on.

Food-grain ... ... Tons 54·51

This decrease is really due to Seeds, which used to be included in this traffic, being now shown under a separate head. The market has declined for rice, though there is a fair local demand for paddy.

Gunny-bags ... ... Tons 301·55

There are no stocks to speak of in Calcutta, and hand-made bags are not being manufactured. Quotations are nominal.

Jute ... ... Tons 1,018·10

The market continues very dull.

Miscellaneous ... ... Tons 368·96

This decrease is due to fluctuations of traffic.

Salt ... ... Tons 328·32

This is only a decrease as compared with the same month last year. Up to the end of June 1884 we carried 13,455·87 tons of salt as against 11,543·80 tons for the same period in 1883.

Tobacco ... ... Tons 268·92

The market has entirely declined for this staple.

The 2nd August 1884.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of Act III (B.C.) of 1884, and on the recommendation of the Commissioners of the Baidyabatty Municipality, made at a meeting, to extend the provisions of Part X of the said Act to that municipality, unless good reasons be shown to the contrary within one month from the date of the publication of this notification.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 2nd August 1884.—Whereas a notification dated the 15th May 1884, declaring the intention of the Lieutenant-Governor to confirm the additional bye-laws reproduced below, which have been framed by the Commissioners of the Nasirabad Municipality, was published at pages 618-19, Part I of the *Calcutta Gazette* of 21st May 1884, and whereas no objection has been raised to the proposal, it is hereby notified that, in the exercise of the power conferred on him by section 351 of Act III (B.C.) of 1884, and on the recommendation of the Commissioners of the Nasirabad Municipality, made at a meeting, the Lieutenant-Governor confirms the said bye-laws.

Additional bye-laws for the Nasirabad Municipality.

I. No person shall perform any office of nature in any place outside private premises other than such as may have been appointed by the Commissioners, provided that such places have been set apart by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

II. No person shall build, or cause to be built, any latrine or urinal, or shall deposit, or cause to be deposited, filth, dirt or dung, within ten feet of any public road, or public drain, or private drain leading to a public one.

The penalty for infringement shall be a fine not exceeding Rs. 10.

III. Any one tethering cattle or driving bullock carts on the "course" shall be liable to a fine not exceeding Rs. 5.

IV. No person shall let loose, or cause or allow to be let loose, any horse, pony, cattle, pig, goat, sheep or donkey on the public roads, lanes or pathways within municipal limits, and no person shall tether or graze cattle, horse, pony, pig, goat, sheep or donkey or other animals, or cause them to be tethered, or cause or allow them to stray on any public highway.

The penalty for infringement shall be a fine not exceeding Rs. 5.

V. Every driver of a carriage, cart or vehicle must keep to his left while passing another carriage, cart or vehicle moving in the opposite direction along any public road.

The penalty for infringement shall be a fine not exceeding Rs. 2.

COLMAN MACAULAY,
Secretary to the Government of Bengal.

NOTIFICATION.

The 3rd August 1884.—Whereas a notification declaring the intention of the Lieutenant-Governor to extend the provisions of Act IV (B.C.) of 1873, so far as they relate to the registration of births, to the municipality of Bansberia, in the district of Hooghly, was published at page 612, Part I of the *Calcutta Gazette* of the 21st May last, and whereas no objection has been raised to the proposed measure, it is hereby notified for general information that, in the exercise of the powers conferred upon him by section 1 of the said Act, the Lieutenant-Governor is pleased to direct that all births occurring in the said municipality shall be registered under the said Act, with effect from the 1st September next.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 6th August 1884.—Whereas a notification, dated the 13th May 1884, declaring the intention of the Lieutenant-Governor to confirm the bye-laws reproduced below, which have been framed by the Commissioners of the Sitamarhee Municipality, was published at page 615, Part I of the *Calcutta Gazette* of the 21st idem, and whereas no objection has been raised to them, it is hereby notified that, in the exercise of the powers conferred upon him by section 351 of Act III (B.C.) of 1884, and on the recommendation of the Commissioners of the Sitamarhee Municipality, made at a meeting, the Lieutenant-Governor confirms the said bye-laws and sanctions the penalties which have been provided by the Commissioners for their infringement.

BYE-LAWS.

1. An ordinary general meeting of the Commissioners shall be held on the 1st Saturday in every month.

2. The collecting officer, taking the money in payment of any demand, shall give a receipt for it.

3. The Commissioners shall have power to inflict, for neglect of duty, a fine not exceeding one month's pay upon any person employed by them.

4. No owner or occupier of any house, land, or premises, in or on which any privy may be situated, shall allow night-soil, urine, filth, of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow or excavation (or any place containing waste and stagnant water).

Penalty for infringement shall be a fine not exceeding Rs. 20.

5. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matters in any other way than as the Commissioners may from time to time direct.

Penalty for infringement shall be a fine not exceeding Rs. 20.

6. No person shall burn, or cause to be burnt, any corpse on any ground which is not especially provided and defined for the purpose, and no person shall bury a corpse in a grave less than 4½ feet deep, so that there may be 3½ feet of earth over the corpse.

Penalty for infringement shall be a fine not exceeding Rs. 20.

7. Every person who shall bring or convey, or cause to be brought or conveyed, any corpse or part thereof to any burning ground shall burn, or cause the same to be burnt, within three hours after its arrival at the said burning ground.

Penalty for infringement shall be a fine not exceeding Rs. 20.

8. The persons who bring a corpse to be burnt shall cause the same, together with all clothes and other coverings of the corpse, to be completely reduced to ashes. Provided that where such persons through poverty are unable to provide means for completely reducing such corpse and coverings to ashes, they shall permit (or shall cause, if the Commissioners do not undertake this duty) such corpse and coverings to be forthwith buried within ground specially provided (by the Municipal Commissioners) for the purpose.

Penalty for infringement shall be a fine not exceeding Rs. 20.

9. No person shall remove from any burial ground or (except for the purpose of burial as aforesaid) from any burning ground any clothes or coverings brought to such burial or burning ground with a corpse.

Penalty for infringement shall be a fine not exceeding Rs. 50.

10. No one shall carry a corpse, or part of a corpse, through any highway unless it be decently covered and totally concealed from view.

Penalty for infringement shall be a fine not exceeding Rs. 10.

11. No persons while carrying any corpse, or a part of a corpse, shall, except for the purpose of temporarily resting themselves, deposit it on or near any public highway.

Penalty for infringement shall be a fine not exceeding Rs. 10.

12. No person shall put, or cause to be put, on any house or other building any spout or other thing intended for the conveyance or discharge of water, which shall be so placed that the water discharged therefrom injuriously affects, or tends to injuriously affect, any public road or drain.

Penalty for infringement shall be a fine not exceeding Rs. 5; penalty for continued infringement after notice, Re. 1 daily.

13. The Commissioners may give notice, in writing, to the owner of any building to which any spout or spouts may now be attached, from which water is discharged to the injury of any road or drain, to remove or alter the same within seven days in such a manner as they shall direct, and any person who shall fail to comply with such notice shall be liable to a fine not exceeding Rs. 10, and to a daily fine of Re. 1 until such requisition be complied with.

14. No persons shall allow any pigs to be at large in any public place, except when they are being removed from one place to another.

Penalty for infringement shall be a fine not exceeding Rs. 20.

15. No person shall enlarge or deepen any existing tank, drain, channel or other excavation without the permission of the Commissioners.

Penalty for infringement shall be a fine not exceeding Rs. 50.

16. No person shall cut sods or grass, or remove earth or grass, from the margin of any public road or from any public drain.

Penalty for infringement shall be a fine not exceeding Rs. 20.

17. No person shall let off any fire-balloons, fire-works, or fire-arms in or near any public road without the permission of the Commissioners, nor otherwise than as the Commissioners shall direct.

Penalty for infringement shall be a fine not exceeding Rs. 20.

18. No cart laden with bamboos shall use the public road within the limits of the municipality, unless it is attended by another man besides the driver.

Penalty for infringement shall be a fine not exceeding Rs. 20.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 6th August 1884.—Whereas a notification, dated the 30th March 1884, declaring the intention of the Lieutenant-Governor to confirm the bye-laws set forth below, which have been framed by the Commissioners of the Naraingunge Municipality under section 313, Act V (B.C.) of 1876, was published at pages 507-513, Part I of the *Calcutta Gazette* of the 9th April last, and whereas no valid objection has been raised to them, it is hereby notified that, in the exercise of the powers conferred upon him by section 351 of Act III (B.C.) of 1884, and on the recommendation of the Commissioners of the Naraingunge Municipality made at a meeting, the Lieutenant-Governor confirms the said bye-laws and sanctions the penalties which have been provided by the Commissioners for their infringement.

BYE-LAWS OF THE NARAINGUNGE MUNICIPALITY.

For regulating the conduct of business at Meetings of the Commissioners.

1. An Ordinary General Meeting of the Commissioners shall be held fortnightly.

2. All such meetings shall be convened by the Chairman or Vice-Chairman by notice to be served on each Commissioner, not later than three days preceding the day of the meeting.

3. In the event of the Chairman or Vice-Chairman determining to call an Extraordinary General Meeting, not less than two clear days' notice shall be given to the Commissioners of the day fixed for such Extraordinary General Meeting.

4. The Chairman, or in his absence the Vice-Chairman, shall call a special meeting on a requisition signed by not less than three of the Commissioners.

5. Every notice convening a meeting shall be accompanied by a list of the business signed by the Chairman or Vice-Chairman to be brought forward at such meeting.

6. Any Commissioner wishing to bring forward any business shall give notice of such intention in writing to the Chairman a week before the meeting, when the Chairman or Vice-Chairman shall include such business in the list of the business to be laid before such meeting.

7. No business shall be considered or proposition received at any meeting, if it does not appear in the list of business, till after the business list is concluded.

8. At all Ordinary General Meetings the proceedings shall be commenced by the Secretary reading the minutes of the last Ordinary or Extraordinary General Meeting, with a view to ascertain if the resolutions passed at such meeting have been faithfully and accurately recorded in the words used by the mover of such resolution; or, if amendments thereto shall have been passed, in the words used by the mover of such duly passed amendments.

9. In the event of any Commissioner being of opinion that any such resolution has not been accurately recorded, it shall be competent to such Commissioner to state his opinion to that effect, and thereupon the Chairman shall decide whether or no such resolution has been accurately recorded by reference to the original draft of such resolution written and signed by the mover; and if he finds the Minute to be inaccurate, he shall then and there make the necessary correction in the Minute Book, provided that no discussion as to the propriety or otherwise of such resolution shall be allowed.

10. The order in which the several subjects shall be discussed at a meeting shall be determined by the order in which they are mentioned in the Chairman's list.

11. On the Commissioners proceeding to the consideration of any subject, the Secretary shall first read to the Commissioners the letters and papers connected with such subject, and thereupon any Commissioner may make a proposition regarding such subject, and address the meeting prior to the question being put to the vote by the President: provided that such Commissioner shall confine his remarks to the subject under consideration.

12. Every proposition made shall be written out by the proposer, and signed by him.

13. Every proposition shall be seconded by one Commissioner, who shall also sign or initial the draft proposition written by the proposer.

14. The Commissioner who first addresses the meeting shall be entitled to be heard first, and should more than one Commissioner address the meeting, the right of precedence shall be determined by the President.

15. Any Commissioner shall be at liberty to call the attention of the President to a point of order, even when a Commissioner is addressing the meeting.

16. Any Commissioner may propose an amendment to a proposition, to the effect that certain words in the proposition originally made be omitted therefrom, that certain words be substituted, or that certain words be added thereto: provided that such amendment be proposed when the subject is being discussed and the original proposition is still before the meeting.

17. On the discussion being concluded, in the event of several amendments having been proposed, the President shall put the last amendment to the vote first; if negatived, he shall put the second amendment, and then the first, and if all the amendments are lost, the original proposition shall be put to the vote.

18. No Commissioner shall be allowed to vote by proxy when he is unable to attend a meeting, or under any circumstances.

19. On a proposition being made and seconded, the President shall put the same to the vote.

20. Votes shall be taken by show of hands.

21. All votes shall be put by the President, first in the affirmative and then in the negative form.

22. Any Commissioner may decline to vote on any subject without assigning his reason for abstaining from voting.

23. Any Commissioner may, with the President's permission, make a proposition that a subject under consideration be postponed, or that the consideration of it be adjourned, either to a fixed date or *sine die*.

24. It shall be competent to any Commissioner to move a resolution to the effect that the subject under consideration be referred to a committee: provided that such Commissioner shall also at the same time propose the names of the members of such committee.

25. It shall be competent to the members of any such committee appointed to vote at any general meeting on the subject reported on by such committee.

26. Should any Commissioner object to any part of a report submitted by such committee, such Commissioner shall be competent to make a proposition that the report be adopted, except with regard to the particular part objected to by him, or that such report be again referred to the committee; or that the report be entirely set aside.

27. A subject once finally disposed of by a resolution duly passed at a meeting shall not be re-opened at any subsequent meeting, unless at least three-fourths of the Commissioners present at a meeting, of which due notice has been given, consent that such subject shall be re-opened and re-considered, provided that resolutions adjourning the consideration of a subject may be re-considered at any meeting after the usual notice.

28. The minutes of the proceedings of all meetings shall show the names of the President and of all members attending, the words of every proposition and every amendment; and in cases where votes are taken, the number of votes, *pro* and *con*.

For regulating the mode of collecting taxes.

29. Every collecting officer shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the municipality and the signature of the Chairman or Vice-Chairman. Every collecting officer at the time of demanding payment shall be bound to show this certificate, if required.

30. The collecting officer taking the money in payment of any demand shall give the receipt for it.

For regulating the conduct of persons employed by the Commissioners.

31. All persons employed by the Commissioners, whose services may no longer be required, shall be liable to discharge after receipt of previous notice, or pay in advance for the period of one month, and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

32. All persons now holding, or who may hereafter be appointed to any office under the Commissioners, shall, when required to do so, furnish good security to such amount as the Commissioners may from time to time fix, and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

33. The Commissioners shall have power to inflict, for neglect of duty, a fine not exceeding one month's pay upon any person employed by them.

For the regulation and management of privies.

34. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the municipality to such parts of his house, land, or premises where night-soil or filth is kept for the removal of such night-soil or filth within such hours as may have been fixed on by the Municipal Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

35. Every person shall construct his privy above ground, and shall provide his privy or premises with a suitable moveable receptacle of metal or earthenware.

The penalty for infringement shall be a fine not exceeding Rs. 20.

36. No owner or occupier of any house, land, or premises, in or on which any privy may be situated, shall allow night-soil, urine, or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow or excavation (or any place containing waste and stagnant water).

The penalty for infringement shall be a fine not exceeding Rs. 20.

37. No person shall throw, deposit, or discharge any night-soil, sewage, or the content of any drain privy, or cesspool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

The penalty for infringement shall be a fine not exceeding Rs. 20.

38. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners at meeting may from time to time direct.

PUBLIC WORKS DEPARTMENT—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 297.

Dated the 9th August 1884.

THE following annual accounts and abstracts of the reports of the Road Cess Comittees of the districts of 24-Pergunnahs, Nuddea, Jessore, Khulna, and Moorshedabad, for the cess year 1882-83, together with the remarks thereon of the Commissioner of the Presidency Division, are published for general information.

G. F. E. S. NEILL, *Major*, M.S.C.,

Under-Secretary to the Govt. of Bengal, P. W. D.

Extract from a Report by the Chairman of the District Road Cess Committee, 24-Pergunnahs, of the Committee's operations for the cess year 1882-83.

THE people of the district seem now reconciled to the cess, and to understand the purpose for which it is imposed. They are careful to see that roads are kept in order, and never omit to bring to notice any case in which a road has fallen into disrepair.

During the year two special meetings and three ordinary meetings were held by the Sudder or District Road Committee, at all of which there was a quorum.

There are six Branch Committees in the district, viz. one at each of the sub-divisional stations of Diamond Harbour, Baraset, Busseerhat, Barrackpore, Dum-Dum, and one at Barripore, which until lately were the head-quarters of a sub-division. The officer in charge of each of the five sub-divisions is Chairman of the Branch Committee at his head-quarters, and a native gentleman who takes much interest in public matters has been appointed Chairman of the Barripore Committee. It is reported that the members of these Branch Committees took an interest in the work entrusted to them. The number of meetings held at the several sub-divisions varied from three to seven except at Dum-Dum, where one meeting only was held during the year.

A sum of Rs. 11,000 was allotted to the Branch Committees for improvement of village roads and footpaths, and it is reported that the whole amount has been usefully and economically spent under the supervision of the Branch Committees. In a few cases local subscriptions and private donations were given to supplement the village road grant. The village roads in several parts of the district are now much improved.

Rupees 628 were spent for planting fruit trees on the sides of the Goberdangah, Ghoseparah, Amdangah, Sodepore, and Takee roads (pucca portion), and Rs. 705 for the maintenance of trees planted in previous years. All the old as well as new trees are thriving well. Nokur coolies have been entertained to water the trees, and enclosures have been put round each tree to protect it from animals.

The ordinary district roads are in a fair state of repair.

The several establishments under the Committee are reported to have worked well.

RAJENDRA NATH MITTRA,

Vice-Chairman, Road Cess Committee,

24-Pergunnahs.

Explanatory Memorandum to accompany the Road Cess Annual Accounts of the District of 24-Pergunnahs for the year 1883-83, under Paragraph 14 of the instructions from Government for the preparation of the annual accounts, conveyed in its circular No. 8A, dated 14th February 1878, of the Public Works Department.

As per Budget Head.	Increase or Decrease.	EXPLANATION.
RECEIPT.		
Land Cess ...	Increase ...	The increase is due to the collection of a certain portion of the cess on account of estates in the Satkhira sub-division, the arrangements for the transfer of those estates to the Khoolna district not having been completed until the middle of the year. The amount so collected, however, was subsequently refunded to the district of Khoolna, as shewn under the head of Refunds in the expenditure side of the accounts.
One per cent. Road Cess	Do	The increase is owing to certain arrear collections of this percentage made during the year.
Fines and Fees ...	Decrease... ...	The decrease is due to the non-realization during the year of arrears of cess for the recovery of which peon fees under Board's circular No. 8 of August 1882 had been advanced. The dates of the sale notifications in respect of the properties attached fell in some cases after the Doorga Poojah holidays, and in others after the expiry of the cess year under report.
Miscellaneous ...	Decrease ...	The decrease is due to non-receipt from the several municipalities, except Naihati, of the contributions expected from them, and the transfer from this head to that of "Grant-in-aid," the Government grant on account of the Dhappa ditch, and the percentage on all collections of khas mehal estates.
Grant from Government	Increase ...	The increase is due, as explained above, to the transfer of the Government grant on account of Dhappa ditch and foot-path, and the percentage on all collections of Government estates from Miscellaneous to this head
EXPENDITURE.		
Refunds ...	Increase ...	The increase under this head is explained under the first item on the Receipt side above.
Establishment on Provincial rates ...	Increase ...	The increase is owing to the purchase of court-fees required to be advanced under Board's circular No. 8 of August 1882. This is debited to this head, there being no other head under which it might be placed.
Establishment on Administration ...	Decrease ...	The decrease is owing to savings under the head of contingencies.
Stationery ...	Ditto ...	There has been less expenditure on account of printing charges, hence the decrease.
Original Works ...	Ditto ...	The actual expenditure of most of the works has fallen short of the estimated amounts. Besides no relief works were undertaken during the year.
Repairs	Ditto ...	The decrease under this head is due to the full estimated amounts not having been paid to the contractor, they having undertaken the works on rates lower than those provided for in the estimates.
Establishment ...	Ditto ...	The decrease is owing to savings effected in the office establishment and contingencies.
Tools and Plant ...	Ditto ...	The decrease is owing to non-purchase of any new tools during the year.

ALIPORE;
The 15th January 1884.

RAJENDRA NATH MITTER,
Vice-Chairman,
Road Cess Committee, 24-Pergunnahs.

Abstract of a Report by the Chairman of the District Road Cess Committee, Nuddea, of the Committee's operations for the Cess year 1882-84.

The working of the District and Branch Committees were satisfactory, The district Committee met four times during the year, and the average attendance of the members was 5·5.

The transfer of Bongong has reduced the income of the committee by Rs. 11,244 and the length of the metalled roads from 148·5 miles to 133¾ miles, and that of unmetalled roads from 682 miles to 558 miles.

The committee received no grant from the Government in aid of their fund during the year as they used to do in previous years. Their income was therefore barely sufficient for the requirement of the district. They, however, provided funds for the annual maintenance of all of their existing lines of communication, but they were able to spare money for only three of their important original works, all of which were construction of bridges over gaps in the existing roads begun in previous years. Two of these bridges were on the Coomercolly to Kanchdiar Road in the Kooshtea Sub-Division, and the other on the

Santipore to Culna Ghát road. Of the two bridges on the former roads, one, for which requisite funds were allotted, was completed during the year and opened for traffic. The money granted for the other was not sufficient for its completion. Requisite materials were therefore collected at the site of it. The allotment of the Culna road bridge sufficed only for purchase of eight rolled iron joists.

The principal original works of the year were the metalling and construction of bridges on the Khoksa Railway Station to Khoksa Bazar road, and the drainage works on the Chogda to Bongong road, for both of which funds were granted by Government in the previous year. The Khoksa road was nearly finished during the year, and opened for traffic in the first week of October last. The remaining works of the road are being done, and they are expected to be completed in the current year. About half of the drainage works on the Chogda road was in Bongong Sub-Division, which was transferred in April last, when a good portion of the work had been done. The important culverts and bridges in the other half which is still in this district were finished and opened for traffic during the year under report. A few small drain culverts are now being built, and they will be completed shortly. These culverts were not finished during the last year, simply because bricks fell short owing to failure of the contractor.

None of the roads of this district were affected during the year by the flood, which was much below its average rise; but the exceptional drought was and is even now very detrimental to the existing metalled roads, on most of which the wear and tear of metalling was very considerable, and a great difficulty was experienced in laying and consolidating new metal on them for want of water. Their estimated repairs and renewals were duly carried out during the year. Their maintenance, however, was of minimum efficiency owing to the damage having been much greater than what was anticipated and provided for. There was nothing to interfere with the repairs of the several unmetalled roads, and all of them were maintained satisfactorily.

The outlay on village roads was Rs. 6,265, of which a greater portion was spent on the repairs of roads constructed during the previous years. As usual, the village people took interest in the execution of those works, and in the Ranaghat Sub-Division grants were supplemented by private subscriptions and donations.

The progess in arboriculture was not satisfactory in consequence of the drought. Only one thousand one hundred and seven young trees were transplanted from the nurseries to the sides of eight of the important roads, and two thousand three hundred young plants of indigenous fruit-bearing trees were planted in the nurseries; all of which thrived well. The malies spent the greater part of their time in attending to trees transplanted during the previous years, as they were badly affected by the drought. The nurseries, of which four are in this district, are nearly full of grown up plants. A larger number of young plants therefore were not planted in them last year.

The several establishments under the committee worked very satisfactorily during the year.

Abstract of a report by the Chairman of the District Road Cess Committee, Jessore, on the Committee's operations for the cess year 1882-83.

The Cess Act has now become well known and popular in this district.

The receipts of the year, including previous balance, were estimated at Rs. 80,663, and the expenditure at Rs. 78,411. The actual receipts were Rs. 84,073, including a grant-in-aid of Rs. 10,000 from Government for the Bongong and Chagdah road, and a further sum of Rs. 3,933 on account of drainage works on the same road. The expenditure amounted to Rs. 84,835.

The District Committee met eight times during the year, and at all the meetings there was a quorum. With a very few exceptions, the non-official members took but little interest in the administration of the fund at their disposal. The percentage of attendance of members was larger than previous year.

As usual, the sub-divisional officers have displayed interest in the welfare of their sub-divisions, and have supervised the construction and repairs of village roads. The planters and a few native members have likewise rendered great assistance.

The following is a brief description of the principal works carried out during the year:—

I. Surface repairs were executed on 462¾ miles of roads, that is on all the roads entered in the printed list.

II. Metal has been renewed on seven of the principal roads, and there have been 1½ miles of new construction.

III. The embankment has been raised on the Salabhara portion of the Jhenidah and Kallygunge road for a distance of 2 miles and 21 chains.

IV. All the bridges and culverts were maintained throughout the district.

V. *Arboriculture.*—The fruit trees planted out on the roads in the district have been maintained.

VI. Four new culverts have been constructed, and others are being built in connection with drainage works on the Bongong to Chagdah road.

A sum of Rs. 4,882 was expended on village roads in the different sub-divisions in the maintenance and construction of different roads and bridges. A sum of Rs. 450 was also expended in repairing station roads. These works were carried out under the immediate supervision of the sub-divisional officers and members of the Committees.

The District Engineer gave satisfaction in the discharge of his work, and so did the other subordinates in the engineering establishment. The collection establishment is reported to have worked with deligence, and given satisfaction. The late Road Cess Accountant Mohendro Chunder Sen was charged in September 1883 with having forged some imprest vouchers and misappropriated several sums of road cess money, aggregating Rs. 1,500. The accused was committed to the sessions, and was sentenced to four years' rigorous imprisonment and Rs. 300 fine, and in default, to undergo a further term of rigorous imprisonment for two years.

E. J. BARTON,
Magistrate and Chairman.

Abstract of a report by the Chairman of the District Road Cess Committee, Khulna, on the Committee's operations for the cess year 1882-83.

The annual income of the Committee from the cess is Rs. 59,547, of which Rs. 20,487 come from the 24-Pergunnahs and Rs. 39,060 from Jessore; but the receipts of the year 1882-83 were Rs. 73,390 owing to the inclusion in the accounts of the collections made in the 24-Pergunnahs and Jessore for the period between the 1st June and the 1st October 1882. The expenditure of the year amounted to Rs. 25,979, and the balance at the close of the year was Rs. 47,410.

The District Committee consists of twenty-five members, and met nine times in the year with an average attendance of 10·2, which is a very fair proportion. From the Satkhira Sub-division, however, the attendance was almost nothing, as only two members came, once each; but this is due to the distance from the head-quarters of the district.

Rupees 12,741 were spent on repair works, including Rs. 7,120 upon village roads. The expenditure was divided among the sub-divisions as follows :—

	Rs.
Khoolna	6,653
Satkhira	3,172
Bagirhat	2,916

The money for village roads was distributed through the Vice-Chairman and the Branch Committees to responsible persons in the villages.

There are no metalled roads in the district, except such as lie in or about the head-quarters of the district and sub-divisions; and there are no ordinary roads except that from Khoolna to Jessore, and one road running north and south through part of the Satkhira sub-division.

In the absence of an engineer (whose services the Committee were not able to secure until after the close of the year) no original works were undertaken during the year; and there is under that head an expenditure of Rs. 150 only for tree planting in the Satkhira sub-division. In the other sub-divisions there is not much scope for planting trees, but the Committee hope to do more in the current year.

The establishments both under the Collector and the Chairman have worked satisfactorily.

This is the first report of the district, which was opened on the 1st June 1882, being composed of the Satkhira sub-division of the 24-Pergunnahs and the Khoolna and Bagirhat sub-divisions of Jessore.

Abstract of a report by the Chairman of the District Road Cess Committee, Moorshedabad on the Committee's operations for the Cess year 1882-83.

The maximum rate of cess was levied during the year, and there was an improvement in its collection ; the arrears due from some of the estates under the Court of Wards were realized, and demands paid with greater regularity. The percentage of collection to demand was 100·65.

The public feeling towards the cess is on the whole favourable, as the masses have some tangible evidence of the benefits which accrue in the repairs and construction of the village roads.

The members of the District Committee, with a few exceptions, attended the meetings with regularity, and no difficulty was experienced in securing a quorum.

There are three Branch Committees in the district, *i.e.*, at Jungypore, Kandee and Choa. The two former took a considerable amount of interest in their duties, and were regular in submitting their accounts and statements. But such has not been the case with the Choa Branch Committee, and the Chairman of which so far neglected his duties as to necessitate his removal from the post.

No original works of any importance were carried out during the year under report, as the funds at the disposal of the Committee were barely sufficient to maintain properly the numerous district roads that were brought under the operations of the Cess Act. A talwood bridge of 55 feet span was erected across the Kateegunga cut; another of 24 feet span was put up across the Batoor nullah, and a third one constructed over a break at Rangamatee. The Kateegunga cut was deepened and improved ; and the sand bars and other obstructions formed on the bed of the drainage channel "Sooty nullah," were cut and improved to facilitate the discharge of water.

All the roads in the district were repaired and put into good order, and most of them were temporarily bridged.

The two main drainage cuts draining the bheels and low lands between Berhampore and Gobra nullah were cleaned and repaired during the year.

A sum of Rs. 10,000 was allotted for repairs to village roads in the year under report.

The fruit trees planted on the road sides for a total length of 47 miles were properly maintained.

The several establishments under the Committee have worked fairly well.

A. RATTRAY,
Chairman.

No. 24PR, dated Calcutta, the 16th April 1884.

From—A. SMITH, Esq., Offg. Commissioner of the Presidency Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit herewith the annual accounts of income and expenditure of the Road Cess Funds of all the districts of this division, except Jessore, for the past cess year ending 30th September 1883, together with copies of the Administration Reports received from the Chairmen of the Road Cess Committees of those districts.

2. Of the reports submitted by the Chairmen those for the 24-Pergunnahs, Nuddea, and Moorshedabad have been drawn up in accordance with the orders contained in Government letter No. 973A, dated the 14th September 1880. The Khoolna report, though stated to have been drawn up according to Circular No. 8A of the 4th February 1878, has fulfilled the requirements of the above circular which does not appear to have been received by the Magistrate from Jessore. A copy of it will be sent to him for future guidance.

3. I regret the delay which has occurred in the submission of these accounts and reports owing to the non-receipt of the accounts and reports from Jessore. They have not yet been received, and as there will still be some delay in submitting them, I do not think it proper to wait further for them. The Chairman of the Jessore Road Cess Committee informs me that the accounts are under preparation, that the majority of the exhibits filed in the case of the late accountant were received back from the Judge's Court only on the 20th of February, and there are yet some important documents to get back from the said Court without which the annual accounts cannot be closed. Then, when the accounts are closed, it will be necessary to have them passed by the Audit Committee and subsequently by the District Committee which will take time, and probably the whole of this month will pass before the necessary business will be got through. They will be submitted separately as soon as they are received by me.

No. 31P—R, dated Calcutta, the 10th June 1884.

From—A. SMITH, Esq., Officiating Commissioner of the Presidency Division.
To—The Secretary to the Government of Bengal, Public Works Department.

IN continuation of this office No. 24P—R of the 16th ultimo, I have the honour to submit the annual accounts of income and expenditure of the Road Fund of the district of Jessore for the past cess year ending 30th September 1883, together with a copy of the Administration Report received from the Chairman of the Road Cess Committee of Jessore, with the explanatory notes required under Government Circular 8A of the 4th February 1878.

2. The report submitted by the Chairman appears to have been drawn up in accordance with the orders contained in the Government letter No. 973A of the 14th September 1880.

BENGAL CIVIL FUND.

At the half-yearly General Meeting of Subscribers to the Bengal Civil Fund held at the Town Hall on Monday, the 28th July 1884, at 10 a. m.

PRESENT:—The Hon'ble Mr. Justice Prinsep; the Hon'ble Mr. Justice Tottenham; A. Smith, Esq., M. A.; H. L. Harrison, Esq., B.A.; D. R. Lyall, Esq.; E. F. T. Atkinson, Esq., B A.; W. H. Grimley, Esq., B.A. H. J. S. Cotton, Esq.; R. Logan, Esq.; F. R. S. Collier, Esq.; C. S. Bayley, Esq.

A. Smith, Esq., in the Chair.

The following report was presented by the Managers of the proceedings for the past half-year.

Report.

1. The Managers submit the proceedings of the past half-year for the consideration and sanction of the meeting:—

2. Subject to the approval of the subscribers, they have admitted to the benefits of the Fund the following families:—

Mrs. Armstrong	...	...	£ 300
Two daughters	..	...	,, 200
	Total	...	£ 500

The widow and two daughters of the late Mr. H. Armstrong, an annuitant of 1851, who died in London on the 18th November 1883;

Mrs. Skinner	...	...	£ 300
Daughter	...	...	,, 100
	Total	..	£ 400

The widow and one daughter of the late Mr. Russell M. Skinner, an annuitant of 1858, who died in London on the 5th February 1884;

Mrs. Armstrong	...	...	£ 300
Two sons	...	...	,, 140
Two daughters	...	...	,, 180
	Total	...	£ 620

The widow and four children (two sons and two daughters) of the late Mr. J. Samuel Armstrong, who died in Germany on the 6th February 1884;

Lady Bayley	...	...	£ 300
One son	...	...	,, 150
Five daughters	..	...	,, 500
	Total	...	£ 950

The widow and six children (one son and five daughters) of the late Sir Edward Clive Bayley, K.C.S.I., C.I.E., an annuitant of 1878, who died at Wilmington on the 30th April 1884; and

Mrs. Carter	...	...	£ 300
Two daughters	...	...	,, 200
	Total	...	£ 500

The widow and two daughters of the late Mr. J. H. Carter, who died at Plymouth on the 4th May 1884;

3. The votes of the subscribers have affirmed the resolution passed at the General Meeting of the 28th January last, respecting the proposal to transfer the Fund to the Government. The following votes were recorded:—

	For.	Against.
Active subscribers in India	259	9
Ditto in England	43	2
Annuitants	182	1
Total ...	484	12

The matter being one of great importance to the Service, the Managers are anxious to have the benefit, in dealing with it, of the advice and assistance of their late colleague Mr. Westland. They propose therefore to defer making any communication regarding it to the Government until Mr Westland's return to India, which will probably take place in the middle of September next.

4. The proposed grant of a good service pension to Mr. J. Wetherill was also confirmed, 213 subscribers having voted for, and 3 against the proposal.

5. The Managers have under Article XVI announced their intention to propose—

"That they be authorised, in accordance with the opinion of Counsel, to refund to Mrs. Bruce Lane, with interest at 5 per cent., the subscriptions paid by her to keep up her late husband's interest in the Fund."

The facts of the case, which was one of considerable difficulty, are fully set forth in the appendix to this report, from which it will be seen that the Managers felt themselves obliged

to consult Counsel as to the powers of the subscribers to deal with the matter. In the opinion of Mr. Evans Mrs. Bruce Lane can never participate in the benefits of the Fund. The Managers have made a communication in accordance with this opinion to Mrs. Lane, and desire now to obtain the sanction of the subscribers to the refund, with interest, of the subscription paid by Mrs Lane to keep alive her late husband's interest in the Fund.

6. Mr. W. C. Plowden has incurred the penalty prescribed by Article XXXVII of the Rules by failure, for more than one year, to pay the necessary subscriptions to the Fund. Mr. Plowden states that the omission was entirely due to misapprehension, as he believed that deductions on account of Fund subscriptions were being made from his allowance by the India Office. Arrears of subscription, together with interest at 8 per cent., as required by the Rules, have now been paid, and the Managers recommend Mr. Plowden's case to the favourable consideration of the Meeting.

Mr. H. Lushington has incurred the penalty prescribed by Article XXXVII of the Rules, by his omission, for more than one year, to pay the necessary subscriptions to the Fund on his annuity. Mr. Lushington states that he was not aware of the existence of Article XXXVII, and that he supposed that "in the absence of any machinery for collecting the subscriptions of annuitants in this country, all arrears, if any, due by subscribers at home, after decease would be deducted from the pensions of widows and children." Mr Lushington has now paid all arrears of subscription, together with interest at 8 per cent., as required by the Rules, and the Managers recommend his case to the favourable consideration of the Meeting.

Mr. J. H. Prinsep has incurred the penalty prescribed by Article XXXVII of the Rules by failure. for more than one year, to pay subscriptions to the Fund on his annuity. Mr. Prinsep states that he has been under the impression that the amount deducted by the India Office from his quarterly annuity represented both deductions on account of income tax and subscriptions to the Civil Fund. Mr. Prinsep has now paid all arrears of subscription, together with interest at 8 per cent. as required by the Rules, and the Managers recommend his case to the favourable consideration of the Meeting.

Mr. C. Steer has incurred the penalty prescribed by Article XXXVII of the Rules by his omission, for more than one year, to pay subscriptions to the Fund on his annuity. Mr. Steer states that the omission was due to an oversight. All arrears of subscription, together with interest at 8 per cent., as required by the Rules, have now been paid by Mr. Steer, and the Managers recommend his case to the favourable consideration of the Meeting.

Mr. R. D. Hime, who retired on an invalid annuity, with effect from the 8th September 1881, has incurred the penalty prescribed by Article XXXVII of the Rules by his omission, for more than one year, to pay subscriptions to the Fund. Mr. Hime states that owing to his ignorance of the Rules, he was not aware that he could obtain any benefits from the Fund either immediately or prospectively, owing to the fact that at the time of his retirement he had neither wife nor child. Having married again, he is anxious to secure, if possible, the benefits of the Fund to his wife and to any children whom he may leave at his death. As all arrears of subscription, together with interest at 8 per cent., have now been paid by Mr. Hime, the Managers recommend his case to the favourable consideration of the Meeting.

7. An application has been received from Mrs. C. Chapman, widow of Mr. C. Chapman, for an increase to the pension of her son, Mr. Edmund Frere Chapman, who is incapacitated from earning his own livelihood. Mrs. Chapman on a former occasion requested that her son's name might be allowed to continue on the list of incumbents after he had attained the age of 21 years, and the Managers granted the request. This circumstance was reported in the proceedings of the General Meeting of the 29th January 1883, and was confirmed by the subscribers present. Mrs. Chapman now states that her son's mental condition is such as to necessitate his being placed under the charge of a medical man at great expense. The Managers, taking into consideration the fact that Mrs. Chapman is dependent entirely on her pension, and that the cost of the maintenance of her son exceeds £100 a year have, under the powers vested in them by Article XXIX of the Rules, granted, until further orders, the full pension of £150 a year to Mr. E. F. Chapman.

8. In accordance with Article XXII of the Rules, the Managers have to report that the Hon'ble Mr. Justice O'Kinealy having on his departure from India on leave resigned his office as an elected Manager, they have elected the Hon'ble Mr. Justice Beverley to fill the vacancy thus caused.

Proposed by *Mr. Lyall*, seconded by *Mr. Logan*, and carried unanimously—

That the Managers' proceedings in admitting the families of the late Messrs. H. Armstrong, Russell M. Skinner, J. Samuel Armstrong, Sir Edward Clive Bayley, K.C.S.I., C.I.E., and Mr. J. H. Carter to the benefits of the Fund be confirmed.

Proposed by *Mr. Collier*, seconded by *Mr. Atkinson*, and carried unanimously—

That the Managers be authorized, in accordance with the opinion of Counsel and, subject to the approval of the Service, to sanction the refund, with interest, of the subscriptions paid by Mrs. Lane to keep alive her late husband's interest in the Fund.

Proposed by *Mr. Cotton*, seconded by *Mr. Logan*, and carried unanimously—

That Messrs. W. C. Plowden, H. Lushington, J. H. Prinsep, C. Steer, and R. D. Hime be restored to the rights of subscribers.

Proposed by *Mr. Logan*, seconded by *Mr. Lyall*, and carried unanimously—

That the action of the Managers in allowing Mr. E. F. Chapman to draw the full pension of £150 a year, until futher orders, be approved and confirmed.

A vote of thanks to the Chairman was proposed by *Mr. Harrison*, seconded by *Mr. Justice Tottenham*, and carried unanimously.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 24th July, 1884, and is hereby promulgated for general information:—

ACT NO. XII OF 1884.

An Act to amend and provide for the extension of the Northern India Takkávi Act, 1879.

WHEREAS it is expedient to amend the Northern India Takkávi Act, 1879, and provide for its extension to any part of British India; It is hereby enacted as follows:—

X of 1879.

1. (*1*) This Act may be called the Agriculturists' Loans Act, 1884; and

Short title.

Commencement.

(*2*) It shall come into force on the first day of August, 1884.

2. (*1*) This section and section 3 extend to the whole of British India.

Local extent.

(*2*) The rest of this Act extends in the first instance only to the territories respectively administered by the Governor of Bombay in Council, the Lieutenant-Governors of the North-Western Provinces and the Panjáb, and the Chief Commissioners of Oudh, the Central Provinces, Assam and Ajmer.

(*3*) But any other Local Government may, from time to time, by notification in the official Gazette, extend the rest of this Act to the whole or any part of the territories under its administration.

3. (*1*) On and from the day on which this Act comes into force, the Northern India Takkávi Act, 1879, and sections 4 and 5 of the Bombay Revenue Jurisdiction Act, 1880, shall, except as regards the recovery of advances made before this Act comes into force and of the interest thereon, be repealed.

Repeal of Act X of 1879, and sections 4 and 5 of Act XV of 1880.

X of 1879.

XV of 1880.

(*2*) All rules made under those Acts shall be deemed to be made under this Act.

4. (*1*) The Local Government may, from time to time, with the previous sanction of the Governor General in Council, make rules as to loans to be made to owners and occupiers of arable land, for the relief of distress, the purchase of seed or cattle, or any other purpose not specified in the Land Improvement Loans Act, 1883, but connected with agricultural objects.

Power for Local Government to make rules.

XIX of 1883.

(*2*) All such rules shall be published in the local official Gazette.

5. Every loan made in accordance with such rules, all interest (if any) chargeable thereon, and costs (if any) incurred in making or recovering the same, shall, when they become due, be recoverable from the person to whom the loan was made, or from any person who has become surety for the repayment thereof, as if they were arrears of land-revenue or costs incurred in recovering the same due by the person to whom the loan was made or by his surety.

Recovery of loans.

6. When a loan is made under this Act to the members of a village-community or to any other persons on such terms that all of them are jointly and severally bound to the Government for the payment of the whole amount payable in respect thereof, and a statement showing the portion of that amount which as among themselves each is bound to contribute is entered upon the order granting the loan and is signed, marked or sealed by each of them or his agent duly authorized in this behalf and by the officer making the order, that statement shall be conclusive evidence of the portion of that amount which as among themselves each of those persons is bound to contribute.

Liability of joint borrowers as among themselves.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Report of the Select Committee on the Bill to amend and provide for the extension of the Northern India Takkávi Act, 1879, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 9th July, 1884:—

WE, the undersigned Members of the Select Committee to which the Bill to amend and provide for the extension of the Northern India Takkávi Act, 1879, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Secretary to Chief Commissioner, Coorg, No. 1661-I. 204, dated 5th February, 1884 [Printed Paper No. 1].
From Secretary to Government, Bombay, No. 1429, dated 14th February, 1884, and enclosures [Printed Papers No. 2].
From Secretary to Government, Bombay, No. 1558, dated 19th February, 1884, and enclosures [Printed Papers No. 3].
From Officiating Assistant Secretary to Chief Commissioner, Central Provinces, No. 811-29, dated 19th February, 1884, and enclosure [Printed Papers No. 4].
From Secretary to Government, Bombay, No. 1699, dated 23rd February, 1884, and enclosure [Printed Papers No. 5].
From Secretary to Government, Bombay, No. 1670, dated 23rd February, 1884, and enclosures [Printed Papers No 6].
From Secretary to Chief Commissioner, British Burma, No. 441-42A., dated 21st February, 1884 [Printed Paper No. 7].
From Secretary to Government, North-Western Provinces and Oudh, No. 413, dated 29th February, 1884 [Printed Paper No. 8].
From Chief Secretary to Government, Madras, No. 630, dated 8th March, 1884, and enclosures [Printed Papers No. 9].
From Officiating Junior Secretary to Government, Panjáb, No. 110, dated 25th March, 1884, and enclosures [Printed Papers No. 10].
From Chief Commissioner, Ajmer-Merwára, No. 231, dated 2nd April, 1884, and enclosures [Printed Papers No. 11].
From Secretary for Birár to Resident, Haidarábád, No. 1106., dated 4th April, 1884, and enclosures [Printed Papers No. 12].
From Officiating Secretary to Chief Commissioner, Assam, No. 443, dated 19th April, 1884 [Printed Paper No. 13].
From Chief Secretary to Government, Madras, No. 1010, dated 24th April, 1884, and enclosure [Printed Papers No. 14].
From Officiating Secretary to Government, Bengal, No. 282T.R., dated 6th May, 1884, and enclosures [Printed Papers No. 15].

2. We have at the instance of the Government of Bombay made the Bill applicable by its own force to that Presidency, and repealed sections 4 and 5 of Act XV of 1880, the similar law at present in force there.

3. We have considered the objections taken by the British Indian Association to sections 5 and 6, but they appear to us to be based on a misapprehension as to the effect of those sections. The Association fear that a landlord's interest may be in some way affected by a sale for arrears of advances due by his tenant, but there is nothing in the Bill to warrant anything of the kind.

Section 6 relates merely to contribution between those taking the loan, and section 5, which provides for the recovery of arrears, does not enact that they shall be recoverable as if they were arrears of land-revenue due in respect of any particular land, but merely as if they were arrears of land-revenue due by the defaulter, and accordingly no charge is created over land even when the loan has been taken by its owner.

4. We have also considered the suggestion of the Government of the Panjáb that the lambardárs of a village should be empowered to engage for a loan on behalf of the whole proprietory body, but we do not think that it would be safe to confer any such power.

As regards the inconvenience which it is suggested may arise "when it might be desirable to make a loan to a village-community as such" from requiring "the signature of each member of the community," we would observe that loans of the description contemplated by the Bill would, as a rule, be made not to village-communities as such but to individuals, and that when, with a view to having better security for the recovery of the money, it is proposed that a large number of persons should join and make themselves jointly and severally responsible for the aggregate of the loans to all, it would be comparatively immaterial whether a few more or a few less so joined.

We have, however, in order to facilitate the working of section 6, inserted words to make it clear that the signature required by that section may be affixed by an agent duly authorized.

5. The publication ordered by the Council has been made as follows :—

INTERNATIONAL EXHIBITION OF ANTWERP, 1885.

NOTIFICATION.

The 1st August 1884.—The following papers, relating to the International Exhibition, which it is proposed to hold at Antwerp in Belgium in 1885, are published for general information. Any further information required by intending exhibitors may be obtained from the Belgian Consul-General in Bombay.

A. P. MACDONNELL,
Secretary to the Govt. of Bengal.

KINGDOM OF BELGIUM.

INTERNATIONAL EXHIBITION OF ANTWERP, 1885.

UNDER THE HIGH PATRONAGE OF H. M. KING LEOPOLD II.

Education, Liberal Arts, and Industrial Arts—Industry—Navigation and Commerce—Fisheries and Pisciculture—Electricity—Agriculture, Forestry, and Horticulture.

GENERAL REGULATIONS.

CHAPTER I.

General Dispositions.

ARTICLE 1.—The International Exhibition of Antwerp, placed under the high patronage of His Majesty the King of the Belgians, will receive the productions of the Industry, Agriculture, Forestry, and Horticulture of all nations. It will comprise special maritime and electrical sections.

Competitive shows of living animals, plants, flowers, fruits, and vegetables are projected. These shows, if they take place, will be the object of special regulations.

ART. 2.—The Exhibition will be established on the ground-plot of the new town, near the Southern Railway station and the maritime establishments. It will occupy a superficies of about 220,000 square metres (22 hectares or 54½ acres), comprising part of the Lighterage Dock allotted to the Maritime Exhibition.

The Halls of Industry and the Gallery of Machinery will be built of iron and covered with zinc. Constructions of all kinds will be erected in the park, which will receive shrubs, plants, and productions not intended to figure in the principal halls.

ART. 3.—The Exhibition will be opened on the 2nd May 1885, and will have a duration of at least five months.

ART. 4.—A committee, placed under the honorary presidency of the Burgomaster of the Town of Antwerp, constitutes the executive and superior power for the organisation and direction of the Exhibition.

All financial questions belong exclusively to the department of the Administrative Board of the Managing Company.

ART. 5.—There will be instituted committees of groups, and local committees. Special regulations will determine the duties and functions of these committees.

ART. 6.—Foreign Governments are invited to be officially represented by Commissions. These Commissions will enter, as soon as possible, into correspondence with the Executive Committee, and will be represented there by a Commissioner entrusted with the discharge of all questions interesting their countrymen; notably those relating to the division of the space reserved to their respective countries, and the mode of installation of each national section.

Foreign exhibitors can correspond with the Executive Committee only through their respective Commissions, or the deputies of these latter. Nevertheless, foreigners not represented by Commissions or official deputies of their respective countries may correspond directly with the Executive Committee. This latter will furnish the necessary information to the Foreign Commissions or their deputies: it will communicate to them the regulations to be complied with.

ART. 7.—Exchanges of space between one country and another can only take place by the intermedium of the Executive Committee.

ART. 8.—The products will be divided into sections, groups, and classes, according to a system of general classification annexed to the present rules (Annex No. 1). This document gives the summary enumeration of the products of each class. This classification will serve as a base for the division of the products in each compartment attributed to the Exhibitors of one and the same nation.

ART. 9.—The Executive Committee will draw up an official, methodical, and complete catalogue of the productions of all nations, giving the name of the exhibitors, the line of industry, the place of production, and objects shown.

The necessary intelligence for the composition of this catalogue will be furnished by the exhibitors on their own responsibility. To this effect a special formula is joined to the present rules (Annex No. 2).

ART. 10.—The necessary measures will be taken by the Government to protect in Belgium, inventions susceptible of being patented, industrial designs and models, as well as trade marks figuring at the Exhibition.

The officers of the service of supervision will receive orders to prevent the drawing, copying, measuring, photographing, reproducing by modelling or moulding, etc., of any of the objects exhibited without the written authorisation of the exhibitor. The Executive Committee reserves to itself the right of authorising the reproduction of general views.

ART. 11.—All advertisements, printed or other documents intended to be stuck up or distributed within the enclosure of the Exhibition, will first have to be authorised and approved by the Executive Committee This authorisation is liable to be withdrawn at any time.

The Executive Committee regulates likewise all questions regarding the size and fixing of signboards.

ART. 12.—No article exhibited is allowed to be withdrawn before the close of the Exhibition without a special and written authority of the Executive Committee. Arrangements will be made by the Committee with exhibitors of objects of great value or products susceptible of deterioration.

ART. 13.—Belgian and foreign exhibitors will have to pay a ground-rent for the space their products occupy in the Exhibition. The particulars as to the terms of this location will be found under Chapter II of the present regulations.

ART. 14.—The floors of the halls will be able to support a weight of 500 kilos (1/2 ton), and even 1,500 kilos (1 1/2 tons) per square yard in certain places: they may be modified, removed or consolidated for the requirements of installations only in accordance with the Executive Committee and at the cost of the exhibitors. The partitions erected according to the annexed sketch will be furnished gratis to exhibitors.

ART. 15.—The Managing Company undertakes the general decoration of the halls in the Exhibition. All particular and special decorations will be at the charge of the exhibitors, subject to the approval of the Executive Committee.

ART. 16.—Goods will be carried on the lines of Belgian State Railway at the price and terms of the special tariff No. 10: Exhibits remaining unsold at the close of the Exhibition will be carried free of charge on the same lines.

Steps will be taken to arrange terms with the private lines and foreign Companies in connection with the Belgian Railways.

Most of the regular Steam Navigation Lines consent to reductions of their freights.

ART. 17.—The Managing Company undertakes gratis the management of all packages, delivered not later than the 15th April 1885, and the weight of which does not exceed 1 1/2 tons.

This management of goods comprises :—

(*a*) Receiving them at the station or at the wharf.
(*b*) The unloading or landing.
(*c*) The removing ... ...
(*d*) The warehousing for the whole duration of the Exhibition ... ...
(*e*) The bringing back ... ...
} Of empty cases and wrappers.
(*f*) The cartage of repacked packages
(*g*) The reloading on the cars or the replacing on the wharf.

The Exhibitors will comply with the instructions given by the Executive Committee for facilitating the cartage of empty cases, etc.

The Exhibitors will have to effect at their own cost the unpacking, installing, displaying, and repacking of their products, as well as the repairs of cases, etc. The packing up will take place in the order indicated by the Executive Committee, and will have to be effected before the 31st December 1885 : the dismounting of the machines will have to be terminated so as to permit of their being taken away at the latest on the 1st February 1886. After these dates the products not packed or not dismounted will be taken away by law and warehoused at the cost, peril, and risk of the Exhibitors. The articles not withdrawn on the 1st March 1886 will be sold by public auction, and the Managing Company will have the right to dispose of the proceeds.

Regarding packages or goods more than 1 1/2 tons in weight, the Exhibitor will have to communicate with the Executive Committee, who will fix a moderate tax for their unloading and reloading, &c.

ART. 18.—The Managing Company will exercise the greatest care in the unloading and reloading, but it is expressly stipulated that it will in no case be responsible for any losses, damages, averages, etc., the packages or their contents may suffer.

ART. 19.—The Exhibitors, individually or collectively, will have to bear all special charges, such as hire of furniture, installation, decoration, displaying, maintaining and cleaning of the products foundations, mounting, motive power, steam, water, gas, dismounting ; insurance ; plantations and special earthworks connected with it ; custom-house or excise duties for articles to be consumed, &c., &c.

The Exhibitors will have to submit to the approbation of the Executive Committee the plan of glazing. show cases, etc , of which they wish to make use : the annex No. 6 gives the types of those generally employed.

The exhibitors will be held responsible for any damages their installations may cause to the floor, partitions, &c., of which they make use.

CHAPTER II.

Special Dispositions.

ART. 20.—The following objects will not be admitted to the Exhibition : Explosive, fulminating matters, and in general all dangerous matter. Alcohols and spirits, oils and essences, corrosive matters, and in general the substances capable of damaging other products or incommodating the public will only be received in solid, appropriate vases, limited in size. Primings, pieces of fireworks, matches, and other analogous articles can be received only as imitations and without any addition of inflammable matter. The exhibitors of unpleasant or insalubrious products will have at any time to comply with the measures of security prescribed to them.

The Executive Committee reserves to itself the absolute right of causing to be withdrawn the products of any origin which, by their nature or aspect, may appear to them prejudicial or incompatible with the purpose or the decorum of the Exhibition.

ART. 21.—The demands of admission will have to be inscribed on one of the formulas annexed to the present rules (Annex 3, 4, and 5).

ART. 22.—These demands, duly signed and prepaid, will have to be addressed under envelope to the Executive Committee, 89, Avenue des Arts, Antwerp, at the very latest—on 1st July 1884 by the exhibitors of Belgium, England, and the European Continent ; on 1st September 1884 by the Exhibitors from beyond the Ocean and the Colonies.

ART. 23.—The space rental of the sites, inclusive of the general decoration, unloading and reloading, will be fixed on the following bases, according to the space occupied by the products :—

I.—HALLS OF INDUSTRY.

Sites non-isolated.

On the ground
(*a*) The depth not exceeding 1 m. (1 yard 3 1/3 inches) and the height not exceeding 3 m.—
Per running metre frontage ... ... Fr. 70= (£2-16.)
(*b*) The depth exceeding 1 m. and the height not exceeding 3 m.—
Per square metre horizontal surface ... „ 70= (£2-16.)

On partition or wall. { (*c*) The height not exceeding 3 m.—
Per running metre frontage ... ... Fr. 70= (£2-16.)
No site to be calculated at less than fr. 70 or £2-16.

Isolated sites.

(*a*) Measured on the largest dimension, the smallest under 1 m.—
Per running metre frontage ... ... Fr. 150= (£6.)
(*b*) Both dimensions exceeding 1 m.—
Per square metre horizontal surface ... „ 150= (£6.)
No isolated site to be let under fr. 150 or £6.

In the *Central Galleries* the price of isolated and non-isolated sites will be augmented by 25 per cent.

The tax for *saloons or sites with a frontage to the Central Galleries* will be, on the depth of 5 m , augmented by 15 per cent.

All the surfaces will be calculated on the large square.

For *non-isolated sites* of more than 3 m., the surplus of height to 7 m will be taxed at the rate of 30 fr. or £1-4.

per metre frontage: for *isolated sites* the tax will be calculated according to the largest side of the ground-plot.

The plots will be measured at the largest dimensions above the floor.

The partitions will have a maximum height of 5 metres. The installations or isolated show-cases may, in certain parts of the hall, attain the height of 10 m.

II.—Gallery of Machines.

Machines and diverse installations of any height.

(*a*) For depths less than 1m.—
Per metre running frontage ... ... Fr. 70= (£2-16.)
(*b*) For depths exceeding 1 m.—
Per square metre horizontal surface ... „ 70= (£2-16.)
No site of this category to be calculated at less than fr. 70 or £2-16.

For all *machines in motion*, getting their motive power from steam, water, gas, or the general transmission, the above prices will be reduced by 50 per cent. This reduction will only be granted if the machines work at least four days a week and five hours a day.

The installations will be measured at the largest dimensions above the floor.

III.—Maritime Installations.—Gardens.—Sheds in the Gardens.

For sites of any height.

(*a*) The depth not exceeding 1 m —
Per running metre frontage ... ... Fr. 30= (£1-4.)
(*b*) The depth exceeding 1 m.—
Per square metre horizontal surface ... „ 30= (£1-4.)
No site of this category to be calculated at less than fr. 30 or £1-4.

The installations will be measured at the largest dimensions above the ground.

The charge for the sites under sheds will be augmented by 50 per cent.

The maritime installations will be measured by the square, taking the largest dimension of the midship-frame as well as the length occupied.

The Managing Company will make private contracts with exhibitors of flowers, shrubs, species of woods, lawns, etc.

The charges for space will be collected by the agency of the Managing Company, and will be payable at the following dates :—

On the 15th of September 1884 by the exhibitors of Belgium, England, and the European Continent.

On the 15th of December 1884 by the Trans-Oceanic and Colonial exhibitors.

Art. 24.—The Executive Committee will decide on the demands of admission, and the exhibitors can forward their products only after receipt of their certificate of admission. The exhibitor who has not installed his products before the 20th April 1885 will lose all right to his site: the certificate of admission will be considered null and void, and the sum paid to the Managing Company forfeited without any judicial or extra-judicial formality.

Art. 25 —The Exhibitors requiring steam, water, or gas will have to mention on the bulletin of demand for admission the quantity required by them per hour. Those who require motive power will have to indicate the speed of their propellers, and the power they wish to dispose of. The motive power will be granted in the gallery of machines on a special tariff: it will be taken from the general horizontal shaft of transmission. The fitting up of any intermediate transmission, as well as the foundations and all costs of particular installation will be at the exhibitor's own expense. Steam, water, gas will be furnished on the terms of the tariff regulating the object.

Special rules will fix the terms regarding the fitting up and working of machines. The special regulations of the Gallery of Machines will be sent to the exhibitors on their request.

ART. 26.—There will be instituted an International Jury of rewards. This Jury will operate as soon as possible after the opening of the Exhibition. The rewards will consist only of diplomas—of honor, gold medals, silver medals, bronze medals, and hon'ble mentions.

A bronze medal will accompany each diploma.

The distribution of rewards will take place before the close of the Exhibition. This solemnity will be surrounded with the greatest splendour, and the greatest publicity will be given to the programme of rewards.

ART. 27.—The Belgian Government has authorised the organisation of a lottery. The prizes will be exclusively chosen from among the objects exhibited.

CHAPTER III.

Administration and Police.

ART. 28.—The products must be exhibited under the name of the person who signed the demand for admission: this condition is indispensable.

ART. 29.—The exhibitors are authorised to inscribe, after their name or firm, the names of any co-operators who have contributed to the merit of the products exhibited.

ART. 30.—The exhibitors are requested to mark the selling-price of the articles exhibited, in order to facilitate the appreciation of the Jury as well as to inform the public.

ART 31.—Measures will be taken to protect the products exhibited against any kind of damage, but the Managing Company will in no way be responsible for accidents, fires, thefts, depredations or damages, whatever be the cause or importance.

ART. 32.—A general supervision will be established against robberies and embezzlements, without the Managing Company assuming any responsibility under this head.

ART. 33.—The Foreign Commissions and Exhibitors will be at liberty to employ watchmen and special attendants, to be approved by the Executive Committee. They will have distinctive emblems, and will under any circumstance be able to claim the assistance of the agents appointed by the Executive Committee, and that of the Police.

ART. 34.—Articles of current sale, as well as those made or manufactured on the place, may, on payment of a tax to be agreed upon, be sold and delivered on the spot. A special agreement will regulate the right of selling drinks to be consumed.

ART. 35.—One Entrance Ticket will be delivered gratis to each exhibitor or to the representative of the firm. This ticket is personal: it will be withdrawn when it is found to have been lent or transferred, the whole without prejudice to any proceedings at law. The ticket will have to be signed by the exhibitor, bear his "carte de visite" and the number of the group and of the class to which he belongs: it will besides be stamped by the Executive Committee.

ART. 36.—The Exhibition is constituted a Government Warehouse, and the Exhibitors will have to comply with the regulations made by the Belgian Government.

ART. 37.—Ulterior instructions will determine in due time the mode of forwarding, receiving, unloading and re-loading, installing and returning the goods, the mode of forming and proceeding of the International Jury of awards, as well as the system of entries into the Exhibition.

ART. 38.—The exhibitors and others admitted to build or to establish themselves in the park of the Exhibition will have to comply with the conditions imposed upon them by the Executive Committee. Special conditions of contract will regulate the granting of licenses to restaurants, refreshment bars, tobacco shops, eating-houses, &c., &c.

CHAPTER IV.

Special Exhibitions—Congresses and Lectures.

ART. 39.—Supplementary Exhibitions, competitions, congresses, lectures, readings, &c., will be organised during the period of the Exhibition.

ART. 40.—The Executive Committee will convoke International Congresses, where questions of a nature to interest exchanges and business transactions will be treated: it will examine and patronize all projects the realisation of which might increase the interest and success of the Exhibition.

ART. 41.—*All communications respecting the Exhibition must be addressed by prepaid letter to the Executive Committee of the International Exhibition of Antwerp, Avenue des Arts, 89, Antwerp.*

Special Disposition.

ART. 42.—Belgians and Foreigners, by accepting the position of exhibitors, agree to adhere to the present general rules, special regulations, and any measures of order which may ulteriorly be promulgated.

Adopted in the Session of the Council of Administration.

Antwerp, 24th April 1884.

The Administrators,

EUGENE MEEUS—VICTOR LYNEN.

N.B.—This edition is a faithful translation of the original documents, to which, however, the Managing Company begs to refer in case of any doubtful interpretation.

BEHAR.				
Patna Divn.	26	Patna, Aug. 9 '84	1·37	Weather—hot and cloudy. The recent rain has, to a slight extent, benefited *bhadoi*, but more is urgently wanted for transplanting of paddy seedlings. There was heavy rain on the morning of the 8th, but the fall was partial and did not extend to the south of the district where it is most wanted. Cholera still reported.
		Behar ...	·19	
		Dinapore ..	0·12	
	27	Gya, „ 9 „	1·01	Weather—hot. Heavy clouds, with occasional showers. Prospects of crops bad. *Bhadoi* crop has suffered much. Transplanting of paddy is going on very slowly and in some places it has stopped. Seedlings drying up. Health fair, though cholera, small-pox, and fever reported from many places.

	28	Shahabad, „ 9 „	·43	Weather—hot and cloudy at intervals. The rain has benefited *bhadoi* crops, but much more urgently needed both for *bhadoi* and paddy crops. Showers of rain seem local.
		Buxar ..	1·	
		Bhabua ...	1·45	
		Sasseram ..	1·02	
	29	Durbhunga, „ 9 „	31	Weather—cool, generally cloudy, east winds prevailing. Rain very badly wanted almost everywhere. *Bhadoi* crops turning yellow in some places. Transplanting of paddy stopped. Prices stationary. Public health good.
		Tajpur .	·13	
		Madhubani ...	·78	
	30	Mozufferpore, „ 9 „	0·24	Weather—close and hot; sky overcast with clouds Standing crops beginning to suffer from want of rain. Unless rain falls shortly *bhadoi* will be short and *aghani* will be retarded.
		Hajipore ..	0 08	
		Sitamarhi ..	Nil	
	31	Sarun, „ 9 „	1·02	Weather—sultry, with passing clouds and occasional drizzling rain. A heavy fall of rain urgently required, especially in the Sewan sub-division. *Makai* and other *bhadoi* crops still doing fairly well, but transplanting of paddy is much retarded for want of rain. Manufacture of indigo in progress everywhere, but outturn is disappointing. Prices steady. Public health good.
		Sewan .	Nil	
		Gopalgunge ...	·04	
	32	Chumparun „ 9 „	Nil	Weather—cloudy, with easterly winds, The continued drought gives cause for serious anxiety regarding outturn of *bhadoi* crop in the Sudder sub-division. There has been rain in the Betteah sub-division, but more still required there, Public health fair.
		Bettiah ...	2·	
Bhagulpore Divn.	33	Monghyr, Aug. 9 '84	·65	Weather—sultry and cloudy with occasional light showers of rain. Rain greatly needed for transplanting paddy seedlings, which are injured in some places for want of rain. The Ganges rising rapidly to the injury of *bhadoi* crops on low lands. Prices steady. Public health good.
		Begusarai ...	·77	
		Jamui .	·44	
	34	Bhagulpore, „ 9 „	·93	Weather—cloudy, with occasional light showers of rain. Want of rain beginning to be badly felt all over the district, both for *bhadoi* crop and paddy. Transplanting backward. Public health good. Price of rice varies from 12 to 15 seers per rupee.
	35	Purneah, „ 9 „	0·29	Weather—cloudy, and hot. Prospects of crops everywhere getting worse for want of rain. Health fair.
	36	Maldah, „ 9 „	0·23	Weather—hot and cloudy. Want of rain continues to be much felt, and transplanting of *haimanti* paddy retarded in consequence. River rising slowly, but remains much lower than is usual at this season. Prospects of *bhadoi* as yet favourable. Public health good.
	37	Sonthal Perghs. „ 9 „	1·26	Weather—cloudy, but very little rain fell generally. The general cry is for heavy rain to enable paddy on high lands to be transplanted. Rainy crops will yield a bumper harvest, but the rice crop, if rain does not fall in sufficient quantity during the next fortnight, will be short.

Meteorological Reporter to the Government of Bengal.

METEOROLOGICAL AND RAINFALL SUMMARY OF THE PROVINCE OF BENGAL FOR THE MONTH OF JULY 1884.

The month of July is one of the most important of the year from a meteorological point of view. It usually witnesses the complete establishment of the two great branches of the monsoon current. So far as Bengal is concerned, the Bay of Bengal branch is the most important. It advances from south-west or west-south-west over the south of the Bay, and is gradually deflected as it proceeds northwards up the Bay by the line of the east coast and the adjacent hills. It hence blows most strongly over the eastern half of the Bay, and gives rise to much rain and squally weather in the neighbourhood of the Burmah and Aracan coasts. As has been pointed out more than once in previous reports, the south-west monsoon winds are by no means steady. They blow vigorously for a few days, giving more or less general rain, then fall off in strength, when the rainfall is more or less local in character, and again come up in force. The succession of periods of strong winds and general rainfall, and of weak winds and local rainfall, is one of the most important features of the rains. Each burst of strong winds appears to commence in the south and centre of the Bay, and travels northwards along the eastern half of the Bay, giving rise to rain-squalls and frequently to large atmospheric whirls or eddies, or small cyclonic storms in the front of the advancing strong air and moisture current. These whirls hence form generally near the head of the Bay, and pass landwards, very shortly after they give indications of their existence by the shifting of the winds in South-West Bengal to directions between north-east and north-west. Their passage into the interior is followed by the prevalence of strong humid winds over the Province. It depends to a large extent upon the character of the whirls, that is, whether they are concentrated or diffused, whether the rainfall that accompanies them, falls mainly in the neighbourhood of the track of the centre, or is widely distributed over the greater part or the whole of the Province. There is a very marked tendency for these small cyclonic storms to pass landward across the Balasore coast, and if this tendency is increased by the persistence of relatively low pressure in Orissa, it may happen, as during the past month, that a succession of these storms may form in the same part of the Bay, and advance towards the same part of the Orissa coast along the same path.

The Arabian Sea branch of the monsoon current exercises a considerable influence on the rainfall in Bengal and Behar during the month. It usually advances almost due west across the Bombay coast and the north of the Peninsula; and hence meets and intermingles with the Bay of Bengal branch near its western and southern limits in Orissa, Chutia Nagpur and Behar. The area over which this interaction takes place varies greatly with the relative strengths of the two currents. Over this area there is undoubtedly much ascensional motion of the air, which necessarily produces aqueous vapour condensation and rainfall.

The Bay of Bengal branch of the monsoon current, if it alone prevailed, would undoubtedly deposit its vapour as rain chiefly in the neighbourhood of the sea coast, and the hills of East and North Bengal and North Behar. The Arabian Sea branch intermingling with the former tends to give rainfall more especially to Chutia Nagpur, South Behar, and West Orissa, that is, to those districts which would receive scanty rain from the direct action of the Bay of Bengal branch. In other words, the action of the two branches combined in ordinary seasons is to give fairly uniform rainfall over the whole also Province. This explanation also indicates briefly the probability that the area of minimum rainfall of the Province will be situated in the central districts of Bengal, which are least influenced by the two chief actions giving rainfall to the Province during the month.

Hence the two most important features of the meteorology of the month are, first, the character and intensity of the two branches of the monsoon current; secondly, the occurrence, character, and paths of the small cyclonic storms of the month.

Average distribution of the rainfall in July.—The average rainfall of the month of July exceeds twenty inches in the coast districts of East Bengal, and also at the foot of the Assam and Darjeeling hills. The line of twenty inches hence runs parallel to the north-east coast of the Bay, its distance from the coast increasing eastwards. Another portion of this line runs nearly east and west parallel to the Darjeeling hills and immediately to the south of the Julpigoree and Cooch Behar districts. The line of fifteen inches average rainfall starts from Saugor Island, runs nearly east-north-east to the neighbourhood of the Tipperah hills, when it bends and runs to the north-west through Bogra and Dinagepore. Between this line and a line running from Motihari in North Behar almost due south-east parallel to the fifteen-inch line to Rajmehal, and thence through Jessore along the borders of the Chutia Nagpur district into South Behar, the rainfall varies between twelve and fifteen inches. In the area occupied by the central districts of Behar, almost enclosed by the twelve-inch line, the rainfall varies between twelve and ten inches. Within this area there are two smaller areas of interest: the first is the area of absolute maximum average rainfall of the month, which includes the Jessore district and a considerable portion of the Jessore, Nuddea and Burdwan districts. The average rainfall of this area varies between nine and ten inches.

The second area includes Patna and Behar in which the average rainfall slightly exceeds twelves inches.

The Chutia Nagpur Division and the adjacent districts of South Behar received an average rainfall between twelve and fifteen inches.

Character of the two branches of the monsoon current.—This can at present only be judged roughly. The Bombay branch has been undoubtedly weak, and is confined within narrower limits than usual. It has given very scanty rainfall in Ceylon and Southern India, moderate rainfall over the greater part of the Bombay Presidency, and heavy rainfall over the Central Provinces. It has had very little influence over the rainfall of Bengal and the greater part of the Gangetic valley. The Bay of Bengal branch has apparently been slightly weaker than usual. It has extended over a larger area, and hence has given less rainfall over the greater part of the area it supplies than the normal. Its direction in Bengal has been modified by two circumstances—first, the weakness of the Bombay branch of the monsoon current; and secondly, the persistence of unusually low pressure in Orissa. This has caused the winds in South Bengal to blow from directions much more easterly than is usual, and hence has helped to drain away the moisture from North Bengal and North Behar. The chief feature of the south-west monsoon current during the past month has been the unusually large number of feeble rushes up the Bay. These have all commenced as strong winds in the south of the Bay, and advanced up the eastern half of the Bay. They all gave rise to squally weather and rain off the Burmah and Aracan coasts, and to much eddying or rotatory motion in front, and developed into feeble cyclonic storms near the head of the Bay. Five formed and passed landwards during the month. All crossed the Orissa coast. Four out of the five crossed the same part of the coast in the immediate neighbourhood of Balasore.

Barometric depressions and storms of the month.—They were six in number, of which five formed near the head of the Bay, and the sixth in South Bengal.

1*st.*—The first storm formed at the head of the Bay in the last week of June. It was briefly described in last month's report. It advanced across the Balasore coast on the 1st of July, and passed through Chutia Nagpur and South Behar in the North-West Provinces. It gave moderately heavy rain to the whole Province until the 6th and 7th. The rainfall was heaviest in Behar.

2*nd.*—The formation of the second storm was indicated on the 8th by a rapid fall of the barometer at Akyab, and on the 9th by the usual shift of winds in South-West Bengal. It crossed the Orissa coast on the afternoon of the 10th, and marched westwards across the North Orissa hills into the Central Provinces. It gave general rain to the whole Province from the 11th until the 13th, which was heaviest in the western districts of South-West Bengal and in Chutia Nagpur.

3*rd.*—The third depression of the month was indicated by a rapid fall of the barometer at Akyab on the 14th. It formed rapidly, and advanced westwards, crossing the South Orissa coast between False Point and Gopalpore on the afternoon of the 15th. It brought moderate supplies of vapour into the Province, and gave general rain on the 16th and 17th.

4*th.*—The fourth depression began to form at the head of the Bay on the 18th. There was apparently little strength in the southerly winds feeding it. It did not develop any further until the 20th or 21st, and continued in almost the same position near the Sandheads during that interval. It increased in intensity on the 21st, and passed across the Balasore coast on the evening of the 22nd. It was broken up by the North Orissa hills, and gave very brief and moderate rain to the Province, except in the North Orissa and Midnapore districts where heavy rain was received.

5*th.*—The fifth whirl of the month began to form on the 24th. It gained strength very rapidly, and advanced across the Balasore coast on the morning of the 25th, in less than 24 hours after it first influenced the winds on the Bengal and Orissa coasts. It brought up larger supplies of vapour, and gave heavy rainfall chiefly in East and South Bengal.

6*th.*—The heavy rain which followed the advance of the last cyclonic storm gave rise to a small land-formed depression in the Jessore district on the 28th. It advanced slowly westwards across the Burdwan and Midnapore districts into Chutia Nagpur and South Behar, and thence into the North-Western Provinces, where it filled up. The centre was near Calcutta on the morning of the 29th. It gave moderately heavy and general rainfall ever South Bengal on the 28th, 29th, and 30th.

Temperature—The characteristic feature of the weather of the past month was the large number of feeble rushes of south-west monsoon winds up the Bay into Bengal, each giving two or three days of moderate and fairly general rain, separated by intervals of three or four days of warm sultry weather. Hence the temperature varied rapidly, and within wider limits than is usual in July, more especially in Behar and North Bengal. High maximum temperatures were hence registered during the month. Amongst the highest were the following:—

Motihari	...	...	...	...	99·7° on the 20th
Raneegunj	...	...	...	...	99·0° on the 19th
Gya	...	...	...	...	98·7° on the 18th
Patna	...	...	...	...	98·0° on the 1st
Mozufferpore	...	...	...	...	96·8° on the 21st

The period from 18th to the 21st was very hot and sultry over the greater part of Behar.

Rainfall.—The rainfall of the past month was considerably in defect over the greater part of the Province, and was very unequally and irregularly distributed both as to time and locality.

It has been already pointed out that the monsoon was weak during the past month, and that it brought up rain in moderate amounts by a succession of feeble inrushes. Each large influx of aqueous vapour was preceded by the formation of a small storm near the head of the Bay, which advanced westwards across the Balasore coast, and hence tended to draw the rainfall to the areas over which it passed, and therefore to diminish the rainfall over the more distant portions of the Province in Central and North Bengal and North and Central Behar. A reference to the Meteorological Tables will show that the deficiency in the rainfall was due almost entirely to the lightness of the showers, and not to any marked decrease in the number of rainy days. For example, in North Bengal, where the rainfall was nearly 33 per cent. in defect, the number of rainy days was 17, the normal number being 18.

The following give the periods of general rainfall in the Province during the month, and represent the periods of influx of aqueous vapour, and of aqueous vapour condensation and rainfall over the Province :—

First period from the 1st to the 3rd, when heavy rain fell in Orissa and Midnapore, and moderate rain over the remainder of the Province.

Second period from the 5th to the 8th, when moderate to heavy general rain occurred in East and North Bengal and Behar. Some large amounts were registered in the Julpigori and Cooch Behar districts and in North Behar, of which the following were the chief :—

Siligori on the 5th ... 6·5 inches. | Gopalgunge on the 7th... 5·71 inches.
Matabhanga on the 7th... 5·97 „ | Hajeepore „ „ ... 5·01 „

Third period from the 10th to the 13th, during which rain was received over the whole Province. It was heaviest in the western districts of South-West Bengal and in Chutia Nagpur.

Fourth period from the 14th to the 17th, when moderate rain fell over the whole Province, except in the central and western districts of Behar.

Fifth period from the 19th to the 21st, when moderate rain was received in Orissa, East and South-West Bengal, Chutia Nagpur, and the Sonthal Pergunnahs.

Sixth period from the 24th to the 26th. The influx during this period gave heavy rain in North Orissa and light to moderate rain over the whole Province, except the western districts of North and South Behar. The following were the largest falls recorded during this burst :—

Jellasore ... 5·00 inches on the 24th | Baripoda ... 4·71 inches on the 24th.
Saugor Island ... 4·34 inches on the 25th.

Seventh period from the 26th to the 29th, which gave moderate to heavy rain over the whole Province, with the exception of one or two districts in Behar.

Some heavy rainfalls were received on the 28th in Bengal, amongst which were the following :—

Siligori ...	...	...	...	7·65 inches.
Darjeeling	...	...	...	4·26 „
Hooghly ...	...	...	...	3·91 „
Azimgunj	...	...	...	3·64 „
Bhagulpore	...	...	...	3·47 „

The distribution of the rainfall of the month is so irregular that it is not possible to describe it accurately. The rainfall exceeds 20 inches on the Bengal coast, and in Julpigori and the greater part of the Cooch Behar district. Over a comparatively narrow area in North Behar, North and East Bengal, South Bengal, Orissa and the southern districts of Chutia Nagpur, it varied between 20 inches and 8 inches. Over the whole of the interior, including Shahabad, Gya, Patna, Monghyr, Durbhunga, Mozufferpore, the northern part of the Sonthal Pergunnahs, Maldah, Dinagepore, Moorshedabad, Burdwan, Nuddea, Rajshahye, Bogra, Pubna, and parts of Rungpore, Mymensingh, Furreedpore, Jessore, and Dacca the total rainfall of the month was less than eight inches in amount. The following small areas in the large area included by those districts had less than six inches of rain during the month, and hence represent the districts of least rainfall during the month.

First.—The area covered by Sasseram, Jehanabad, Behar and Nowadah in South Behar.

Second.—The area represented by the stations of Maldah, Pakour and Mohadebpore in North Bengal.

Third.—The area represented by Magoorah and Narail in South-West Bengal.

The rainfall of the month was in excess over a large part of Orissa, the southern districts of Chutia Nagpur, the Midnapore districts of South-West Bengal, and along the Bengal coast from Saugor Island to Noakholly, and locally in the Purneah district and at the foot of the hills in the Cooch Behar district. It was in defect over the remainder of the Province. The deficiency was most marked over Central Behar, Central Bengal and the Mymensingh and Dacca districts of East Bengal, over the whole of which it exceeded four inches. The deficiency exceeded six inches in the following areas :—

First.—The area represented by the stations of Behar (where the deficiency was 8·8 inches), Nowadah, Jehanabad and Sasseram in South Behar.

Second.—A small area represented by Mozufferpore in North Behar.

Third.—An area represented by the stations of Bogra, Jamalpore, Mymensingh, Kishoregunge, Moonshigunge, Magoorah and Madaripore, and hence including the greater part of the Bogra, Mymensingh, Dacca and Furreedpore districts. The deficiency in this area was greatest at Mymensingh, for which it was 8·7 inches.

Fourth.—An area represented by the stations of Dinagepore, Rungpore, Dinhatta, Cooch Behar and Matabhanga, and including a large portion of the Dinagepore, Rungpore and Cooch Behar districts. The deficiency was greatest at Kurigram, for which it was 10·1 inches.

The following table gives full data for the comparison of the actual and the normal rainfall of the month of July in all districts of the Province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance or weight being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the weekly and monthly meteorological tables. The first column gives the normal or average district rainfall as determined from the rainfall observations of the past 15 years. The second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage. The fourth column gives the same information as the third column in a slightly different form. It states as a percentage how much the district rainfall of the month varied in excess or defect from the normal rainfall, and is hence the difference between the numbers in the third column and 100:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling rain, t thunder, ρ dew, $<$ lightning, p passing temporary showers.

CALCUTTA,
The 11th August 1884.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE WEEK ENDING THE 8TH AUGUST 1884.

It was stated in the report of last week that another advance of strong south-westerly winds up the Bay was in progress at the end of the week then under review. The Akyab observations indicated the existence of an eddy or small cyclonic disturbance in the front of those advancing winds on the 31st. The winds shifted round in South Bengal on the 1st and 2nd of August in the usual manner. This disturbance, like the great majority of the preceding whirls, made for the Balasore coast on the morning of the 3rd. It advanced rapidly through Chutia Nagpur and South Behar, filling up during its motion, and disappeared beyond the limits of the Province into the North-West Provinces on the afternoon of the 4th. This disturbance gave moderate general rain to Orissa, South-West Bengal and East Bengal on the 2nd, 3rd and 4th, and to North Bengal and Behar on the 3rd and 4th. A partial break of the rains commenced on the 5th, and continued until the 7th. The break was most pronounced in North Bengal, Behar, and Chutia Nagpur. A few local showers of little importance fell on the 7th chiefly in East Bengal, and fairly general rain in East and North Bengal on the 8th. During this period the weather telegrams from the Ceylon coast stations have indicated the prevalence of strong monsoon winds in the south and centre of the Bay, so that another influx of monsoon winds and of general rain is probable over the Province.

Pressure.—Variations have been smaller in amount than they have been for some weeks previous. The passage of the small disturbance across the Balasore coast was accompanied by a rapid rise of pressure on the 3rd over the whole Province. It averaged nearly an eighth of an inch over Bengal and Behar. It fell again on the 4th, and was below the normal on the 5th. This was followed by a rapid rise on the 7th, and pressure was on that day and on the 8th above the normal to a slight extent. The mean pressure of the week was above the normal in North Behar, the area of least rainfall during the week, and below it over the remainder of the Province. The deficiency was most marked at the Orissa stations, thus indicating that Orissa is, as it has been for some time, an area of deficient pressure relative to the Province generally.

Temperature—Increased rapidly during the latter part of the week, more especially in Behar. The mean temperature of the week varied from the normal by small amounts except in South Behar, where it was 2° in excess. Bankipore registered the highest temperature of the week, 97 5° on the 3rd.

Winds—Were very light over the Province at the commencement of the week. They strengthened considerably on the 3rd, and moderate monsoon winds prevailed generally on the 4th. They began to fall off rapidly in intensity on the 5th, and were very feeble on the 7th and 8th, although they were approximately normal in direction.

Rainfall.—The general character and distribution of the rainfall of the past week has been indicated above. The slight disturbance which crossed the Balasore coast on the morning of the 3rd, brought up comparatively small supplies of vapour. Light showers fell in South-West Bengal and East Bengal on the 2nd. The rainfall was considerably larger in amount on the 3rd, and extended over the whole Province, with the exception of the Mozufferpore, Chumparun and Sarun districts. Rain fell in smaller amounts on the 4th over the whole Province, excepting the western and central districts of Behar. Showers fell on the 5th in South-West and East Bengal, and on the 6th in the western districts of South-West Bengal. No rain, with the exception of a few showers, occurred in Behar or Chutia Nagpur from the 5th to the end of the week. The 6th and 7th formed an almost complete break in the rains over the whole Province.

The showers which fell during the week were, with a few very few exceptions, not heavy. The only rainfall in 24 hours, which exceeded five inches, was registered on the 3rd at Darjeeling. Its amount was 5·03 inches.

The Darjeeling district, Balasore, Chittagong, Singbhoom and Hazaribagh received rainfall varying slightly from the normal and generally in excess.

Between 70 and 80 per cent. of the normal rainfall was received in the 24-Pergunnahs, Howrah and Hooghly; between 60 and 70 per cent. in the Patna and Noakholly districts; between 50 and 60 per cent. in the Bankoora, Beerbhoom, Burdwan, Cuttack, Burrisal Mymensingh, Dacca, and Shahabad districts; between 40 and 50 per cent. in the Julpigori, Cooch Behar, Rungpore, Midnapore, Manbhoom, Jessore, Khoolna, Furreedpore and Dinagepore districts; between 30 and 40 per cent. in the Nuddea, Gya, Pooree, Commilla, Chumparun, Bogra and Pubna districts, and in the Sonthal Pergunnahs. Less than 30 per cent. of the normal rainfall of the week was obtained in the following districts, which hence define the area of greatest deficiency of rainfall during the past week :—

MEMORANDA.

THE subjoined table exhibits the mortuary statistics of the districts in Bengal for the month of June 1884. The leading features disclosed by it are—

1. That the deaths of 98,258 persons were recorded out of a population of 66,163,884 in these districts, representing an annual ratio of 17·76 per 1,000 against 20·88 per 1,000 in the preceding month, and 15·00 per 1,000 in the corresponding month of 1883.

2. That the following districts furnished the highest proportions of deaths:—

Districts.	Ratio per mille.	*Districts.*	Ratio per mille.
Balasore	45·84	Gya	24·84
Patna	31·68	Sarun	23·64
Nuddea	27·60	Bhagulpore	23·40
Rajshahye	24·96		

3. That the mortality from the principal death-causes was as follows in comparison with the casualty rates from the same causes during the corresponding month of the preceding year:—

	Ratio per mille during—	
	June 1884.	June 1883.
Cholera	1·68	2 04
Small-pox	·36	·12
Fever	12·00	9·84
Bowel-complaints	·72	·60
Injury	·48	·48
Other causes	2·28	1·68

indicating, chiefly, that there was a sensible abatement in the mortality from cholera with a noticeable increase in that from fever.

4. That of the abovementioned diseases, cholera, small-pox, fever and "other causes" were notably fatal in the following districts:—

Cholera.	Ratio per mille.	*Small-pox.*	Ratio per mille.	*Fever.*	Ratio per mille.	*Other causes.*	Ratio per mille.

OFFICE OF SANITARY COMMISSIONER FOR BENGAL,
The 11th August 1884.

R. LIDDERDALE, M.D., *Deputy Surgeon-General,*
Sanitary Commissioner for Bengal.

MEMORANDA.

The principal features to be deduced from the vital statistics of the first class Municipalities in Bengal for the week ending 26th July 1884, as presented in the statement appended to this memoranda, are the following: —

(1) That births and deaths were registered in these Municipalities at the rates of 17·5 and 27·5 per 1,000 respectively, against 18·2 and 28 3 per 1,000, respectively, during the preceding week ending 19th July, indicating a reduction in the registration of both events.

(2) That the Municipalities which returned the highest birth and death-rates are—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Serampore	29·4	Gya	77·9
Bhagulpore	26·2	Chittagong	39·9
Chittagong	23·5	Patna	35·7
Gya	23·3	Monghyr	33·4
Shahabad	22·8	Suburbs of Calcutta	33·3
		Poori	29·9

(3) That the mean rates at which the several diseases proved fatal exhibit no marked variations in comparison with the mortality during the preceding week, thus—

	Ratio per mille during weeks ending—	
	26th July 1884.	19th July 1884.

Remarks on the fluctuations of principal staples carried over the East Indian Railway during five weeks and 2 days ended 30th June 1884.

INCREASES.

Railway Material, Foreign.—This increase is accounted for by State and other Railways being in course of construction.

Salt.—Improved demand in the Patna and Benares districts led to the increase in this staple.

Rice.—This increase is attributable to local demand in the districts affected by the deficient rainfall last year.

Piece-goods.—A better tone in the Calcutta market and larger indents from up-country dealers were the causes to which the increase in this staple may be assigned.

Hides.—This increase may be attributed to better supply and favourable market.

Coal, down.—The increase in the down coal is due to larger despatches to the Eastern Bengal Railway and to demand for brick-burning coal in the Sahebgunge district.

DECREASES.

Wheat.—The very serious decrease in this staple is due to an almost total want of demand for export.

Seeds.—The decrease is in Lin, Til, and Rape seeds, and is attributable to want of demand and generally dull markets in respect of the two former, and deficient supply of the latter.

Gunny.—The falling off in the wheat traffic accounts for this decrease.

Gram and Pulse.—The decrease in these staples may be assigned to short distance local traffic consequent on deficient rainfall.

Coal, up.—Smaller indents from Foreign Railways caused the decrease in the up-coal traffic.

Cotton.—Absence of stock and consequent dulness of market accounts for the decrease in this commodity.

Sugar.—This decrease is attributable to partial failure of the sugarcane crop last season.

Liquors.—Due to ordinary fluctuation of trade.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 24th July, 1884, and is hereby promulgated for general information:—

ACT No. XII OF 1884.

An Act to amend and provide for the extension of the Northern India Takkávi Act, 1879.

WHEREAS it is expedient to amend the Northern India Takkávi Act, 1879, and provide for its extension to any part of British India; It is hereby enacted as follows:— X of 1879.

1. (*1*) This Act may be called the Agriculturists' Loans Act, 1884; and

Short title.

Commencement.

(*2*) It shall come into force on the first day of August, 1884.

2. (*1*) This section and section 3 extend to the whole of British India.

Local extent.

(*2*) The rest of this Act extends in the first instance only to the territories respectively administered by the Governor of Bombay in Council, the Lieutenant-Governors of the North-Western Provinces and the Panjáb, and the Chief Commissioners of Oudh, the Central Provinces, Assam and Ajmer.

(*3*) But any other Local Government may, from time to time, by notification in the official Gazette, extend the rest of this Act to the whole or any part of the territories under its administration.

3. (*1*) On and from the day on which this Act comes into force, the Northern India Takkávi Act, 1879, and sections 4 and 5 of the Bombay Revenue Jurisdiction Act, 1880, shall, except as regards the recovery of advances made before this Act comes into force and of the interest thereon, be repealed.

Repeal of Act X of 1879, and sections 4 and 5 of Act XV of 1880. X of 1879. XV of 1880.

(*2*) All rules made under those Acts shall be deemed to be made under this Act.

4. (*1*) The Local Government may, from time to time, with the previous sanction of the Governor General in Council, make rules as to loans to be made to owners and occupiers of arable land, for the relief of distress, the purchase of seed or cattle, or any other purpose not specified in the Land Improvement Loans Act, 1883, but connected with agricultural objects.

Power for Local Government to make rules. XIX of 1883.

(*2*) All such rules shall be published in the local official Gazette.

5. Every loan made in accordance with such rules, all interest (if any) chargeable thereon, and costs (if any) incurred in making or recovering the same, shall, when they become due, be recoverable from the person to whom the loan was made, or from any person who has become surety for the repayment thereof, as if they were arrears of land-revenue or costs incurred in recovering the same due by the person to whom the loan was made or by his surety.

Recovery of loans.

6. When a loan is made under this Act to the members of a village-community or to any other persons on such terms that all of them are jointly and severally bound to the Government for the payment of the whole amount payable in respect thereof, and a statement showing the portion of that amount which as among themselves each is bound to contribute is entered upon the order granting the loan and is signed, marked or sealed by each of them or his agent duly authorized in this behalf and by the officer making the order, that statement shall be conclusive evidence of the portion of that amount which as among themselves each of those persons is bound to contribute.

Liability of joint borrowers as among themselves.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Report of the Select Committee on the Bill to amend and provide for the extension of the Northern India Takkávi Act, 1879, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 9th July, 1884 :—

WE, the undersigned Members of the Select Committee to which the Bill to amend and provide for the extension of the Northern India Takkávi Act, 1879, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Secretary to Government, Bombay, No. 1670, dated 23rd February, 1884, and enclosures [Printed Papers No 6].
From Secretary to Chief Commissioner, British Burma, No. 441-42A., dated 21st February, 1884 [Printed Paper No. 7].
From Secretary to Government, North-Western Provinces and Oudh, No. 413, dated 29th February, 1884 [Printed Paper No. 8],
From Chief Secretary to Government, Madras, No. 630, dated 8th March, 1884, and enclosures [Printed Papers No. 9].
From Officiating Junior Secretary to Government, Panjáb, No. 110, dated 25th March, 1884, and enclosures [Printed Papers No. 10].
From Chief Commissioner, Ajmer-Merwára, No. 231, dated 2nd April, 1884, and enclosures [Printed Papers No. 11].
From Secretary for Birár to Resident, Haidarábád, No. 1106., dated 4th April, 1884, and enclosures [Printed Papers No. 12].
From Officiating Secretary to Chief Commissioner, Assam, No. 443, dated 19th April, 1884 [Printed Paper No. 13].
From Chief Secretary to Government, Madras, No. 1010, dated 24th April, 1884, and enclosure [Printed Papers No. 14].
From Officiating Secretary to Government, Bengal, No. 282T.R., dated 6th May, 1884, and enclosures [Printed Papers No. 15].

2. We have at the instance of the Government of Bombay made the Bill applicable by its own force to that Presidency, and repealed sections 4 and 5 of Act XV of 1880, the similar law at present in force there.

3. We have considered the objections taken by the British Indian Association to sections 5 and 6, but they appear to us to be based on a misapprehension as to the effect of those sections. The Association fear that a landlord's interest may be in some way affected by a sale for arrears of advances due by his tenant, but there is nothing in the Bill to warrant anything of the kind.

Section 6 relates merely to contribution between those taking the loan, and section 5, which provides for the recovery of arrears, does not enact that they shall be recoverable as if they were arrears of land-revenue due in respect of any particular land, but merely as if they were arrears of land-revenue due by the defaulter, and accordingly no charge is created over land even when the loan has been taken by its owner.

4. We have also considered the suggestion of the Government of the Panjáb that the lambardárs of a village should be empowered to engage for a loan on behalf of the whole proprietory body, but we do not think that it would be safe to confer any such power.

As regards the inconvenience which it is suggested may arise "when it might be desirable to make a loan to a village-community as such" from requiring "the signature of each member of the community," we would observe that loans of the description contemplated by the Bill would, as a rule, be made not to village-communities as such but to individuals, and that when, with a view to having better security for the recovery of the money, it is proposed that a large number of persons should join and make themselves jointly and severally responsible for the aggregate of the loans to all, it would be comparatively immaterial whether a few more or a few less so joined.

We have, however, in order to facilitate the working of section 6, inserted words to make it clear that the signature required by that section may be affixed by an agent duly authorized.

RESOLUTION ON THE REPORT OF THE SANITARY COMMISSIONER FOR BENGAL FOR THE YEAR 1883, AND THE REPORT ON VACCINATION IN BENGAL FOR THE YEAR 1883-84.

MUNICIPAL DEPARTMENT—SANITATION.

Calcutta, the 15th August 1884.

RESOLUTION.

READ—

The Report of the Sanitary Commissioner for Bengal for the year 1883, and the Report on Vaccination in Bengal for the year 1883-84.

Read again—

The Reports for the previous year, and the Resolution recorded upon them.

In explaining the cause of delay in submitting the present Report, the Sanitary Commissioner urges that "the time allowed for the collection and analysis of the vaccination statistics of this great Province is quite insufficient." Every endeavour was made to complete the Vaccination Report in time for its incorporation with the General Report on Sanitation. Monthly returns were called for, and the vaccinating season was curtailed to admit of the earlier submission of the final returns for the year. Nevertheless, the time occupied in compiling and examining the returns was more than is allowed under existing orders. Considering the importance which is attached to the

submission of the Sanitary Report of this Province by the prescribed date, the Lieutenant-Governor trusts that still further endeavours will be made to ensure its punctual submission in the future.

2. The year under review was a comparatively healthy one, though unfavourable from an agricultural point of view. The average rainfall throughout the Province was 58·84 inches against 66·95 inches, the average of previous years. Owing to the irregular distribution of rain, the harvest, and the rice crop in particular, failed to some extent, and, as a consequence, the prices for food-grains rose everywhere, except in the Burdwan and Balasore districts, causing privation and suffering among the poorer classes. The districts which suffered most in this respect were Maldah, Khulna, the Jehanabad sub-division in Hooghly, Lohardugga, Durbhunga, and Monghyr.

3. Very little, if any, improvement was effected in the registration of vital statistics during the year. The Sanitary Commissioner observes that "the usual attention was bestowed on the subject by most of the Magisterial and Police authorities in the way of inspecting the registers, testing the chowkidars' reports, and warning or punishing, legally or departmentally, the reporters or recorders for remissness or neglect. But, with very few exceptions, their efforts to improve registration were at best partial or desultory, not having the least pretensions to system, persistency, or permanence." The districts in which the greatest interest was shown in the work were Burdwan, Bankoora, Beerbhoom, Midnapore, Rajshahye, Hooghly, 24-Pergunnahs, Nuddea, Jessore, Rungpore, Bogra, and Monghyr. Mention is made in particular of the good work done by Major Ramsay and his subordinates in the district of Nuddea, which "resulted in marked improvement in registration." The recorded death-rate of the district was 36 per mille against 40 in the previous year. This may, however, be accepted as approximately correct; and as the Sanitary Commissioner observes, "it should be remembered that the fever mortality was severer in this district in 1882." It is gratifying to notice the hearty co-operation afforded by the Municipality of Midnapore in the promotion of registration in that town. The apathy which is reported to have been shown in the matter by the members of the vaccination establishment calls for severe censure, and the Sanitary Commissioner should take such practical notice as he may think required of the conduct of those in fault.

4. Of 114 towns to which the Compulsory Registration Act IV (B C) of 1873 has been extended, in only 25 were its provisions actually enforced. The total number of prosecutions instituted during the year was 297 with 232 convictions, against 235 with 182 convictions in 1882. The largest number of prosecutions was instituted in the Suburbs of Calcutta and in Howrah. The result, though an improvement on that of the previous year, is still very unsatisfactory. The Lieutenant-Governor learns with regret that there appears to be generally no person appointed to detect and report evasions of the law, and that it is overlooked that the chowkidar is bound under penalty by section 6 of the Act to report every birth or death occurring in his beat to the Registrar. Ample provision is made in the law to ensure proper and effectual registration, and when the results are defective, as is found to be the case in most districts, it is evident that advantage has not been taken of this provision. The Sanitary Commissioner reports that "the views of Government on the subject, contained in paragraph 4 of the Resolution on the Annual Report for 1882, were conveyed to the Magistrates for communication to the municipalities in their districts, and quarterly statements of prosecutions instituted were called for, and are being submitted." Better results will be looked for in the next annual report.

5. Births were registered in 46 towns against 45 in 1882, the number recorded, exclusive of 1,437 children still-born, being 37,215, or a ratio of 22·08 per mille of the total population of the towns under registration, against 37,198 with a ratio of 22·65 recorded in the previous year. This apparent incongruity (increase in the number with a decrease in the ratio of births to population) is explained by the fact that the population and births of the town of Cuttack, which had no place in the statistics of 1882, are included

in those of the year under review. The results recorded in the last two years are closely similar. The towns in which the best results were obtained are—

	1883.	1882.		1883.	1882.
Jamalpore in Monghyr ...	49·17	43·79	Bhagulpore ...	33·64	37·87
Revilgunge	37·30	29·93	Brahmanberiah ...	33·46	35·11
Bankoora	34·93	31·47	Sitamurhi ...	31·34	37·22
Behar	34·42	32·75	Bettiah ...	30·47	29·11
Jamalpore in Mymensing ...	34·24	40·64	Gya ...	29·38	33·78
Mokamah	33·88	23·75			

In all these towns, with the exception of Bhagulpore and Gya, the birth-rate was in excess of the death-rate. The following table shows the number of births according to sex, and the proportion per cent. of male to female births :—

Sex.	In 1883.			In 1882.		
	Number of births.	Ratio per 1,000 of population.	Proportion per cent. of male to female births.	Number of births.	Ratio per 1,000 of population.	Proportion per cent. of male to female births.
Males	19,872	11·79	114	20,040	12·20	117
Females	17,343	10·29		17,158	10·44	

The preponderance of male births still continues to be a noticeable feature in the record of birth registration, illustrating the theory "that the proportion of male to female births is influenced by the relative ages of husband and wife, the male births increasing as the age of the husband preponderates over that of the wife, as is notably the case in India."

6. There was a considerable decrease in the number of deaths recorded in the selected areas during the year, the total, exclusive of 18,225 still-born children, being 1,245,676 against 1,349,651 recorded in 1882. Dr. Lidderdale rightly hesitates to infer that these figures afford either an absolute or a comparative gauge of the real mortality of the two years respectively. Registration, as he says, is "still lamentably defective." "It has improved so far only as to yield a return which bears a somewhat closer approximation to the true death-rate than the outcome of some former years, and to afford indications of the health condition of the people." This is certainly as much as can be said of returns which for 27 out of 45 districts give a death-rate of less than 20 per mille. It is of course beyond dispute that the number of deaths registered even in 1882 was much less than the number which occurred in 1883. It would, indeed, be reasonable to suppose that in the case of such a disease as cholera, which is well recognized among the people, a large decrease in the number of deaths registered indicated an actual decrease of mortality from this cause : and when it is found that local reports, apart from statistical data, are to the same effect, a generally sound conclusion as regards the incidence of this malady may be arrived at. In regard to such affections as fever and bowel-complaints, however, no deduction from the registered figures is yet possible, and the general reports are the only material available for the formation of a judgment upon the condition of the public health. The Sanitary Commissioner remarks that "a larger number of the registering circles failed to record deaths at the higher rates of 20 to 50 and above per 1,000 of population. In 1882, 354 of the 644 registering circles contributed to these rates ; this year 307 of the 648 circles furnished them." Large omissions are traceable in most of the districts, especially in Darjeeling, Mymensingh, and the Sonthal Pergunnahs. The provisions of Act IV (B.C.) of 1873, so far as relates to the registration of deaths only, have recently been extended to that portion of the Darjeeling district which lies to the west of the Teesta river, and the result of the measure will be to secure some record of the deaths in this tract where registration has hitherto been partically ignored.

7. The proportions in which the urban and the rural circles contributed to the total number of deaths recorded during the year are as follow:—

	In 1883.		In 1882.	
	Deaths.	Ratio per mille	Deaths.	Ratio per mille.
Urban	67,383	27 28	76,601	31·05
Rural	1,178,293	18 49	1,273,050	20 00
Province	1,245,676	18·82	1,349,651	20·41

These figures exhibit a diminution in both the urban and rural circles, the former to the extent of 9,218 deaths, or at 3·77 per mille of population, the latter to the extent of 94·757 deaths, or at 1·51 per mille. The following table shows the mortality during the year from specific causes as compared with that for the year 1882 and the quinquennium 1878-82:—

Cholera, small-pox and bowel-complaints would appear to have proved less fatal in 1883 than during the entire period 1878 to 1882. Fever was, according to these figures, less severe than in 1882, though considerably more so than in the quinquennium, 1878-82. The number of reported casualties from injury and other causes was slightly higher. The statistics collected during the year "again indicate that the cold or dry season is the unhealthiest in the Province, as it is during this period that cholera, fever, and bowel-complaints cause the greatest loss to life." The recorded mortality among infants is still very high, though the recorded urban ratio 178 70 is below that of England, which is said to be 182·6. The death-rates per mille of population according to nationalities were—Christians 12·52, Hindus 18·45, Mahomedans 19·91, Bhuddists 11·84, other races 15·21. The casualties among the Bhuddists was higher than it has been during any year since 1878.

8. The birth-rate in Calcutta was below that recorded for the other Bengal towns, while the death-rate was higher, being 17·15 and 28·44 respectively, against 22·08 and 27·28. The remarks that were made on the statistics furnished in the report for 1882 apply to those contained in the present report. Owing probably to a more correct diagnosis, the death-rate from fever is shown to be less, and the death-rate from "other causes" to be greater in Calcutta than in the other Bengal towns. The average mortality in the cantonments in Bengal, with a population of 33,991, rose from 13·35 per mile in 1882 to 21·50 per mille in the year under review, the chief cause of death being fever. The death-rate was highest in the Hazaribagh Cantonment. Only one death took place in Fort William. Of 21,005 European seaman who visited the Port during the year, 1,948 were admitted into hospital, of whom 81 died. There were 10 casualties besides, which occurred out of hospital. The death-rate was less than in the previous year, being 48·92 per mille against 55·80. The number of deaths among the native floating population was 178 against 186, or at the rate of 7 per mille against 7·32 in the previous year, cholera being the chief cause of death. The Native Inspector, who has been appointed to surpervise the floating population, is reported to have done his best to trace cases of sickness, and get them removed to hospital. In alluding to the healthiness of the Port during the year, the Sanitary Commissioner records the following remark, which the Lieutenant-Governor gladly reproduces: "On the whole, therefore, the year under review must be pronounced to have been a healthy one, which is a matter for congratulation, and indicative of the care and attention bestowed by the Health Officer on the sanitation of the Port."

9. Unlike the year 1882, the most prominent feature in the sanitary report for the Province during 1883 was the decrease in the registered mortality from cholera in both urban and rural circles. "The disease was present in all the 618 registering circles in the Province excepting 46, prevailing epidemically in only 47 against 115 in 1882, severely in 64 against 118, and mildly in 491 against 376, and it attacked only 6·55 per cent. of the villages against 10·98 per cent. The casualties amounted to 90,439, and the death-rate to 1·36 per 1,000 of population, the reduction on the figures of 1882 being 91,913 deaths, or at 1·39 per 1,000, and on the average of the lustrum, 1878-82, 16,107 deaths, or at ·25 per 1,000." The following statement shows the comparative registered mortality from cholera in urban and rural circles :—

	In 1883.		In 1882.	
	Deaths.	Ratio per mille.	Deaths.	Ratio per mille.
Urban circles	8,993	3·64	11,830	4 79
Rural „	81,446	1·27	170,552	2 67

The districts which would appear to have suffered most were Nuddea (4·69), Julpaiguri (4·17), Gya (3·73), 24-Pergunnahs (3·47), Shahahad (3·24), Howrah (3·00), Backergunge (2·40), Jessore (2·21), Darjeeling (2·12), Balasore (2·12), and Cuttack (1·95). A noticeable feature in the cholera history of the year is the progress of the disease in the Darjeeling district. "Commencing in the Terai, the disease spread over the whole district with epidemic virulence, excepting the large hill tract east of the Teesta and several villages west of that river. Localities which had not been visited since 1877 were invaded this year; tea-gardens and other places further in the hills than Darjeeling were attacked; plains and hills were both affected; the Darjeeling Municipality at an elevation of over 7,000 feet did not entirely escape." The recorded death-rate, which is believed to have been considerably under-stated, was 2·12 as stated above against ·35 per mille in 1882. The disease was most severe in the dry and hot months of April, May, and June, and as usual subsided during the rains The reports of the year continue to show that the disease, however propagated, is "fostered by the filthy habits and overcrowding of the population" Some attempt was made by the Civil Surgeon of Gya to discover the etiology of the disease, which broke out simultaneously in many parts of that district with unusual virulence; but although he visited many of the affected localities, his enquiries led to no satisfactory result. The conclusion he arrived at was "that the disease spread irrespective of lines of traffic, and that the prevailing winds did not influence its course." In no instance was the disease traced by him to importation. The subject of the origin and propagation of cholera is attracting much attention at present in consequence of the important discoveries which are thought to have been made by Dr. Koch and the German Cholera Commission. The Government of India have resolved to institute special enquiries, and have deputed for this purpose Dr. D. D. Cunningham, an officer of exceptional qualifications. Instances were brought to notice in which cholera was imported by coolies on their way to Assam, the medical arrangements for their charge being defective. Measures are being taken to ensure a more efficient supervision in future; and at Mugra, in the district of Hooghly, through which large numbers of coolies pass during the first half of the year, arrangements have been made to provide for their medical inspection and treatment when sick. It is not, however, possible, in the present state of the law, to enforce sanitary regulations in the case of free labourers. The conduct of the Nawab Bahadoor of Moorshedabad, and of the Rajah of Deo, and Zemindars Sham Lall Mitter and Nundo Lall Bose of Gya, in affording medical relief to the cholera-stricken among their tenantry, is highly commendable

The attention of the Suburban Municipality was drawn to the remarks made in the last report on the condition of certain bustees in the suburbs, and the Commissioner and Magistrate of the district were requested to give their personal attention to the matter. The Lieutenant-Governor has also recently called for a report on the condition of the bustees near Cossipore. During the year the Lieutenant-Governor announced his intention of relieving the Municipality of a charge of Rs. 38,000 a year on account of police to assist

the Commissioners in making adequate provision for the extension of filtered water to the suburbs. A portion of the funds thus set free was also to be devoted to the sanitary improvement of the Municipality. The whole question of the measures to be taken for the reform of the suburban bustees is under consideration.

10. Small-pox played a comparatively minor part during the year under review, the recorded number of deaths from that disease being 9,714, or a ratio of ·14 per mille of population, against 13,651, or a ratio of ·20 in the previous year. With the exception of the years 1875 and 1877, when the number of deaths recorded was 5,280 and 8,088 respectively, the mortality from small-pox in 1883 was lower than that of any year of the preceding decade. It is hoped that still better results will ensue as the value of vaccination becomes more generally known and appreciated. The disease prevailed with more or less severity in 30 circles against 33 in 1882, and was absent from 284 against 280. The proportions in which the urban and rural circles contributed to the total mortality are as follow :—

	In 1883		In 1882.	
	Deaths.	Ratio per mille.	Deaths.	Ratio per mille.
Urban circles	672	·27	853	·34
Rural „	9,042	·14	12,798	·20

The disease was found to be specially prevalent during the hot months of March to June. The largest number of casualties occurred among infants and children under 12 years of age, the proportion of deaths among them to total deaths being 71·04. The districts which suffered most were Cuttack (1,570), Pooree (841), Chumparun (657), and Mymensingh (643). Bogra was the only district in Bengal which enjoyed perfect immunity from the disease throughout the year.

11. The total registered mortality from fever was 913,766, the death-rate being 13·81 per mille of the population under registration, against 929,943 with a death-rate of 14·06 per mille in 1882, showing a reduction of 16,177 in the number of deaths, and of ·25 per mille in the death-rate. The comparative mortality registered in urban and rural circles during the last two years is shown in the following statement:—

	In 1883.		In 1882.	
	Deaths.	Ratio per mille.	Deaths.	Ratio per mille.
Urban circles	34,025	13 77	38,792	15·72
Rural „	879,741	13·81	891,151	14

The seasonal incidence of fever, as illustrated by the mortuary statistics recorded during the year, again shows that the disease is most fatal in the cold weather after the rains have ceased, especially during the months of November and December "when the sodden soil is rapidly drying, and there is a great daily range of temperature." As in the previous year, the disease was most virulent in the Burdwan, Presidency, and Rajshahye Divisions. The districts which suffered most, and the mortality recorded in each, compared with the figures for the previous year, are given in the subjoined table:—

Districts.	In 1883.		In 1882.	
	Deaths.	Ratio per mille.	Deaths.	Ratio per mille
Rajshahye	40,331	30·12	32,450	24·24
Nuddea	45,705	27 60	60,912	30·50
Burdwan	32,502	23·35	40,173	28·86
Jessore	44,882	23 14	34,090	22·93
Pubna ...	29,434	22·43	23,575	17·97
Beerbhoom	17,698	22·27	21,945	27·62
Moorshedabad	26,734	21·79	31,921	26·01
Bogra	14,184	19·31	14,487	19·72
Khulna	18,941	17·53	20,144	18 65
Dinagepore ...	26,014	17·17	23,648	15·61

These figures indicate a diminution in the fatality of the disease in nearly all the districts named, the exceptions being Rajshahye, Jessore, Pubna and Dinagepore. In Rajshahye, where the public health has been gradually deteriorating, the chief cause of suffering is attributed to a deficient and vitiated water-supply. The remarks of the Civil Surgeon on the subject will be brought to the notice of the Commissioner of the Division. It is satisfactory to see that the virulence of both the Burdwan and the Nuddea fevers is diminishing, the former at a rapid rate. There are, however, signs that it is spreading into adjoining districts, such as the Sonthal Pergunnahs, which have hitherto enjoyed a happy and remarkable immunity. Of the local enquiries instituted into the cause of fever in the various districts of the Province, mention is made in particular of the enquiry made by Dr. Ghose, Civil Sergeon of Bankoora, which has led him to form the opinion that "soil moisture is not *per se* the cause of fever, but that so long as the contagion, whatever it might be, was not introduced either by human agency or from village to village by the wind, the humidity of the soil did no harm, but the contagion once falling on congenial ground multiplied in abundance, in proportion to the soil moisture, and caused the disease. Where the moisture in the soil, owing to the proximity of a marsh, is perennially damp, there the fever prevails the most." The Civil Surgeon of Maldah remarks that "groups of people congregated thickly together in villages surrounded by soil sodden and saturated by the excremental discharges of years, little or no ventilation, air poisoned by the miasmatic exhalations of decaying animal and vegetable debris, and water rendered impure by nature and art, are all quite sufficient to account for the spread, if not the origin, of disease in an Indian village." Only four deaths occurred from fever among European seamen in the Port of Calcutta, although the number of cases admitted in hospital exceeded that of the previous year, being 323 against 251. This is chiefly owing to the absence from the Port of enteric fever during the year. There was a decline also in the mortality from fever among the native floating population, the recorded number of deaths being 22 against 26 in the previous year.

12. Under the heads of "Bowel-complaints," "Injury," and "Other diseases," the recorded mortality during the year stands at 55,270, 23,670, and 152,817, respectively Compared with the figures of the previous year, there was a decrease of 6,092 in the number of deaths from "Bowel-complaints," and an increase of 2,059 and 12,085 respectively in the casualties from "Injury" and "Other diseases." Under "Injury" the largest proportion of deaths was caused by snake-bite and attacks of wild beasts. Referring to the statistics indicating the seasonal incidence of bowel-complaints, the Sanitary Commissioner observes "that the morning and evening damps and chills and great alternations of temperature of July, August, and September, and the extreme cold night air and heavy dews of January, November, and December, cause large numbers of the poor, insufficiently clad, and poorly fed portion of the population to succumb to the influence of these maladies. To these causes may be added errors of diet, bad water; and malaria as aids to the propagation of the diseases."

13. Considerable progress was made by the Vaccination Department during the year. The operations of the Government vaccinators were extended for the first time to three thannas in the Monghyr district, seven thannas in the Tipperah district, six thannas in the Chumparun district, two thannas in Shahabad and a portion of Jehanabad in the district of Gya. The area thus protected for the first time occupies 6,179 square miles, and contains a population of 3,800,888. On the other hand, five thannas in the Purneah district, seven thannas in the Maldah district, and three thannas in the district of Bhagulpore, which cover an area of 4,416 square miles, and contain a total population of 1,916,568, were for the first time placed under the licensed system of vaccination. The whole of the Darjeeling Circle, with the exception of the hill tracts, is now vaccinated by licensed agency. In addition to the areas dealt with in former years, the areas which were thoroughly protected at the close of the season 1883-84 comprised 37,969 square miles, with a total population of 15,014,069. The circles in which the largest areas were brought under protec-

tion were Ranchi and Eastern Bengal. The following table shows the recorded number of operations performed during the year:—

* Inclusive of 10,780 repetition cases in the vaccination circles and 139 in the municipal area, aggregating 10,919.

These figures do not include the number of operations performed at the Inland Emigration Cooly Depôts for the six months ending December 1883, nor do they include the work done by 32 of the vaccinators in the Eastern Bengal Circle, whose returns were received by the Superintendent after his annual statements had been closed. Nevertheless they exhibit a satisfactory increase in the number of operations performed both in the vaccination circles and in the municipal area. The large decrease in the Darjeeling Circle is accounted for in "the change from Government to licensed agency operations in Maldah and Purneah, the Government agency on the hills having returned an excess of 6,929 operations. It is also attributed to the difficulty of securing subjects to serve as vaccinifers, which prevented the more vigorous pushing on of operations in Bogra, Rajshahye, and Rungpore, and to some extent to opposition to vaccination in the two first-named districts." The reasons given for the falling off in the number of vaccinations in the Sonthal Pergunnahs Circle are not at all satisfactory, and only tend to show the laxity which prevails in the supervision of the vaccinating establishment in this circle. Now that a separate Superintendent has been appointed, it is hoped that a substantial improvement will follow.

14. The number of successful operations performed during the year in the vaccination circles and the municipal area combined was 1,329,828 against 1,229,058 in 1882-83, the percentage of successful primary cases being 98·66 against 98·60, and of secondary cases 49·42 against 45·12. A higher standard of success was returned by the Calcutta, Metropolitan, Darjeeling, Sonthal Pergunnahs, and Eastern Bengal Circles than by the Ranchi, Behar, and Orissa Circles. There was an improvement also in the number of successful primary operations in the municipal area. Of 1,261,771 persons who were successfully vaccinated in the vaccination circles during the year, 1,275,752 were under one year of age, 836,258 were between one and six years, and 259,077 were above six years. In the municipal area the general results are found to accord with those common to the majority of the vaccination circles. It is supposed that "the main reason why a larger ratio of protection is seen among children above one and under six years of age than among infants is that parents or guardians (particularly mothers) greatly fear to expose children of tender age to vaccination, which is considered to be attended with much

risk." The following is a comparative statement of the amount and value of the work performed by the Government and licensed agencies:—

Agencies.	Circles in which employed.	Number of vaccinators employed.	Total number vaccinated during the year.	Primary Vaccination.					Re-vaccination. The work performed by the licensed agency was considerably better than that performed by the Government agency. The number of operations performed by each licensed vaccinator was, however, less than that performed by the Government vaccinators. The relative proportions of the various classes vaccinated to the total number of vaccinations were :—

	Percentage of tota vaccinations.
Christians	·32
Hindus	56·87
Mahomedans	38·35
Others	4·44

15. The public feeling in regard to vaccination continues to grow in favour of the measure, though opposition is still exhibited in every circle. "The most backward districts are Hazaribagh, the Kolhan portion of Singbhoom, Monghyr, and the districts comprising the Behar and Orissa Circles, excepting Patna in the former circle—the stoutest opponents are the higher classes of Hindus, the Marwaris, and the Mahomedan Ferazees—and the chief causes of aversion to the measure are objections based on religious grounds; leading members of communities setting a bad example and inciting the lower classes to resistance, the females having a strong objection to the measure, while the males are unable to set aside their entreaties; unwillingness to part with the virus from the arm; objection to arm-to-arm vaccination; bad vaccination engendering disbelief in the protective powers of the prophylactic." The Lieutenant-Governor learns with satisfaction that considerable assistance was afforded by many of the District and Sub-divisional Officers, and by a few private individuals, in promoting the cause of vaccination. The Commissioner of Orissa will be asked to report further on the statement that "the Magistrates of Cuttack, Balasore, and Pooree, although asked, declined to render assistance on the ground that vaccination is not compulsory." The Lieutenant-Governor desires to be further informed of the proceedings of the Sub-divisional Officer of Bagirhat, who refused to see the Deputy Superintendent of Vaccination on the ground of being otherwise engaged.

The reports of the year show that the law was introduced into the places named without much opposition, and was found to work satisfactorily. Both the Civil Surgeon of Midnapore and the Cantonment Magistrate of Dum-Dum consider the existing law to be defective in so far as it does not give the local authorities absolute power in the enforcement of its provisions. The Act continued to work smoothly in all the places to which it had been previously extended, with a few exceptions, principal among which was the town of Gya, where the wealthy class of Hindus and the priests of the old town of Gya were the most determined opponents. Six hundred persons were prosecuted for resistance, and of this number 36 were fined Rs. 105-8, the rest being discharged with a warning, which had a wholesome effect. The fees realized during the year from home vaccination, which was carried on in addition to depôt vaccination, were—in Gya Rs. 153-4, in Monghyr Rs. 111-8, and in Jamalpore Rs. 25-8. Notwithstanding the measures taken to prohibit the practice of inoculation, it was found to have been carried on clandestinely in many parts of the Province, and much of the good effected by vaccination was thereby counteracted. The protection afforded by vaccination against small-pox is again proved by the results of the past year, which show that, while the mortality from small-pox in the areas *unprotected* by vaccination stood as high as ·25 per 1,000 of population, it amounted in the *fairly well protected* areas to only ·17 per 1,000, and in the *thoroughly protected* areas to the still lower ratio of ·07 per 1,000.

17. The principal feature in the history of vaccination during the year was the great increase in the use of bovine lymph. Experiments were freely made throughout the Province, and the results were generally as successful as those achieved by the use of humanized lymph. Its efficacy was found to be greater when used direct from the calf than when transmitted in tubes. The following opinion is recorded by Dr. Gupta, whose experiments with the bovine virus in Calcutta were well conducted :—"Whenever lymph, direct from the calf, was used, success was certain : so with good lymph in tubes and used by skilful operators. In cases of failure the causes of non-success were the mixture of serum, blood, and other impurities. In such the lymph is generally coagulated, and comes out like a thread from the tube. That the bovine lymph seems more potent appears from the following facts. The fever is stronger and sets in earlier. The swellings and irritation of lymphatic glands are always greater, and, sometimes, where humanized virus had failed, bovine lymph has succeeded. In the districts (comprising the Metropolitan Circle) the inspectors and vaccinators remarked that the virus was stronger and never degenerated and died out as in former years. In persons who were inoculated during childhood, the bovine lymph has been successful. In re-vaccination cases with calf lymph the percentage of success is much higher than with humanized lymph. Bovine lymph possesses another great advantage over humanized virus, viz., that we always have a plentiful supply whereby we can meet any sudden demand." Vaccination with bovine lymph is now greatly appreciated, especially by the Christian community. It is said that the demands for it during the year were so numerous that the establishment was barely able to cope with them. In no less than 1,352 instances the calf was required to be taken for vaccination to the houses of private persons, and a proposal is now made to charge a fee in such cases in order to meet the expenditure involved. The Sanitary Commissioner considers that it is fully time that the bovine vaccination scheme should be made a permanent institution, and the Lieutenant-Governor will be glad to consider any specific proposals that may be made with this object.

18. The total expenditure on vaccination during the year amounted to Rs. 1,31,274-1-4 against Rs. 1,24,083-12-6, the total expenditure in the previous year, exhibiting an increase of Rs. 7,190-4-10. Of the total expenditure, Rs. 58,518-2-9 represents the cost of the operations conducted by the Government establishment, Rs. 63,910-3-8 that of the establishment provided by Government for supervising the operations of the licensed vaccinators, and Rs. 8,845-10-11 the cost of vaccination to municipalities. In addition to the regular expenditure, several sums received as private contributions were expended in aid of the work. The cost of each successful operation performed by the Government agency was 2 annas $5\frac{1}{3}$ pies, and that by the licensed agency 1 anna $1\frac{3}{4}$ pies, aggregating 1 anna $6\frac{1}{2}$ pies for both departments, or $\frac{1}{4}$ pie less than the aggregate of the previous year.

19. The percentage of municipal income which was expended on sanitary works during the year was 34 against 31 in the previous year, and on roads it was 18, the same as in 1882. The following table shows the special purposes for which the amount allotted for the sanitation of towns was expended.

The large increase under the head of water-supply was chiefly owing to the expenditure on the Burdwan water-supply scheme, which amounted to Rs. 1,10,519; to the extension of the Darjeeling water-supply to Kurseong at a cost of Rs 10,523; and to the improvement of defects in the water-works at Dacca, which cost Rs. 2,638. The districts in which the largest proportion of municipal income was devoted to sanitation were Julpigoree, Rungpore, Sonthal Pergunnahs, Hazaribagh, and Burdwan. Those in which less than an equitable share of municipal income was expended on sanitary improvements were Khoolna, Mymensingh, Noakholly, and Chittagong.

20. Schemes for the improvement of drainage were inaugurated, and in most cases taken in hand in Serampore, Ghattal, Berhampore, Lalbagh, Azimgunge, Dinagepore, Chittagong, and English Bazar in Maldah. Some progress was made in the Cuttack drainage scheme, which was commenced in 1879. Obstructions to drainage were removed in Nuddea, Moorshedabad, and Dinagepore. In the Sonthal Pergunnahs, a survey of the great swamp to the south of Rajmehal, which is a source of much disease, was made with a view to improve its drainage. Since the close of the year a report has been submitted on this subject, but as it appeared to the Lieutenant-Governor that the efforts made by the local landholders, who would be the chief gainers, were quite inadequate, he declined to grant any assistance from Provincial funds. Much progress was made during the year towards the completion of the Burdwan water-supply scheme, and some good work was done in improving the water-supply in the towns of Berhampore, Dacca, English Bazar, and Kurseong. A Bill to provide for the extension of the Calcutta water supply to the Suburbs has been introduced in the Legislative Council, and it is hoped that, in the course of the current year, material progress will be made with the works. A scheme has also been proposed to provide a supply of filtered water for all the riparian municipalities on the right bank of the Hooghly, from Howrah to Serampore. The difficulties in the way of carrying this into effect have been found more considerable than was anticipated, and some delay is likely to ensue before the details are worked out. The Lieutenant-Governor, however, attaches a high degree of importance to it, and he would be very reluctant to admit that the obstacles are altogether insuperable. Every assistance that can legitimately be given will be rendered, and it is hoped that before long some feasible solution will be discovered. Meanwhile the proposal is under the consideration of Government.

21. The Lieutenant-Governor is again compelled to notice unfavourably the comparatively small amount of sanitary work done by officers of the Department This subject was prominently alluded to in the Resolution recorded last year, and in view of the instructions then issued by the Sanitary Commissioner, and the remarks made by Government, it was hoped that the records of the year under review would show a marked improvement in this respect. Some slight advance there is, but much less than the Lieutenant-Governor considers he has a right to

expect. It should be distinctly understood that the primary duties of the department under the Sanitary Commissioner are of a sanitary nature. Vaccination is merely one branch of a subject which embraces all matters affecting the public health. There has been in the past a marked tendency on the part of the Sanitary Department to magnify its vaccination duties at the expense of those of a more general character. It was to check this tendency that the Lieutenant-Governor desired the Sanitary Commissioner to prescribe forms of diaries and to lay down rules to secure a greater amount of attention to sanitary work proper. It is therefore disappointing to find in a Report, which, exclusive of appendices and figured statements, extends to 107 printed pages, only six pages devoted to this subject. The Lieutenant-Governor is aware that Dr. Lidderdale resumed charge of the office of Sanitary Commissioner only a few days before the close of the year to which the Report relates, and he is therefore not responsible to a great extent for the shortcomings in question. Mr. Rivers Thompson trusts that the Sanitary Commissioner will now take such measures as will ensure that in the current year the disproportionate division of the attention of his Department between the several branches of their work may be thoroughly rectified.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

Rainfall, Weather, and State and Prospects of the Crops

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different District of Bengal, as reported to Government during the week ending the 16th August 1884.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
BENGAL.			
	Western Districts		
Burdwan Div. 1	Burdwan, Aug. 16 '84	4·28	Weather—cool and comparatively dry, with occasional showers of rain. Good showers of rain fell at the Sudder and the Raneegunge sub-divisions, but there has not yet been enough for agricultural operations. Prospects continue doubtful; transplanting being much checked and delayed. Prices not changed, but there is a tendency to rise still. Public health generally good.
	Culna ...	2·21	
	Cutwa ...	0·91	
	Raneegunge ...	3·81	
2	Bankoora, „ 16 „	2·77	Considerable rain fell during the latter part of the week. Prospects of *amun* crop not at all favourable. Want of sufficient rain is a general complaint. Prices somewhat higher than last week. Public health very good.
	Bishenpore ...	4·02	
	Mallara ...	4·62	
	Khattra ...	1·51	
3	Beerbhoom, „ 16 „	3·78	Weather—seasonable. Adequate rain in many parts of district towards the end of the week. Transplanting of paddy seedlings progressing well in consequence. Crop still very backward and full cultivation impossible. Price of rice high. Public health satisfactory.
	Rampore Haut ...	3·02	
4	Midnapore, „ 16 „	2·85	Weather—seasonable. Rain still wanted in north of district; elsewhere transplanting of *amun* paddy drawing to a close. *Aus* crop promises well. Public health fair.
5	Hooghly, „ 16 „	4·46	Weather—seasonable. Good showers of rain during the last two days of the week have much improved prospects of crops. It is doubtful if the rain has come in time to enable all the seedlings to be planted out. Health good for the time of year. No rise in prices as yet.
	Serampore ...	4·02	
	Jehanabad ...	0·23	
	Howrah, „ 18 „	2·92	Weather—cool with frequent heavy showers of rain. Early paddy is coming into ear and promises fairly well. *Amun* is being transplanted and looks well, but more rain still required for its development. Public health good. Prices stationary.
	Oolooberiah ...	0·85	
	Central Districts.		
President Div. 6	24-Pergunnahs Aug. 18 '84	2·96	Weather—seasonable. Prospects of *aus* paddy, jute, and sugarcane good. *Aus* being harvested, and the yield is estimated at about 12 annas. Transplanting of *amun* rapidly going on. Weather has lately been favourable to all crops. Public health generally good.
7	Nuddea, „ 16 „	1·74	Weather—cloudy and rainy. Harvesting of *aus* continues. More rain wanted in places for transplanting of *amun*. Fever continues.

	Narail ..	2·3	
	Bongong ..	4·21	
10	Moorshedabad, „ 16 „	2·38	Weather—cloudy and rainy. Prospects of *amun* much improved by recent rain, but seedlings in many places are almost too big to be transplanted. *Aus* on high lands a poor crop, hardly worth cutting; on churs in the north much of this crop and of jute has been flooded by the recent rise of the rivers. Public health good.
	Lalbagh ..	3·79	
	Kandi ..	3·22	
	Jungipore ...	1·77	
Rajshahye Div. 11	Dinagepore, Aug. 15 '84	2·37	Weather—seasonable, with good showers of rain. Standing crops doing well. The recent rain has facilitated transplanting of *amun* paddy. Price of rice varies from 13 to 16 seers per rupee.
12	Rajshahye, „ 16 „	4·10	Weather—slightly hot. Prospects of *amun* fairly good. Transplanting of *ropa amun* has been put off for want of sufficient rain. Public health good.
	Nattore ...	1·30	
	Nowgong ...	2 29	
13	Rungpore „ 16 „	6·94	Weather—hot and cloudy. Recent rain has greatly facilitated transplanting of *amun*, which is going on actively. Malarious fever prevalent.

25	Chittagong Hill Tracts. „ 12 „	1·96	Weather—mornings cloudy. Light showers of rain daily. *Jum* paddy ripening in some places. Sugarcane thriving well. Prospects of cotton crop good. In some places cotton trees are flowering.
	Hill Tipperah „ 13 „	·38	Weather—warm. *Amun* being transplanted *Jum* crops getting on well. Public health good.
BEHAR.			
Patna Divn. 26	Patna, Aug. 16 '84	3·69	Weather—hot and cloudy. The recent rain has greatly benefited *bhadoi* crop. Paddy seedlings, which began to wither, will now be revived, and transplanting on low lands will be carried on. Cholera and fever reported from interior.
	Behar ...	1·64	
	Dinapore ...	9·31	
27	Gya, „ 16 „	3 07	Weather—changed on Sunday evening, the 10th. Ever since rain and clouds have been spreading over the district from the south-west to the north-east. State and prospects of crops greatly improved. Transplanting going on vigorously *Bhadoi* crops which had been drooping are revived. With favourable weather in the end of the season, fair crops may be expected.
	Aurungabad ...	9·20	
	Nowada ...	1·20	
	Jehanabad ...	3·2	
28	Shahabad, „ 16 „	3 03	Weather—seasonable. Recent rain has improved prospects of standing crops, especially paddy, but more still wanted in the Bhubbhua and Buxar sub-divisions. Transplanting progressing briskly.
	Buxar ...	1·95	
	Sasseram ...	5·2	
	Bhabua ...	1·6	
29	Durbhunga, „ 16 „	·73	Weather—cloudy; sometimes stormy. Some rain fell in Tajpore, and prospects have generally improved. Rain very badly wanted in the Sudder and Madhubani sub-divisions both for *bhadoi* and *aghani* crops. Prices gradually rising. Public health good
	Madhubani ...	1·23	
	Tajpur ...	3·62	
30	Mozufferpore, „ 18 „	2 39	Frequent rain, though partial and irregularly distributed; clouds and sunshine alternately. The rainfall has secured *bhadoi* harvest; *sama, marwa, kauni, janera,* and *maize* all promising. The people are busily engaged in taking advantage of moisture to transplant paddy.
	Sitamarhi ...	4·86	
	Hajipore ..	1·59	
31	Sarun, „ 16 „	5 60	Weather—seasonable, with heavy showers of rain. Rain, though unequally distributed, has been general throughout the district, effecting a material improvement in the prospects of Indian-corn and other *bhadoi* crops. Owing to a rise in the Ganges, crops on dearah lands have in places been destroyed. Transplanting of paddy going on briskly, but more rain wanted for transplanting on high lands. Manufacture of indigo, first cutting, completed, but the outturn is very disappointing. Prices fairly steady. Cases of cholera have been reported from the Barowli outpost in the Gopalgunge sub-division; otherwise public health good.
	Sewan ..	3·45	
	Gopalgunge ...	4 93	
32	Champarun „ 16 „	1·80	Weather—hot and cloudy, with frequent showers of rain. The recent rain has done much good to *bhadoi* crops which are looking very well, but more rain wanted for transplanting of *aghani* paddy.
Bhagulpore Divn. 33	Monghyr, Aug. 16 '84	3·97	Weather—showery. The late rain has benefited standing crops very materially. Transplanting of *aghani*, which had been interrupted, is now being pushed on vigorously. Public health good. Prices steady.
	Begusarai ...	1·80	
	Jamui ..	4·77	
34	Bhagulpore, „ 18 „	·80	Want of rain in the Sudder and Soopole sub-divisions, has retarded transplantin, of paddy. Paddy seedlings have been injured. *Bhadoi* or autumn crops being cut, and outturn not expected to exceed 8 annas. Heavy rain in Banka and Mudhepoora has improved prospects of crops; paddy being transplanted wherever there has been sufficient rain. Price of rice has risen generally; at the Sudder station it is selling at 12 seers 10 chittacks per rupee.
	Banka ...	3·80	
	Mudhupura ...	5 94	
	Soopole ...	0·10	
35	Purneah, „ 16 „	4·21	Weather—showery. *Bhadoi* much damaged from drought. Transplanting stopped till lately, and seedlings damaged. Inundation from Ganges in south of district and from Kosi in west. Health fair.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR—*concld.*			
Bhagulpore Div.—*contd.* 36	Maldah, Aug. 16 '84	3·53	Weather—cool and cloudy. For want of sufficient rain very much land in the Barindra remains to be transplanted out with *haimanti* paddy. The rainfall of the week has done some good to standing crops in certain places. Multitudes of grasshoppers doing much harm to crops in thana Kharba and also in the thanas in the Barindra tract, viz. east of the river Mohananda. Prices of food grains stationary. General health good.
37	Sonthal Perghs. „ 16 „	1·93	Rainfall has been general, but hardly sufficient for all purposes. Indian-corn may now be considered safe, though the yield will in places be affected by scanty rain of the past two weeks. Paddy, which has been transplanted, now doing well, but a good deal remains to be put out; the rainfall is still inadequate for transplanting paddy on high lands. Small-pox continues at Sahebgunge, and cholera re-appearing in the Sudder sub-division.
	Deoghur ...	1·51	
	Godda ...	1·16

ORISSA.			
Orissa Divn. 38	Cuttack, Aug. 15 '84	4·95	Weather—seasonable and cloudy. *Bsali* in ear, and in some places ripening. *Sarad* being weeded and growing well. Common rice selling at from 16 to 20 seers per rupee in the town, and 22 to 28 seers in mofussil. There was sufficient rain last week almost all over the district. Public health generally good, with exception of a few cases of cholera in the interior
39	Pooree, „ 14 „	1·15	Weather—hot and cloudy. Transplanting and weeding of *sarad* crops going on, except in the tracts on the Chilka, where rain much wanted. More rain wanted everywhere. Miscellaneous crops doing well. Common rice selling at an average of 22 seers 6 chittacks per rupee in the Sudder sub-division, 24 seers 3 chittacks in the Khorda sub-division. Cholera still reported.
40	Balasore „ 15 „	3·50	Weather—cloudy with light showers of rain at intervals. Rain has fallen almost everywhere in the district. Weeding and transplanting of *sarad* crop going on. More rain wanted in Chakla Agarpara of the Bhadrak sub-division. Public health good. Price of rice stationary.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
41	Hazaribagh. Aug. 15 '84	4·57	Weather—seasonable. Prospects of *bhadoi* crops good. The late rain has greatly benefited paddy. Prices of food-grains continue high. Cholera and small-pox reported from certain police stations; otherwise general health good
42	Lohardugga, „ 16 „	4·26	Weather—seasonable. Heavy rain during the week. Prospects of crops good in consequence. Prices, however, have not improved as yet, and in some places have slightly risen. Public health good.
	Palamow ... (6th Aug. to 12th idem.)	3·23	
43	Singbhoom, „ 15 „	2·39	Weather—bright and hot. Prospects continue favourable. Indian-corn, paddy and all other crops promise well. Public health and condition of cattle good.
44	Manbhoom, „ 16 „	4·15	Weather—showery. Transplanting of winter paddy has generally made good progress, though want of rain is still complained of in places. Indian-corn and other autumn crops promise well. Coarse rice selling in the Purulia market at 19½ seers per rupee. Cholera and small-pox still reported from certain places.

CALCUTTA,
The 18th August 1884.

JOHN ELIOT,
Meteorological Reporter to the Govt. of Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE WEEK ENDING THE 15TH AUGUST 1884.

THE meteorology of the past week is of unusual interest. A break in the rains of considerable intensity had obtained previously over the whole of Behar and a large part of North Bengal. The atmospheric conditions over the Province at the beginning of the week were generally similar to those which had prevailed for some weeks previously. The chief features were the persistence of low pressure over Orissa, which had determined the paths of a succession of cyclonic vortices across the Balasore coast, and had given an unusually strong easterly component to the winds in Bengal, thus drawing the rain-bearing currents away from East and North Bengal across the western districts of South-West Bengal and Chutia Nagpur. At the commencement of the week, moderately strong monsoon winds had advanced up the Bay to the neighbourhood of the Bengal coast, and were beginning to afford general rain to South Bengal. These winds continued to give a moderate inflow of vapour, and general and frequent rain to Bengal during the whole week. About the same time, a strong advance of westerly winds across the head of the Continent began to influence the weather in Behar. Westerly winds giving heavy rain commenced in South-West Behar on the 11th and extended eastwards. The consequence of the action of these two currents was to give a falling barometer, increasing winds, and general rain, over the whole Province during the remainder of the week. The rainfall was especially heavy in South Behar, the greater part of which received amounts varying between two and three times the normal rainfall of the week. Generally, it may be stated, that Behar and Chutia Nagpur received abundant rainfall, very considerably in excess of the normal amount, whilst in Bengal and Orissa the variations from the normal amounts were generally small and counterbalanced each other, so that they received on the whole approximately normal rain. One important feature of the week was the transfer of the area of low pressure from Orissa to the south-western districts of South-West Bengal.

Pressure.—At the end of last week, pressure differed very slightly from the normal, except in Orissa, where there was a considerable deficiency. The low pressure in that division had been persistent and permanent for some months previously. The changes of pressure from the 9th to the 12th were generally small. There was a slight increase of pressure, which was most marked in Orissa. The effect of this was that the relatively low pressure in that area disappeared. On the afternoon of the 12th, pressure began to give way over the whole Province. The barometer fell continuously until the end of the week by different amounts in different parts of the Province. The fall slightly exceeded ·2″ in the south-western districts of South-West Bengal. It averaged ·19″ in South Behar and at Hazaribagh, ·18″ in East Bengal, ·15″ in Orissa and the southern districts of North Bengal, ·14″ in North Behar and 12″ in the northern districts of North Bengal. This large fall reduced pressure very considerably below the average of the period, and altered the distribution of pressure. Two areas of slightly deficient pressure with respect to the remainder of the Province were formed, the one occupying South Behar and the adjacent portion of Chutia Nagpur, the second, the south-western districts of South-West Bengal. The latter appears to be the continuation of the Orissa area of low pressure, which has hence been displaced to the north. The former depression very largely influenced the amount and distribution of the rainfall of the week. It was commencing to fill up at the end of the week and has since disappeared. The South-West Bengal depression is, on the other hand, more clearly marked, and continues to influence the weather in Bengal to a moderate extent.

Temperature.—In consequence of the abundant rainfall of the past week, temperature, which had been considerably above the average over a large part of the interior, was much reduced. The mean temperature of the week was very slightly in excess in Orissa, North Behar, and South-West Bengal. It was, on the other hand, in defect by small amounts in South Behar, Chutia Nagpur and East Bengal. High maximum temperatures were recorded in Behar at the commencement of the week, and before the present burst of rain had extended over the whole Province. The following were the highest maximum temperatures recorded during the week :—

Mozufferpore	97°	on the 9th.
Gya	96·7°	„ 9th.
Motihari	96·1°	„ 9th.
Pubna	95·5°	„ 9th.
Chupra	95·0°	„ 9th.

Winds.—Winds were very light at the beginning of the week. It was stated in last week's report that very strong monsoon winds had prevailed for some days on the Ceylon coast, and that this probably indicated the advance of strong monsoon winds up the Bay, and another burst of rainfall over the Province Their advance up the Bay, unlike previou, examples during the present rains, was not attended with any large eddying motion in fronts and hence they did not give rise to a small cyclonic storm, and have discharged their vapour over the Province quietly and without local atmospheric disturbance. A remarkable change in the winds in Behar and Chutia Nagpur commenced on the 11th. Westerly winds set in on that day at Hazaribagh and at one or two stations in South Behar. They extended on the 12th and 13th to the whole of Behar and Chutia Nagpur, and a large part of South-West Bengal. They began to give way on the 14th, and normal easterly winds were re-established in Behar on the 15th. These westerly winds appear to have been the

extension of the Bombay monsoon current eastwards beyond their ordinary limits. This is the first occasion during the present south-west monsoon that the weather and rainfall in Bengal has been directly and appreciably influenced by the Bombay monsoon current. This intrusion of westerly winds into Behar, it will be seen, gave copious rain to the greater part of South Behar, where for some weeks previous the rainfall had been very deficient.

Rainfall.—The rainfall of the past week has been unusually abundant over the greater part of the Province. The conditions under which it has occurred have been stated under the paragraphs relating to pressure and wind. Moderate supplies of aqueous vapour have been brought into the Province by the Bay of Bengal monsoon winds. The Bombay branch of the monsoon current has poured larger supplies into the western divisions. The combination of these two inflows has been to give copious rainfall to Behar and the northern district of Chutia Nagpur, and normal rainfall to Bengal. The only divisions in which it was slightly deficient during the week were Orissa and East Bengal.

Moderate rain fell on the 9th in South-West Bengal and Orissa, and light showers in East Bengal. The break in the rains continued in North Bengal until the 10th, and in Behar until the 11th. General rain was received in North Bengal and Orissa, and the greater part of South-West Bengal, and light local showers in East Bengal. A few heavy local showers also occurred in Behar.

General, and in many cases heavy, rain fell over the whole Province, excepting Orissa, on the 11th. The largest amounts were received in the northern districts of North Bengal The following are the falls exceeding three inches recorded on that day :—

Rungpore	...	...	...	...	4·17 inches.
Julpigoree	...	...	...	...	3 94 „
Buxa	...	...	...	...	3·78 „
Dinhatta	...	...	...	...	3·72 „

Very little rain fell in Orissa and the western districts of South-West Bengal on the 12th. General rain was received over the remainder of the Province. It was heaviest in South Behar, where the following amounts exceeding three inches were registered :—

Dehree	...	...	...	...	3·35 inches.
Sasseram	...	...	...	...	3 30 „
Dinapore	...	...	...	...	3·30 „
Jamui	...	...	...	...	3·04 „

General rain occurred over the whole Province on the 13th. It was more evenly distributed than on the 12th. On the 14th and 15th general rain again fell in all divisions except Orissa. The amounts varied considerably from station to station. The rainfall was most abundant in South Behar. The following amounts exceeding three inches were registered on these two days :—

Munshigunj	in the	Dacca	district	...	4·2	inches	on the 14th.
Jamui	„	Monghyr	„	...	3·09	„	„
Sasseram	„	Shahabad	„	...	3·08	„	„
Sasseram	„	„	„	...	4·05	„	on the 15th.
Jehanabad	„	Gya	„	...	3·09	„	„

The rainfall of the week was on the whole 17 per cent. below the normal in Orissa The Cuttack district received an excess of 30 per cent. The Balasore district, on the other hand, barely obtained 50 per cent of its normal amount.

South-West Bengal received an average very slightly in excess of its normal fall. Moorshedabad, Bancoora, Beerbhoom, the 24-Pergunnahs, Hooghly, Howrah, and Midnapore obtained amounts varying from 60 to 5 per cent. in excess. There was a very slight deficiency in the Jessore district. Burdwan obtained 14 per cent. less than the normal, and the Nuddea districts 22 per cent.

East Bengal received on the whole 90 per cent. of its normal amount. The Dacca, Furreedpore and Mymensingh districts received amounts from 10 to 30 per cent. in excess. Chittagong, Burisal Noakholly and Commillah received deficient rainfall, the deficiency ranging from 28 per cent. in Noakholly and Burrisal to 86 per cent. in Commillah.

The rainfall of the week was practically normal in North Bengal. Rajshahye, Dinagepore and Rungpore received amounts slightly in excess, and Bogra, Pubna and Julpigoree rainfall in defect by small amounts not exceeding 11 per cent.

The rainfall was in excess in all districts of Behar and Chutia Nagpur except the Sonthal Pergunnahs and Singbhoom, where there was a slight deficiency. The excess was less than 25 per cent. in Chumparun, Mozufferpore and Durbhunga. It was between 50 and 100 per cent. in Purneah, Hazaribagh, Manbhoom, Bhagulpore, Patna and Sarun, and exceeded 100 per cent. in the Gya and Shahabad districts, which thus formed the area of most abundant rainfall during the week. The chief feature of the rainfall of the past week is that it fell most abundantly in the districts where it has hitherto been scanty.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 15th August 1884 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling rain, t thunder, ≺ lightning, p passing temporary showers.

METEOROLOGICAL OFFICE, INDIA,
Calcutta, the 18th August 1884.

MEMORANDA.

The returns received from the first class Municipalities in Bengal during the week ending 2nd August 1884, disclose the following results:—

(1) That births were registered in these Municipalities at the rates of 18·5 per 1,000 of the living, and deaths at 28·8 per 1,000, as opposed to 17·5 and 27·5 per 1,000, respectively, during the preceding week ending 26th July.

(2) That the Municipalities which returned the highest proportions of births and deaths were—

Births.	Ratio per mille.	*Deaths.*	Ratio per mille.
Bhagulpore	44·3	Gya	71·1
Serampore	35·4	Monghyr	49·7
Chittagong	28·2	Patna	38 7
Gya	25·0	Serampore	35·4
		Bhagulpore	33 5
		Suburbs of Calcutta	30·4

(3) That the mortality from the principal diseases exhibited in the table appended to this memoranda, contrasted with the death-rates from the same causes in the preceding week, stands as follows:—

	Ratio per mille during weeks ending—	
	2nd August 1884.	26th July 1884.
Cholera	3·1	2·4
Small-pox	·5	·4
Fever	12 0	12·2
Bowel-complaints	5·2	4·2
Injury	·7	·6
Other causes	7·3	7·7

The above figures indicate that there was no very noticeable difference in fatal results from any of the diseases, except cholera and bowel-complaints.

(4) That while small-pox and injury were nowhere conspicuously severe, cholera, fever, bowel-complaints and the diseases classed under the head of "other causes," proved most fatal to life in the Municipalities named below:—

Cholera.	Ratio per mille.	*Fever.*	Ratio per mille.	*Bowel-complaints.*	Ratio per mille.	*Other causes.*	Ratio per mille.

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community taken in February 1881 was not reliable, owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

NOTIFICATION.

The 26th August 1884.—In continuation of the rules published in the notification of the 22nd December 1883, the Lieutenant-Governor is pleased to make the following rules, under section 143 of Act I of 1882 (the Inland Emigration Act), to provide for house accommodation, food, water-supply, sanitary arrangements, hospital accommodation, and medical treatment at places of labour in Chittagong and the Chittagong Hill Tracts :—

CHAPTER V.

Places of labour.

171. Each labourer and dependent shall be entitled to not less than 50 superficial feet of house accommodation; and each family shall be entitled to separate house accommodation on the above scale. Sufficient garden ground shall, if possible, be attached to each house.

172. Every house shall be kept weather-tight and sufficiently lighted and ventilated; and where iron roofs are constructed, some non-conducting material shall be used to line such roofs.

173. Raised platforms or cots for sleeping shall be provided in the labourers' houses.

174. The site occupied by labourers' houses, and the places in its neighbourhood, shall be drained and kept clean and free from rank vegetation. No hollows shall be allowed to exist for the accumulation of filthy water or of anything likely to prove injurious to health.

175. Every employer shall provide wholesome drinking water, and a sufficient supply of good water for other purposes, for his labourers, either by sinking wells, digging tanks, or in such other manner as may appear to the Inspector of Labourers to be suitable to the circumstances of the case, care being taken that the source of drinking water shall be situated at a sufficient distance from any known cause of pollution.

176. When the supply of rice in the local market is insufficient, or the price exceeds Rs. 3 per maund, the employer shall supply, or cause to be supplied, to the labourers a sufficiency of rice at a rate not exceeding Rs. 3 per maund. Ten chittacks of rice a day for each person above 10 years of age, and five for every child under that age, shall be considered a sufficient supply.

177. To every place employing more than 50 labourers a medical officer shall be appointed, who has passed the examination qualifying for the rank of hospital assistant, or of some superior grade; and such medical officer shall reside within five miles of the place where the labourers live.

178. In any place where less than 100 labourers are employed, a portion of the labourers' lines, subject to the approval of the Inspector of Labourers, may be utilized as a hospital for the treatment of ordinary and non-contagious sickness; but a central hospital for groups of two or more neighbouring places shall be provided for the treatment of serious and contagious cases.

179. The central hospital, consisting of one or more buildings, shall be separated from the labourers' houses; and shall be well raised, ventilated, lighted, properly fitted with doors, windows or jhamps, and in all respects suitable for the accommodation of the sick.

180. The hospital accommodation shall be sufficient for five patients under any circumstances; and for not less than 5 per cent. of the total number of labourers where large bodies are employed at the rate of 100 superficial feet for each patient. Also such furniture, fittings, appliances, clothing, blankets, and staff of attendants shall be provided as the Inspector may consider necessary.

181. In every place where labourers' lines are erected, proper accommodation for a dispensary or dispenser's room, and a supply of medical stores in quantities not less than those prescribed in Schedule F, shall be provided.

NOTIFICATION.

Dated Darjeeling, the 21st August 1884.

[Regulations made by His Honor the Lieutenant-Governor of Bengal, pursuant to the provisions of section 37, Act XVIII of 1879, for conducting the examination of candidates for Pleadership and Mookhtearship in the Mofussil Courts subordinate to the High Court of Judicature at Fort William in Bengal.]

1. In order to the ascertainment of the qualifications of candidates for admission as Pleaders and Mookhtears in the Mofussil Courts subordinate to the High Court of Judicature at Fort William in Bengal, the Lieutenant-Governor of Bengal will from time to time appoint Examiners in Law, who shall have a President and a Secretary.

2. The examination of candidates shall be held on such dates, within the month of February or March in each year, as shall be appointed and duly notified by the Examiners in Law.

3. The examination shall be conducted by the Examiners in Law, and shall be held under the superintendence of the person or persons appointed for that purpose.

4. The examination of candidates for Pleaderships shall be held in Calcutta; the examination for Mookhtears shall be held at Calcutta, Patna, Dacca, Cuttack, Gowhatty, and Sylhet.

5. The examination for Pleaders shall be conducted in English, and for Mookhtears in English or in the Vernacular of the district, at the option of the candidate, as declared in his application for admission to the examination.

6. The examination shall be in part by written questions, the answers to which shall be in writing, and in part *vivâ voce*. But the Examiners in Law, with the sanction of the Lieutenant-Governor, shall have power to dispense with the *vivâ voce* examination in the vernacular if it seems advisable to do so.

7. The Examiners shall prepare the written questions, of which there shall be not less than four papers for the Pleaders' and two for the Mookhtears' examinations respectively.

8. Each paper shall consist of not less than twelve questions, and shall bear a full value of 160 marks.

9. The full number of marks for the *vivâ voce* examination, in which candidates shall be asked at least five questions, shall be 50.

10. The questions shall be so framed as to test the knowledge of the candidates in the subjects mentioned in the rules passed by the High Court for the qualification, admission, and enrolment of Pleaders and Mookhtears in Mofussil Courts, and they shall be so prepared that a candidate may be able to pass by studying the regulations, enactments, and text-books therein specified.

11. The number of marks to which each candidate shall be entitled for his answers to the written or oral questions shall be determined by the Examiners in Law.

12. To be entitled to pass, candidates must obtain not less than the marks specified below:—

50 per cent. in each branch; and

66 per cent. on the aggregate number of marks for the whole examination.

13. No candidate will be allowed to enter the examination room with any books, private memoranda, or paper of any description, and any one detected doing so will forfeit all fees paid by him, and will not be permitted to undergo examination. Any candidate detected in the act of using unfair means, such as communicating with one another or copying from his neighbours or from private memoranda or books, &c., will be summarily ejected from the examination-room, and will forfeit all benefit to be derived from the previous portion of the examination, and all right to proceed further with it, together with all fees paid by him.

14. When the examination shall have been concluded, the Examiners in Law shall submit the names of those candidates who have passed, together with a report of their proceedings, to Government.

15. The names of the successful candidates shall be published in the *Calcutta Gazette*' and certificates, to be granted by the Examiners in Law under the signatures of the President and Secretary, shall be forwarded for distribution to the successful candidates by the Judges of their respective districts.
